

Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM

DATE: January 6th, 2015
FACILITY or COMPANY NAME: Segundo Dining Commons
TYPE OF BUSINESS: Food Services
OF EMPLOYEES: 150 - 200 (900 campuswide)
ADDRESS: 1049 La Rue Rd.
CITY, ZIP CODE: Davis, 95616
CONTACT PERSON: Ben Thomas
PHONE/FAX: 530-754-7128 / 530-752-4799
EMAIL: benjamin.thomas@sodexo.com
WEBSITE: dining.ucdavis.edu

- If there are things you are doing at your place of business that you believe to be sustainable business practices, but the measures are not found on our checklists, please utilize the "other" box below each section of every category. We encourage businesses to include anything relevant to sustainability. You may include attached pages as well if needed.
 - You can find other *suggested measures* at www.SacramentoAreaSustainableBusiness.org which will assist you in considering other measures that will help you through the certification process.
 - **IMPORTANT:** Before you undertake facility and practice changes, contact your local utilities to determine what no-cost programs and rebates are available. In many cases there are generous rebates available and many utilities require that you contact them first prior to making facility changes. Making facility changes before applying for a rebate will often make your business ineligible for rebates.
- NOTE:** Any measures already taken by your business can be counted and should be checked off on these lists. If you are unable to find appropriate measures for your business on these checklists, you may propose alternative measures or request exemption from certain requirements. Call the Business Environmental Resource Center at (916) 874-2100 to find contacts for your local utility provider.

STATEMENT OF CERTIFICATION

I certify that this document and all attachments were prepared under my direction or supervision in accordance with a system to assure that qualified personnel properly gather and evaluate the information submitted, and that the statements and information in the document are true, accurate, and complete.

I affirm that this facility has implemented the Sustainable Business practices and measures as indicated. These measures are to be maintained for a 3-year period from certification. If any of these measures are discontinued I will contact the Sustainable Business Program for assistance in selecting alternative measures.

I further certify that to the best of my knowledge, the facility is in compliance with all applicable environmental regulations as set forth by Federal, State, and local agencies, and understand that any non-compliance may result in the revocation of the Sacramento Area Sustainable Business certification.

COMPLETED CHECKLISTS MUST BE SUBMITTED BEFORE SITE VISIT FOR VERIFICATION.

BUSINESS REPRESENTATIVE:

SIGNATURE:  DATE: 1-6-15

SUSTAINABLE BUSINESS PROGRAM COORDINATOR:

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

WATER CONSERVATION

**Equipment/Facility Changes*
Required minimum of the selected measures – 5**

	Indoor Equipment/Facility Changes	Date Verified
<input type="checkbox"/>	Complete a water use assessment of your facility.* Contact your local water provider to schedule this free service. (note: required for Silver level certification)	
<input checked="" type="checkbox"/>	Install water efficient non-flushing or 0.5 gallons per flush (gpf) urinals.	
<input checked="" type="checkbox"/>	Install water efficient aerators: 1.5 gpm for sink faucets & lavatory sinks; 2.2 gpm for kitchen sinks.	
<input type="checkbox"/>	Install high efficiency toilets (HET) – 1.3 gallons per flush or less (rebates may be available from some water utilities).*	
<input checked="" type="checkbox"/>	Install water efficient toilets – 1.6 gallons per flush or less (rebates may be available from some water utilities).*	
<input checked="" type="checkbox"/>	Install pre-rinse valves (rated at 1.6 gallons per minute or less at 80 psi).* (rebates or free valves may be available from your water utility).	
<input type="checkbox"/>	Install quick-closing toilet flappers.	
<input type="checkbox"/>	Install self-closing faucets in restrooms.	
<input type="checkbox"/>	Install toilet retrofit kits. *	
<input type="checkbox"/>	<i>Placer County:</i> Sign up or participate in the Placer County Water Agency (PCWA) or City of Roseville Water Efficiency Programs.	
<input checked="" type="checkbox"/>	Install a water efficient irrigation system, using a low volume drip system that applies water to soil / plant roots, matched precipitation rate heads for turf areas, and weather based irrigation controllers.	
<input checked="" type="checkbox"/>	Reduce the use of turf grass to only what is necessary and avoid turf on slopes. Use drought resistant native and Mediterranean plant species.	
<input checked="" type="checkbox"/>	Reduce water pressure to no higher than 70 psi by installing pressure-reducing valves.	
<input type="checkbox"/>	Use positive shut off nozzles on all hoses.	
<input checked="" type="checkbox"/>	Group plants with similar water requirements together on the same irrigation line, and separate plants with different water requirements on separate irrigation lines.	
<input type="checkbox"/>	Other:	

