# STARS 2.2 Food and Beverage Purchasing Inventory

This template is provided to help STARS participants document purchases that earn points in the Food and Beverage Purchasing credit.

## Step 1 Record total food and beverage expenditures during the reporting period.

Institution	University of Montana Campus Dining
Reporting period (e.g., Jan. - June 2019)	9/01/2019- 9/30/2019 & 3/1/2020-3/31/2020
Total food and beverage expenditures in the reporting period	743,020.13
Currency used (e.g., USD, CAD, MXN, AUD, EUR)	USD

## Step 2 Record purchases that are sustainably or ethically produced in the appropriate tab(s), below ('Certified/verified purchases' and 'Institution-affirmed production').

## Step 3 Record expenditures on plant-based foods in the appropriate tab. A detailed inventory is NOT required.

## Step 4 Access the STARS Reporting Tool to upload the completed spreadsheet and report the following results:

Percentage of total annual food and beverage expenditures on products that are sustainably or ethically produced	13.58%	READ ONLY. DO NOT EDIT.
Percentage of total annual food and beverage expenditures on plant-based foods	26.36%	READ ONLY. DO NOT EDIT.

[For additional guidance, visit the STARS Help Center.](#)

## STARS 2.2 Food and Beverage Purchasing Inventory

### Certified/verified purchases

Total expenditures on certified/verified products

51,671.88

READ ONLY. DO NOT EDIT.

To count as sustainably or ethically produced, a food or beverage product must meet one or more of the standards listed in Standards and Terms. NGO-recommended seafood should also be reported here, whether or not it carries certifications.

Product name, label, or brand	Product description/type	Recognized sustainability standard met	Notes (e.g. other standards met)	Total spend
Eggs Whole Liquid Cage Free Wilcox Farm	Eggs	Certified Humane (Humane Farm Animal Care)	Non GMO Project Verified, Oregon Tilth, USDA Organic, Salmon Safe Certified	9,190.86

## STARS 2.2 Food and Beverage Purchasing Inventory

### Institution-affirmed production

An exemption from the certification/verification requirement is granted to producers who are engaged in sustainable production, but for whom certification is either not accessible or not cost effective (e.g., campus farms/gardens and small producers).

Total expenditures on institution-affirmed products

49,210.09

READ ONLY. DO NOT EDIT.

Name of the farm, boat, or harvester	Product description/type	Source [1]	Supplier/intermediary (if not directly sourced) [2]	Institution affirms that the production methods are consistent with:	Evidence on which the affirmation is based (e.g., site visits or documentation from the producer)	Total spend
College Gardens	Produce, Duck Eggs, Honey	Campus farm or garden	directly sourced	Principles of organic agriculture (IFOAM)	Garden manager has verified that organic methods are used.	5,295.37
Western Montana Growers	Produce	Local/regional food hub	Western Montana Growers Co-Op	Principles of organic agriculture (IFOAM)	Western Montana Growers Cooperative (WMGC) is a coalition of growers in the Flathead, Jocko, Mission and Bitterroot Valleys whose goal is to provide the market in our region with fresh, quality products from our farms. We strive to improve the local food system of our area by enhancing the sustainability of local farms and contributing to local economic growth, while reducing the demand of produce being shipped here from long distances. Farmer owned.	12,655.60
Western Montana Fair Livestock - Youth 4H	Meat - Lamb, Pork	Direct purchase	directly sourced	Principles of organic agriculture (IFOAM)	Youth 4H livestock production. Small producer. Short Food Supply Chain.	8,557.48
Bandy Ranch	Meat - Beef	Campus farm or garden	directly sourced	Principles of organic agriculture (IFOAM)	Bandy Ranch is a research ranch owned by the Forestry department at University of Montana. The land is owned by the University of Montana and is used for sustainable cattle farming research. These cattle are 100% grass-fed and finished and pasture raised. Campus Dining provides funds to slaughter and process these cattle and then we serve the beef across campus in our dining facilities.	12,656.64
Mannix Family Grass Finished Beef	Meat - Beef	Direct purchase	directly sourced	Principles of organic agriculture (IFOAM)	We aim to provide our cattle with the highest standard of care and are operating under the philosophy that low-stress stockmanship and calving in sync with nature are best practices that decrease stress and lead to healthier more productive cattle. More flavorful and more nutrient dense meat comes starts with grazing diverse and nutrient dense forages, which grow in healthier soils, which can be built with careful grazing management. We practice carefully managed Holistic grazing, working to rotate cattle, provide pastures with adequate rest, maintain ground cover, and build soil. Our grass finished beef are grazed on an increasing plane of nutrition, starting by grazing along side their mothers, moving to rotational grazing on our irrigated pastures as yearlings, and finishing on our highest quality dryland pastures.	1,170.00
Montana Gluten Free	Proatina Oatmeal	Regional distributor	Quality Food Distributors	Principles of organic agriculture (IFOAM)	Short Food Supply Chain, Small Producer, incubates very small family farms to produce Proatina oats as an additional source of revenue. Farmed, milled, packaged, distributed in Montana.	375.00

