

# Reporting Fields

For guidance and definitions, see the Credit Info and Resources tabs (above), and the [STARS Technical Manual](#).

**\* Total floor area of newly constructed or renovated building space (include projects completed within the previous five years)**

Square Feet

## Certified Projects

**\* Floor area of newly constructed or renovated building space certified Living under the Living Building Challenge**

Square Feet

**\* Floor area of newly constructed or renovated building space certified at each level under a rating system for design and construction used by an Established Green Building Council (GBC)**

	Certified Floor Area
LEED BD+C Platinum or at the highest achievable level under another rating system	* <input type="text" value="0.0"/> Square Feet
LEED BD+C Gold or at the 2nd highest level under another 4- or 5-tier GBC rating system	* <input type="text" value="290,295.0"/> Square Feet
Certified at mid-level under a 3- or 5-tier GBC rating system for design and construction (e.g. BREEAM, CASBEE, DGNB, Green Star)	* <input type="text"/> Square Feet
LEED BD+C Silver or at a step above minimum level under another 4- or 5-tier GBC rating system	* <input type="text" value="0.0"/> Square Feet
LEED BD+C Certified or certified at minimum level under another GBC rating system	* <input type="text" value="0.0"/> Square Feet

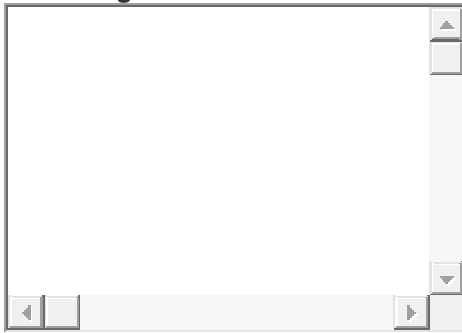

**\* Floor area of newly constructed or renovated building space certified under a non-GBC rating system for design and construction (e.g. Green Globes NC, Certified Passive House)**

Square Feet

**Percentage of newly constructed or renovated building space certified under a green building rating system for design and construction**

*If reporting certified projects, provide:*

**\* A brief description of the green building rating system(s) used and/or a list of certified buildings and ratings**

*If reporting uncertified projects, provide:*

## Uncertified Projects

**\* Floor area of newly constructed or renovated building space that is NOT certified, but that was designed and constructed in accordance with published green building guidelines and policies**

Square Feet

*If reporting published green building guidelines or policies, provide the following:*

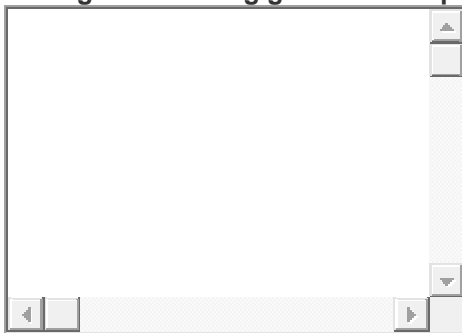

**\* A copy of the green building guidelines or policies**

Currently: <secure/505/6/475/2712/ExecutiveSummary.pdf>  Clear

Change:

*Upload a copy of the guidelines/policies and/or provide the text below.*

**\* The green building guidelines or policies**

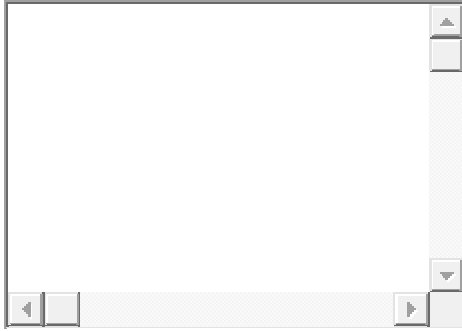

**\* Do the green building guidelines or policies cover the following?**

	Yes or No
Impacts on the surrounding site (e.g. guidelines to reuse previously developed land, protect environmentally sensitive areas, and otherwise minimize site impacts)	* <input type="text" value="Unknown"/> ▼
Energy consumption (e.g. policies requiring a minimum level of energy efficiency for buildings and their systems)	* <input type="text" value="Unknown"/> ▼
Building-level energy metering	* <input type="text" value="Unknown"/> ▼
Use of environmentally preferable materials (e.g. guidelines to minimize the life cycle impacts associated with building materials)	* <input type="text" value="Unknown"/> ▼
Indoor environmental quality (i.e. guidelines to protect the health and comfort of building occupants)	* <input type="text" value="Unknown"/> ▼
Water consumption (e.g. requiring minimum standards of efficiency for indoor and outdoor water use)	* <input type="text" value="Unknown"/> ▼
Building-level water metering	* <input type="text" value="Unknown"/> ▼

\* A brief description of the green building guidelines or policies and/or a list or sample of buildings covered

\* A brief description of how the institution ensures compliance with green building design and construction guidelines and policies

## Optional Fields

### **The website URL where information about the programs or initiatives is available**

*Please note that additional URLs may be entered into the description fields or the public note section of STARS credits. These additional URLs will be accessible in the live report.*

### **Additional documentation to support the submission**