* Contact your local water utility for more information on rebates for replacement of pre-rinse spray valves, toilets and urinals. Information on water efficient product ratings and information is available from the California Urban Water Conservation Council under "Product News": http://www.cuwcc.org/products_tech.lasso

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

WATER CONSERVATION		
Practice Changes Required minimum of the selected measures -- 5		
	Indoor Practice Changes	Date Verified
See Notes	<input checked="" type="checkbox"/> Adjust boiler and cooling tower blow down rate to maintain TDS (total dissolved solids) at levels recommended by manufacturers' specifications.	
	<input checked="" type="checkbox"/> Regularly check for and repair plumbing leaks in your kitchen and restrooms.	
	<input checked="" type="checkbox"/> Shut off water-cooled air conditioning units when not needed.	
	<input type="checkbox"/> Install signs in restrooms encouraging water conservation (stickers or other signage may be available from your water utility).*	
	<input type="checkbox"/> Learn how to read your water meter and/or bill as a way to detect leaks and problems.	
	<input checked="" type="checkbox"/> Use dry surface cleaning methods, followed by damp mopping or wiping instead of hosing down indoor floors.	
	<input type="checkbox"/> Post sign to remind employees to turn off food preparation sink faucets while not in use, or install foot triggers on sink faucets.	
	<input type="checkbox"/> Other:	
	Outdoor Practice Changes	Date Verified
See Notes	<input checked="" type="checkbox"/> Irrigate during early morning hours (midnight-5 a.m.) to decrease water loss from evaporation and wind drift.	
	<input checked="" type="checkbox"/> Change window cleaning schedule from "periodic" to "as needed".	
	<input checked="" type="checkbox"/> Use a smart irrigation controller that uses weather-based info to automatically adjust watering according to current weather conditions.	
	<input checked="" type="checkbox"/> If an outdoor irrigation system exists: 1) Adjust sprinkler heads for proper coverage. Check heads monthly during the irrigation season to be sure the lawn is being watered and not the sidewalk or parking spaces. 2) Repair all defective lines and sprinkler heads. 3) Adjust irrigation times and durations with the seasons, at least monthly during the irrigation season (typically March-November) and shut off system during winter months.	
	<input checked="" type="checkbox"/> Use dry surface cleaning methods, followed by damp mopping or wiping instead of hosing down outdoor areas, or implement a pressurized water broom.	
	<input checked="" type="checkbox"/> Apply organic fertilizer to your landscape only when needed, rather than on an automatic schedule. Do not over-fertilize or use high nitrogen fertilizers. Ensure that your landscaper follows this practice.	
	<input checked="" type="checkbox"/> Use ground cover or minimum of 2 inch depth mulch around landscape plants to prevent water evaporation.	
	<input checked="" type="checkbox"/> Implement the irrigation schedule provided by your water utility during the water use assessment. Limit the number of days landscaping is irrigated to a maximum of 3 days per week during the summer, 2 days in the spring and fall, and none in the winter. Prevent runoff by scheduling multiple short run times with at least an hour between water applications by spray systems. Use repeat cycles for irrigation (e.g. instead of watering for eight minutes, use 2 cycles of 4 minutes each instead).	
	<input type="checkbox"/> Send company vehicles to a washing service that uses a "zero discharge" car wash system or an automated car wash system that recycles and reuses the wash or rinse water.	
	<input type="checkbox"/> Install a rain harvesting system to supplement the irrigation system.	
<input type="checkbox"/> Disconnect downspouts and route to landscaping area or rain garden.		
	<input checked="" type="checkbox"/> Other: filtered water bottle filling stations; re-circulating water troughs; re-circulating warewasher	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

