Meghan Fay Zahniser  
Executive Director  
Association for the Advancement of Sustainability in Higher Education  
2401 Walnut Street, Suite 102  
Philadelphia, PA 19103

Dear Ms. Zahniser,

On behalf of Knox College, I am pleased to submit our fourth STARS report following submissions in 2014, 2015, and 2018.

Knox College is dedicated to a socially equitable world and ecologically sustainable future. Founded on principles of equality, Knox has long stood in support of each individual's ability to grow, learn, and contribute to the greater good of the community regardless of their race, gender, or financial means. A natural outgrowth of Knox's founding principles is the stewardship of the planet on which we all rely. This commitment to social and environmental sustainability has been integrated into many aspects of the College's curriculum, operations, planning, and community outreach, and the results are tangible.

Knox's continued participation in STARS provides the opportunity to reflect on sustainability efforts. The data provided for this report come from the collaboration of many people across campus. These efforts cement the working relationships between departments and also opens dialogue about where improvements may reside. In the coming years, we plan to establish written procedures for many of the efforts we practice, as a way to institutionalize our commitment to sustainable choices.

We are proud to participate in the STARS voluntary self-reporting framework and recognize that regular self-evaluation enables us to continuously expand and improve our sustainability practices. I affirm that the information in this report is true to the best of my knowledge.

Sincerely,

Teresa L. Amott  
President