Yellowstone Grass Fed Beef	Meat - Beef		Directly Sourced		<p>Raised humanely on pasture without the use of hormones or antibiotics, our cattle are treated with respect.</p> <p>We practice planned grazing and holistic management to encourage biodiverse and resilient rangeland ecosystems, managing our impact to encourage native plant and wildlife species while building healthy soil. We recognize the importance of sharing the range, and use and wildlife-friendly practices to limit interference with the antelope, bears, wolves, and countless other species that also call Montana, home.</p> <p>As stewards of the land and of our rural communities, Yellowstone Grassfed Beef is dedicated to practicing innovative and ecologically sustainable ranching methods that allow us to preserve Montana's open lands and its rich ranching tradition.</p>	8,500.00
		Direct purchase		Principles of organic agriculture (IFOAM)		

To qualify, ALL of the following criteria must be met:

- 1) The product is single-ingredient (e.g., apples, coffee, fish).
- 2) The product is sourced through a short food supply chain (SFSC) that provides full traceability from identified farms, boats, or harvesters to the institution.
- 3) The institution is able to affirm (e.g., through site visits or documentation from the producer or intermediary) that the production methods used are consistent with the principles of organic agriculture articulated in IFOAM COROS, the FAO Code of Conduct for Responsible Fisheries, or the principles of fair trade adopted by the World Fair Trade Organization (WFTO).

# STARS 2.2 Food and Beverage Purchasing Inventory

## Standards and Terms

### **Plant-based foods**

Consistent with Menus of Change, plant-based ingredients and foods are defined as “fruits and vegetables (produce); whole grains; beans, other legumes (pulses), and soy foods; nuts and seeds; plant oils; and herbs and spices”, simple combinations of these foods and their derivatives, and vegetarian/vegan alternatives to meat and dairy:

- Unprocessed or minimally processed fruits, vegetables, whole grains, legumes, mushrooms, nuts, seeds, herbs, and spices. This includes cereal grains and flours; plain oatmeal, pasta, and noodles; fruit or vegetable juices; tea and coffee.
- Processed culinary ingredients derived from plants or nature, for example, vegetable oils crushed from seeds, nuts, or fruits such as olives; starches extracted from corn and other plants; sugar and sweeteners obtained from plants; honey extracted from combs and syrup from maple trees; soy sauce and vinegar.
- Simple processed foods composed primarily of unprocessed or minimally processed plant-based foods and plant-based culinary ingredients, for example, canned or bottled vegetables, fruits, and legumes; tomato extract, pastes, or concentrates; salted or sugared nuts and seeds; fruits in syrup; unpackaged freshly made breads; cereal products such as flavored oatmeal; tofu and tempeh; and fermented alcoholic beverages such as wine, beer, and cider.
- Vegetarian/vegan alternatives to meat and dairy, for example, plant-based ‘milks’, meat substitutes, margarines and spreads.