POLLUTION PREVENTION		
Equipment/Facility Changes Required minimum of the selected measures – 5		
		Date Verified
	Stormwater Management	
<input type="checkbox"/>	Install secondary containment or berm around outdoor liquid storage and transfer areas to capture spills or leaks.	
<input type="checkbox"/>	Keep storm drain protection devices on hand for quick spill response.	
<input type="checkbox"/>	Post signs at dumpster to remind employees to keep lids closed.	
<input checked="" type="checkbox"/>	Post signs at all trash cans and dumpsters discouraging the disposal of liquids.	
<input type="checkbox"/>	Other:	
	Wastewater Discharge Management	
<input type="checkbox"/>	Post a sign above sink area for employees: "Do not Dump Hazardous Chemicals Down Sink or Sewer" and educate employees on proper disposal methods.	
	Post a sign at sinks "Do not dump Fats, Oils, or Grease down the sink".	
<input checked="" type="checkbox"/>	Install a grease trap or interceptor at your facility.	
	Waste Management	
<input type="checkbox"/>	Use a chalkboard or white board with VOC free water based markers to list specials.	
<input checked="" type="checkbox"/>	Replace equipment containing mercury with non-mercury alternative such as thermometers, thermostats, and gauges. Dispose of mercury-containing equipment as hazardous waste.	
<input checked="" type="checkbox"/>	Replace standard florescent lights with low or mercury free fluorescent lights	
<input type="checkbox"/>	Other:	
Practice Changes Required minimum of the selected measures -- 5		
	Stormwater Management	
<input checked="" type="checkbox"/>	Inspect and clean private storm drains annually before the first rain and as needed thereafter.	
<input checked="" type="checkbox"/>	Limit access to hazardous products to authorized personnel.	
	Label on-site storm drains with "No dumping..." message.	
<input type="checkbox"/>	Participate in a local "Adopt-a-Storm Drain" program.	
<input checked="" type="checkbox"/>	Store deliveries, supplies and equipment kept outdoors under a roof or cover.	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

POLLUTION PREVENTION			
Practice Changes (continued) Required minimum of the selected measures – 5			
	Stormwater Management (continued)	Date Verified	
<i>See Notes</i>	<input checked="" type="checkbox"/> Regularly clean litter including cigarette butts from areas surrounding facility and dispose of properly. Provide adequate ash trays to prevent cigarette litter.		
	<input checked="" type="checkbox"/> Routinely check company vehicles for oil leaks and staining on pavement and repair identified vehicles.		
	<input type="checkbox"/> Use a Clean Water Business Partner carpet cleaner, landscaper or mobile power washer. (Sacramento County only)		
	<input checked="" type="checkbox"/> Hire a certified Sacramento Area Sustainable Business for your business operations.		
	<input type="checkbox"/> Use a certified Green Gardener for landscaping maintenance or installation at your business.		
	<input type="checkbox"/> Use a certified Ecowise structural pesticide applicator at your business.		
	<input type="checkbox"/> Participate in a local "Adopt-A-Waterway" or "Adopt-A-Open Space" program.		
	<input type="checkbox"/> Distribute educational materials on stormwater pollution prevention to employees & customers.		
	<input checked="" type="checkbox"/> Routinely clean dumpster area. Dispose of spent wash water appropriately.		
	<input type="checkbox"/> Participate in a local storm drain marking program.		
	<input checked="" type="checkbox"/> Eliminate the use of chemical pesticides by correcting by eliminating attractants or harborage for pests.		
	<input type="checkbox"/> Other:		
	Water Pollution Prevention		
	<input checked="" type="checkbox"/> Buy paper products (towels, napkins, & copy paper) that are unbleached (no chlorine).		
<input type="checkbox"/> Other:			
Waste Management			
<input type="checkbox"/> Purchase necessary hazardous products such as cleaners in the smallest quantities possible.			
<input checked="" type="checkbox"/> Replace standard fluorescent lights with low- or non-mercury fluorescent lights.			
<input type="checkbox"/> Require in janitorial contracts that safer, less toxic janitorial products are used to clean your facility.			
<input checked="" type="checkbox"/> Use one or a few multipurpose cleaners, rather than many special purpose cleaners.			
<input type="checkbox"/> Use rechargeable/recyclable batteries in appliances, such as small vacuums or flashlights, instead of using disposable batteries.			
<input type="checkbox"/> Reuse left-over paint.			
<input type="checkbox"/> Other:	<i>Smoking is not allowed on campus & we regularly clean dock area.</i>		

