Jonathan,

Here are some numbers for you. Let me know if you have questions or need anything else.

From July 1, 2012 through June 30, 2013, we spent a total of \$15,096.64 on hand soap and cleaning chemicals. Of this, \$10,418.50 was spent on Green Seal Approved soaps and cleaners. (\$5,374.60 on hand soap, \$5,043.90 on other cleaners) We spent \$64.50 on products with the Eco Logo label.

Of the remainder, \$3,085.71 was spent for H2Orange2 from Envirox (which I assumed was Green Seal Approved since other products from them were), and \$1527.93 was spent on things like strippers, waxes, bleach, etc.

Hope this is helpful.

Evie