Animal products (i.e., meat, poultry, fish, seafood, eggs, and dairy) and their derivatives, drinking water, and most ultra-processed foods do NOT qualify as plant-based foods. Examples of ultra-processed foods include sweet or savory packaged snacks; chocolate and candies (confectionary); mass produced packaged breads and buns; cookies (biscuits), pastries, cakes, and cake mixes; instant sauces; many ready to heat products including pre-prepared pies and pasta and pizza dishes; powdered and packaged ‘instant’ soups, noodles and desserts; carbonated drinks; ‘energy’ drinks; ‘fruit’ drinks; and distilled alcoholic beverages such as whiskey, gin, rum, and vodka.

### **Short food supply chain**

Short food supply chains (SFSCs) are defined as supply chains with a minimal number of intermediaries (ideally, no more than one) between identified farms, boats, or harvesters, and institutions. SFSCs pass transparent information about the origin, production method, and sustainability of the product to the consumer and provide full traceability through all stages of production, processing, and distribution. Examples include direct sales, contract production, regional food hubs, regional farm-to-institution programs, organic growers’ cooperatives, and community-supported fishery programs.

### **Small producer**

Consistent with FLOCERT, Fairtrade International, and the World Fair Trade Organization (WFTO), a small producer or small-scale producer is “a producer who is not structurally dependent on permanent hired labour” and who manages their production activity mainly with a family workforce or a workforce of owner-operators.

### **Sustainably or ethically produced**

To count as sustainably or ethically produced, a food or beverage product must meet one or more of the following standards. Certification/verification is required, however exemptions are provided for NGO-recommended seafood and institution-affirmed production, as outlined below.

### *Sustainable agriculture*

<p>International standards</p> <ul style="list-style-type: none"><li>- Biodynamic Certified (Demeter)</li><li>- Bird Friendly Coffee</li><li>- Certified Organic under any IFOAM-endorsed standard</li><li>- Certified Sustainably Grown (SCS)</li><li>- LEAF Marque (Linking Environment and Farming)</li><li>- Naturland certified</li><li>- Rainforest Alliance Certified (Sustainable Agriculture SAN Standard)</li><li>- Regenerative Organic Certified</li><li>- UTZ certified</li></ul>	<p>Regional standards</p> <ul style="list-style-type: none"><li>- American National Standard for Sustainable Agriculture (ANSI/LEO-4000) (Silver or higher) - U.S.</li><li>- Bee Better Certified (Xerces Society) - U.S.</li><li>- Biopartenaire label - France</li><li>- Filière Biologique du Québec (BIO Québec, Aliments du Québec - Bio, and Aliments préparés au Québec – Bio)</li><li>- Food Alliance Certified - U.S.</li><li>- Participatory Guarantee System (PGS) verified (e.g., Certified Naturally Grown)</li><li>- Protected Harvest Certified - U.S.</li><li>- Salmon Safe Certified - U.S.</li><li>- USDA Transitional Organic - U.S.</li></ul>
--	---

Other sustainability standards and ISO Type I ecolabels developed/administered by a Global Ecolabelling Network or ISEAL Alliance member organization OR that meet or exceed the minimum crop production standards outlined in a relevant IFOAM-endorsed organic program or IFOAM Common Objectives and Requirements of Organic Standards (COROS).

