---

Congratulations on your new Certified Wildlife Habitat!

Dear Matt Bailey,

Congratulations! Your property is now an official Certified Wildlife Habitat® site with the National Wildlife Federation and .

Your Certified Wildlife Habitat® ID is: 271504

**We are so proud to recognize you as a friend of wildlife who is helping birds, butterflies and other local wildlife.** Your efforts also contribute to a growing corridor of hundreds of certified habitats in your state through our partnership with .

As a Certified Wildlife Habitat® owner, you will receive the following benefits:

- Your Certified Wildlife Habitat® certificate will arrive within 2-4 weeks. Signs or other purchased items will arrive separately.
- Subscription to the Garden for Wildlife e-newsletter with timely tips to garden for wildlife.
- 1 year subscription to the award-winning National Wildlife magazine.
- [10% off the National Wildlife Federation shop](#), including nesting boxes, feeders, birdbaths, and other items to enhance your wildlife garden. Use code 93701 at checkout.

## Receipt

Please keep this receipt for your records. Thank you again for your commitment to provide a safe haven for local wildlife!

<b>Item</b>	<b>Price</b>
Certified Wildlife Habitat Registration	\$20.00
Certification + Lawn Plaque	\$99.00
Donation	\$0.00
Discount	-\$0.00
Subtotal	\$119.00
Shipping & Handling (Charged on signs and other products)	\$5.94
<b>GRAND TOTAL</b>	<b>\$124.94</b>

Sincerely,

David Mizejewski  
NWF Naturalist

**Project Wingspan Program 2019-2022  
Monarch & Other Native Pollinator Habitat Management Agreement**

**Project Wingspan** seeks to increase monarch and imperiled pollinator habitat by engaging public land managers and private land stewards throughout the Midwest and Great Lakes landscape through a series of habitat enhancement activities. Habitat management enhancements include: seeding/planting native milkweed and forage plants, installing windbreaks or native plant hedgerows, invasive species control (weed removal, treatment of woody plant encroachment, etc.), conducting prescribed burns, adopting a limited mowing schedule outside of monarch migration periods (for roadsides and ROWs limited to 1 to 2 times per year), and/or adopting an integrated vegetation management (IVM) program. We recognize that not every management area will practice all actions described above and is dependent on land-use sector.

While we realize public and private lands are managed for multiple species, to ensure that monarch and other native pollinator habitat activities take place on lands that have a landowner or manager committed to pollinator conservation, including long-term habitat management and maintenance, it is requested that landowners and/or land managers sign this agreement for each site recognized as an active participant in this comprehensive survey of viable habitat and potential recipient of seed or plug awards generated by the project. The habitat acres secured through these letters of commitment will help to ensure long-term pollinator habitat conservation efforts across the Midwest and Great Lakes region.

**Site Background**

Site Name:	Fisheries & Wildlife Natural Area	Total Acres:	6 acres
Landowner:	Michigan State University	Pollinator Habitat Acres:	1 acre
Address:	1060 Stadium Dr. B	E-Mail:	baile227@msu.edu
City:	EAST LANSING	Phone:	517 618 6857
County:	Ingham	Zip code:	48824
State:	MI		

**Monarch and Other Pollinator Habitat Actions Taken** (describe actions taken place to enhance the site for monarchs and other pollinators):

weed removal  
 Invasive species removal  
 seeding/planting

**Long-Term Commitment**

I, the Landowner/Land Manager, commit to keeping the above named site as pollinator habitat for a minimum of 5 years. During the next 5 years, I will continue to enhance and manage the site for monarchs and other native pollinators. The current actions described above accurately reflect the manner in which the site is managed. If changes to the above activities are undertaken I will notify the Pollinator Partnership so that the site record can be updated.

I understand this effort is completely voluntary and does not come with any funding or commitments from the Pollinator Partnership or U.S. Fish and Wildlife Service. I also understand this document is not legally binding.
