**RE: Belmont University  
Greenhouse Gas reporting**

Dear Mr. Grones:

I.C. Thomasson Associates, Inc. (ICT) has reviewed your calculations for Belmont University's annual greenhouse gas emissions. The methods used are in line with general practices. Based on my examination of the input, formulas, and results, the calculations appear to provide an accurate indication of the greenhouse gases associated with the campus building operations.

Please call if you have any questions or comments regarding this certification.

Sincerely,

**I. C. THOMASSON ASSOCIATES, INC.**