### *Sustainable seafood*

<p>International standards</p> <ul style="list-style-type: none"><li>- Marine Stewardship Council blue ecolabel (paired with MSC Chain of Custody certification)</li><li>- Monterey Bay Aquarium Seafood Watch (Best Choices, Good Alternatives, and Recommended Eco-Certifications)</li></ul>	<p>Regional standards (for products not covered by the international standards)</p> <ul style="list-style-type: none"><li>- Australian Marine Conservation Society (Green 'Better Choice')</li><li>- Marine Conservation Society (Rating 1-2) - U.K.</li><li>- Mr. Goodfish seasonal recommendations - Europe</li><li>- Ocean Wise Recommended - Canada</li><li>- Royal Forest and Bird Protection Society (Ranking A-C) - New Zealand</li><li>- Sailors for the Sea Blue list - Japan</li><li>- WWF/Good Fish Foundation (Green and Amber/Yellow list) - Africa, Asia, Europe</li></ul>
--	--

### *Fair trade/labor*

<p>International standards</p> <ul style="list-style-type: none"><li>- Ecocert Fair Trade (EFT)</li><li>- Fair for Life (IMO)</li><li>- Fairtrade mark (Fairtrade International)</li><li>- Fair Trade Certified (Fair Trade USA)</li><li>- FairWild certified</li><li>- Guaranteed Fair Trade (WFTO)</li><li>- Hand in Hand (Rapunzel)</li><li>- Small Producers' Symbol (SPP)</li></ul>	<p>Regional standards</p> <ul style="list-style-type: none"><li>- Equitable Food Initiative certified - U.S.</li><li>- Fair Food Program (Fair Food Standards Council / Coalition of Immokalee Workers) - U.S.</li><li>- Fair Trade Federation member - U.S. and Canada</li><li>- Food Justice Certified (Agricultural Justice Project) - U.S.</li><li>- Milk with Dignity (Migrant Justice) - U.S.</li></ul>
--	---

Other fair trade/labor standards developed/administered by a farmworker organization or a Global Ecolabelling Network, ISEAL Alliance, or WFTO member organization.

### *Humane animal care*

<p><b>International standards</b></p> <ul style="list-style-type: none"> <li>- Animal Welfare Approved (A Greener World)</li> <li>- Certified Humane Raised and Handled</li> <li>- Global Animal Partnership Certified - Step 2 and above</li> </ul>	<p><b>Regional standards</b></p> <ul style="list-style-type: none"> <li>- AGA-Certified Grassfed - U.S.</li> <li>- American Humane Certified (Laying Hens - Free Range and Pasture only) - U.S. and Canada</li> <li>- Bioland - Germany</li> <li>- BuyingPoultry (Best Choices and Better Choices)</li> <li>- Label Rouge - France</li> <li>- NOFA-NY or PCO Certified 100% Grassfed - U.S.</li> <li>- RSPCA Approved - Australia</li> <li>- RSPCA Assured - U.K.</li> <li>- SPCA Certified - Canada</li> </ul>
--	---

Other animal welfare standards and ISO Type I ecolabels that exceed the minimum animal husbandry standards outlined in a relevant IFOAM-endorsed organic program or IFOAM COROS.

*Student-led verification programs*

- Good Food. Products that have been designated as Community-Based, Ecologically-Sound, Humane, and/or Socially-Just by student researchers running the Good Food Calculator and validated by Meal Exchange (Canada).
- Real Food. Products that have been designated as Ecologically Sound, Fair, Humane, and/or Local & Community Based by student researchers running the Real Food Calculator and validated by the Real Food Challenge (U.S.).

**Vegetarian/vegan**

Consistent with V-Label criteria and European Vegetarian Union recommendations, “food and other products that do not contain animals or parts of animals are considered vegetarian”. Vegetarian products may be created with the help of living animals and animal-derived products (e.g., dairy, eggs, and honey). Vegan products are vegetarian products for which no ingredients, processing aids, or substances of animal origin have been used at any stage of production and processing.

[1] To qualify, a product must be sourced through a short food supply chain that passes transparent information about the origin, production method, and sustainability of the product to the consumer and provide full traceability through all stages of production, processing, and distribution.

[2] To qualify, there must be a minimal number of intermediaries (ideally, no more than one) between identified farms, boats, or harvesters, and institutions.
