

LAWRENCE UNIVERSITY

711 E BOLDT WAY
APPLETON WI 54911-3699

March 29, 2013

Lawrence's residential program supports a friendly hall energy competition. The competition is held between two halls of comparable construction, age of the hall (early 60's), and student population (170's). Bragging rights go to the hall that can conserve the greatest amount of energy. This year these halls will show live output on digital displays in their lobbies in order to keep students informed and aware of their efforts.

Sincerely,

A handwritten signature in cursive script that reads "Amy Uecke".

Amy Uecke

Associate Dean of Students for Campus Life
Lawrence University