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

ENERGY CONSERVATION	
Equipment/Facility Changes Required minimum of the selected measures – 5	
Many of these actions qualify for incentives and rebates from your utility company. You are encouraged to contact your local electric and gas provider and request an energy audit to identify energy saving opportunities and associated rebates.	Date Verified
<input type="checkbox"/> Adjust equipment controls to an operating temperature, speed, or other settings that use less energy. Post signs at equipment stating the reason for the setting.	
<input checked="" type="checkbox"/> Have an energy use assessment conducted of your facility. (note: required for Silver level certification) <i>November 2010 - PSTC, Kong Shun</i>	
<input checked="" type="checkbox"/> Install a programmable thermostat to control heating and air conditioning.	
<input type="checkbox"/> Install and use computer programs that save energy by automatically turning off idle computer monitors and printers.	
<input type="checkbox"/> Install dimmable ballasts to dim lights when daylight is available.	
<input checked="" type="checkbox"/> Install economizers on an existing AC system to increase air flow.	
<input checked="" type="checkbox"/> Install occupancy sensors for lighting in low occupancy areas, including walk-in refrigerator/freezers.	
<i>n/a *</i> <input type="checkbox"/> Insulate hot water heaters and hot water pipes (for electric water heaters only).	
<input type="checkbox"/> Plant a shade tree near the building to minimize sun exposure. Trees are available from SMUD and the Sacramento Tree Foundation.	
<input type="checkbox"/> Provide shading for outdoor HVAC condenser(s).	
<input type="checkbox"/> Rearrange workspace to take advantage of natural sunlight.	
<input checked="" type="checkbox"/> Replace all incandescent bulbs with compact fluorescent lamps.	
<input checked="" type="checkbox"/> Replace an older refrigerator or other appliance with a new efficient model (such as an Energy Star qualified type). <i>As needed.</i>	
<input type="checkbox"/> Replace or supplement an existing AC system with an evaporative cooler, or a unit with a greater EER rating.	
<input checked="" type="checkbox"/> Retrofit exit signs with LEDs or fluorescent bulbs.	
<input type="checkbox"/> Shut-off water-cooled air conditioning units when not needed. <i>Demand controlled</i>	
<input checked="" type="checkbox"/> Upgrade existing fluorescent lighting with more energy efficient (t-5 or t-8) fluorescent lamps with electronic ballasts.	
<input checked="" type="checkbox"/> Use an energy management software system to control lighting and HVAC systems.	
<input type="checkbox"/> Use an ink jet printer instead of a laser printer - they use 90% less energy.	
<input checked="" type="checkbox"/> Use electronic equipment with energy saving features (e.g. Energy Star models).	
<input checked="" type="checkbox"/> Use weather stripping to close air gaps around doors and windows.	

Conversion of Segundo DC lighting to LED, completed fall 2014.

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

ENERGY CONSERVATION		
Equipment/Facility Changes (continued) Required minimum of the selected measures – 5		
	Many of these actions qualify for incentives and rebates from your utility company. You are encouraged to contact your local electric and gas provider and request an energy audit to identify energy saving opportunities and associated rebates.	Date Verified
<input type="checkbox"/>	Use "task lighting" to directly illuminate a work area and where extra lighting is needed rather than light an entire area.	
<input type="checkbox"/>	Utilize solar energy sources / equipment such as solar water heater or preheater. SMUD, Roseville Electric or PG&E may provide incentives for solar energy equipment.	
<input type="checkbox"/>	Install solar carports to generate power and shade cars.	
<input type="checkbox"/>	Install tankless, on-demand hot water heater(s).	
<input type="checkbox"/>	Install "cool roof" roof coating.	
<input type="checkbox"/>	Other:	
Practice Changes Required minimum of the selected measures – 5		
		Date Verified
<input type="checkbox"/>	Clean lighting fixtures and lamps monthly so that they are lighting as effectively as possible.	
<input type="checkbox"/>	Drain and flush hot water tanks to the sanitary sewer every 6 months to prevent scale buildup and deposits (electric water heaters only).	
<input type="checkbox"/>	<i>Sacramento County Locations:</i> In lieu of choosing 10 Energy Conservation measures, you may satisfy the requirements of this section through participation in the Sacramento Municipal Utility District (SMUD) Greenergy program at the 50% level plus any 5 measures from this section. A SMUD energy assessment is required.	
<input checked="" type="checkbox"/>	Perform regularly scheduled maintenance on your HVAC system – Check entire system each year for coolant and air leaks, clogs, and obstructions of air intake and vents annually.	
<input checked="" type="checkbox"/>	Perform regularly scheduled maintenance on your HVAC system - Clean permanent filters with mild detergents every three months and keep condenser coils free of dust and lint.	
<input type="checkbox"/>	Plug all office equipment into a timer switch to turn off after working hours.	
<input type="checkbox"/>	Routinely close blinds and curtains to reduce heat gain.	
<input type="checkbox"/>	Schedule routine janitorial services during the day instead of at night to save lighting energy.	
<input type="checkbox"/>	Seal off unused areas and insulate unneeded windows.	
<input checked="" type="checkbox"/>	Set refrigerator temperature between 38 and 42 degrees F, freezer between 0 and 5 degrees F.	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

ENERGY CONSERVATION		
Practice Changes (continued) Required minimum of the selected measures – 5		
		Date Verified
<input type="checkbox"/>	Set thermostat to 78 degrees F max. for cooling, 68 degrees F max. for heating, and use the thermostat's night setback. Lock thermostat.	
<input checked="" type="checkbox"/>	Turn off lights and remove extra lamps where possible.	
<input type="checkbox"/>	Use laptop computers instead of desktop computers - they consume 90% less energy.	
<input type="checkbox"/>	Use light switch reminders to remind guests and staff to turn off lights.	
<input type="checkbox"/>	Use lighting control devices such as time clocks or photocells.	
<input type="checkbox"/>	Use small fans and heaters during off hours instead of heating or cooling the entire space.	
<input type="checkbox"/>	Make use of available utility provided "On-Line" customer use data to encourage energy conservation and load shifting.	
<input checked="" type="checkbox"/>	Other: <i>me link hood systems</i>	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

SOLID WASTE REDUCTION	
Equipment/Facility Changes Required minimum of the selected measures – 5	
	Date Verified
<input checked="" type="checkbox"/> Buy products in returnable, reusable or recyclable containers.	
<input checked="" type="checkbox"/> Centralize purchasing within your company to eliminate unnecessary purchases and control what is being bought.	
<input checked="" type="checkbox"/> Conduct a solid waste assessment to identify ways to reduce waste, increase recycling, and increase use of recycled-content products.	
<input checked="" type="checkbox"/> Develop routing lists for bulletins, memos, and trade journals to minimize the number of employees receiving individual copies.	
<input type="checkbox"/> Eliminate fax cover sheets by using stick-on fax labels.	
<input type="checkbox"/> Eliminate purchase of disposable items such as pens, calendars, etc. Purchase reusable items instead.	
<input checked="" type="checkbox"/> Eliminate unnecessary forms, and/or redesign forms to use less paper, or maintain forms in electronic format only.	
<input type="checkbox"/> Encourage employees to share phone books, repair manuals, etc. instead of ordering books for each employee.	
<input checked="" type="checkbox"/> Freecycle - dispose of unwanted items through websites such as freecycle.com; freecycle.org; or craigslist.com. <i>Bargain</i>	
<input type="checkbox"/> Install air hand dryers in restrooms and eliminate paper towels for hand washing.	
<input checked="" type="checkbox"/> Order supplies using e-mail or voice mail instead of forms.	
<input type="checkbox"/> Participate in a cooperative buying program.	
<input type="checkbox"/> Participate in the local Recycle Market Development Zone; receive assistance in finding a market for recycling a waste your company produces.	
<input type="checkbox"/> Provide incentives for customers to return bags and boxes.	
<input checked="" type="checkbox"/> Purchase cleaning supplies in concentrated formulas and portion into labeled, reusable dispensing bottles.	
<input checked="" type="checkbox"/> Purchase paper products certified by the Forest Stewardship Council. <i>Promotional</i>	
<input checked="" type="checkbox"/> Replace disposable beverage cups, plates, and utensils with washable, reusable items. Encourage employees to bring food from home in reusable containers and/or bring their own washable plates/utensils to work.	
<input checked="" type="checkbox"/> Replace several similar products with one or two that can do the same job.	
<input type="checkbox"/> Require vendors to deliver supplies in returnable containers.	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

SOLID WASTE REDUCTION		
Equipment/Facility Changes Required minimum of the selected measures – 5		
		Date Verified
<input type="checkbox"/>	Reuse packaging materials or find someone who can.	
<input type="checkbox"/>	Set computer / printer defaults to print double-sided. Require double-sided printing for all multi-page documents.	
<input checked="" type="checkbox"/>	Set up a bulletin board and use e-mail for important employee memos.	
<input type="checkbox"/>	Select products shipped with less packaging.	
<input checked="" type="checkbox"/>	Store and rotate supplies to minimize loss through spoilage and damage.	
<input type="checkbox"/>	Update and correct company mailing lists used to send information to customers to avoid creating undeliverable mail.	
<input type="checkbox"/>	Use computer software that allows faxing directly from computers without printing.	
<input checked="" type="checkbox"/>	Use continuous circulation envelopes within your business to route information to employees.	
<input type="checkbox"/>	Use optical scanners for tracking inventory to allow for more precise ordering and less waste.	
<input type="checkbox"/>	Use reusable metal / nylon coffee filters instead of paper filters. Buy sugar and creamer in bulk instead of packets.	
<input checked="" type="checkbox"/>	Vermicompost in the employee break room <i>Segundo Services Center, Admin Office, Break room</i>	
<input checked="" type="checkbox"/>	Adopt a "Zero Waste" policy	
<input type="checkbox"/>	Other:	
Practice Changes Required minimum of the selected measures -- 5		
		Date Verified
<input checked="" type="checkbox"/>	Buy mulch, soil amendments and compost made of plant trimmings or green waste for landscaping.	
<input checked="" type="checkbox"/>	Buy office paper, envelopes, and business cards, napkins, estimate and invoice forms, toilet seat covers, toilet paper, paper towels, etc. with recycled content (minimum 30% post-consumer content).	
<input checked="" type="checkbox"/>	Buy products in bulk when possible, using concentrated products when appropriate.	
<input type="checkbox"/>	Buy paint made from recycled paints.	
<input type="checkbox"/>	Use direct mail marketing materials that require no envelope – simply fold and mail.	
<input checked="" type="checkbox"/>	Make scrap paper available for customers for use as scratch paper or donate scrap paper.	

Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM

SOLID WASTE REDUCTION		
	Practice Changes (cont)	Date Verified
<input checked="" type="checkbox"/>	Buy recycled construction materials when building/remodeling (e.g. insulation made from recycled paper & cotton, plastic lumber for decking, & benches, carpeting)	
<input type="checkbox"/>	Buy recycled or remanufactured printer and copier toner cartridges.	
<input checked="" type="checkbox"/>	Buy storage bins & containers for recyclables and provide special area for recycling.	
<input checked="" type="checkbox"/>	Collect landscape trimmings for composting if services are available.	
<input checked="" type="checkbox"/>	Donate unwanted items such as furniture, supplies, computers, etc. to non-profit organizations (e.g. ReCreate, RAFT, STAR, RUEC) or schools.	
<input type="checkbox"/>	Enroll in the California Waste Exchange program.	
<input type="checkbox"/>	For shipping, use shredded paper made on-site from waste paper for packaging needs instead of using Styrofoam pellets, bubble wrap, or other packing materials.	
<input type="checkbox"/>	Grasscycle by cutting landscaped turf when grass is still short and leave the short cuttings on the lawn to decompose.	
<input checked="" type="checkbox"/>	Recycle used motor oil, solvent and/or grease.	
<input checked="" type="checkbox"/>	Recycle glass, plastic and aluminum containers with deposit value.	
<input checked="" type="checkbox"/>	Recycle metal, including scrap from remodeling activities & equipment replacement.	
<input checked="" type="checkbox"/>	Recycle office paper, cardboard and mixed paper, including junk mail, phone books, newspapers and magazines.	
<input checked="" type="checkbox"/>	Recycle wood, including pallets & wood from remodeling activities.	
<input checked="" type="checkbox"/>	Send used printer / copier toner cartridges back to the manufacturer or local service for recycling or refilling.	
<input checked="" type="checkbox"/>	Stock and/or sell products with recycled content (such as bags, boxes or shelf products).	
<input type="checkbox"/>	Recycle non-food container Styrofoam (EPS).	
<input checked="" type="checkbox"/>	Recycle batteries through a household hazardous waste facility or a battery recycling program such as Rechargeable Battery Recycling at www.rbrc.org .	
<input checked="" type="checkbox"/>	Recycle electronic equipment (e.g. computers, monitors, printers, microwave ovens).	
<input type="checkbox"/>	Recycle paint (use as a primer, give to a hazardous waste collection program, or donate to a community organization).	
<input checked="" type="checkbox"/>	Other: Bugless operations, trayless dining, Go Zero Waste Competition, all food waste goes to biodigester, Food Recovery Network.	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

GREEN BUILDING	
Equipment/Facility Changes Required minimum of the selected measures – 5	
	Date Verified
<input type="checkbox"/> Building is certified by a professional organization such as LEED®	
<input checked="" type="checkbox"/> Buy recycled construction materials when building/remodeling (such as insulation made from recycled paper and cotton, plastic lumber for decking, benches, and railing, carpeting etc.)	
<input checked="" type="checkbox"/> Formaldehyde free building products.	
<input checked="" type="checkbox"/> High recycled content for interior finishes and furnishings. <i>when available</i>	
<input type="checkbox"/> Install a high efficiency HVAC system. <i>Cooling Season</i>	
<input type="checkbox"/> Install and use ceiling fans instead of air conditioning.	
<input type="checkbox"/> Install awnings on sun-exposed windows.	
<input type="checkbox"/> Install skylights or solar tubes.	
<input checked="" type="checkbox"/> Paint exterior walls and roof white to reflect heat.	
<input checked="" type="checkbox"/> Recycle or divert demolition materials and/or construction waste. <i>Complies Standard.</i>	
<input checked="" type="checkbox"/> Use landscaping or barriers to prevent soil erosion especially during construction or remodeling activities. <i>SWPPP during remodeling</i>	
<input checked="" type="checkbox"/> Use low emissions building materials.	
<input type="checkbox"/> Use window tint to off-set heat gain.	
<input type="checkbox"/> Waterless urinals.	
<input type="checkbox"/> Other:	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

TRANSPORTATION / AIR QUALITY

**Equipment/Facility Changes
Required minimum of the selected measures – 5**

		Date Verified
<input checked="" type="checkbox"/>	Provide carpool spaces for use by employees and customers.	
<input checked="" type="checkbox"/>	Encourage employee bicycle commuting—offer secure areas for bicycle storage.	
<input checked="" type="checkbox"/>	Provide customer bicycle racks.	
	Offer on-site lockers and showers, or make arrangements for the use of nearby facilities, to encourage employees walking, jogging, or bicycling to work.	
	Business building is located within half a mile of light rail or one-quarter mile of bus route and employees are provided route maps and general information.	
<input type="checkbox"/>	Provide Park and Ride parking spaces.	
<input checked="" type="checkbox"/>	Provide electric vehicle charging stations.	
<input type="checkbox"/>	Provide on-site amenities for employees (e.g. dry cleaning, ATM, cafeteria) so that they don't have to drive offsite during lunch breaks.	
<input checked="" type="checkbox"/>	Convert or replace company vehicles with low-emission models (electric, hybrid, natural gas, alternative fuels).	
<input checked="" type="checkbox"/>	Provide fleet of bicycles for employees to use.	
<input checked="" type="checkbox"/>	Provide fleet of electric vehicles for employees to use.	
<input checked="" type="checkbox"/>	Plant shade trees in parking lots to reduce heat island effects	
<input type="checkbox"/>	Install a xeroscape or low maintenance landscape to minimize the use of water and landscaping equipment.	
<input type="checkbox"/>	Install light colored pavement and roofing materials to minimize the Urban Heat Island Effect	
<input type="checkbox"/>	Replace controlled intersections/stop signs with traffic circles.	
<input type="checkbox"/>	Provide a shuttle to the nearest transit hub (If the business is not located near transit).	
<input type="checkbox"/>	Calculate your baseline "Carbon Footprint" online at http://www.coolcalifornia.org/calculator and establish a goal for specific reductions in future years.	
<input type="checkbox"/>	Provide access to a tire pressure gauge and air compressor on the premises for company and employee vehicles (properly inflated tires increase fuel mileage).	
<input type="checkbox"/>	Upgrade or replace your natural gas boiler or heater with an Ultra Low-NOx Burner	
<input type="checkbox"/>	Power your business with green energy produced by naturally occurring renewable resources like the wind and sun. (Contact PG&E, SMUD, or Roseville Electric for information)	
<input type="checkbox"/>	Replace company fleet vehicles with a car sharing membership program. http://www.ZipCar.com	
<input type="checkbox"/>	Offset company's vehicle travel CO2 emissions through certified/verified carbon offsets	
<input type="checkbox"/>	Provide an employer owned van for employee vanpooling to reduce commuting miles.	
<input type="checkbox"/>	Replace or augment your gas or electric water heater with a solar water heater	
<input type="checkbox"/>	Other:

TRANSPORTATION / AIR QUALITY

**Practice Changes (continued)
Required minimum of the selected measures -- 5**

		Date Verified
<input checked="" type="checkbox"/>	Subscribe to "Spare the Air" email service and promote the program to employees.	
<input type="checkbox"/>	Be an active participant with a government outreach partner / Transportation Management Organization (TMO) that promotes alternative modes of transportation.	
<input type="checkbox"/>	Actively promote bike programs to employees (e.g. Smart Cycling Clinics, May is Bike Month, Bucks for Bikes).	
<input type="checkbox"/>	Use local air district incentives and grant programs for gas lawnmower replacement, wood burning stove replacement, and other business related incentives.	
<input type="checkbox"/>	Join the USEPA Smartway SM Transport Partnership. Info at http://www.epa.gov/smartway/ or call (734) 214-4767	
<input checked="" type="checkbox"/>	Link trips for routine errands into a single outing. Patronize businesses close to your facility when possible	
<input checked="" type="checkbox"/>	Use no or low VOC cleaning and maintenance products (i.e. paints, solvents, strippers).	
<input checked="" type="checkbox"/>	Have promotional materials made from recycled material or printed with soy-based inks or other low/ no VOC inks.	
<input type="checkbox"/>	Replace aerosol products with non-aerosol alternatives.	
<input type="checkbox"/>	Use nontoxic, low or no-VOC office supplies and/or paints.	
<input type="checkbox"/>	Provide qualified Transportation Fringe Benefit Program for transit riders, bicyclists and vanpool riders.	
<input type="checkbox"/>	Enact a policy to use electric landscaping equipment.	
<input type="checkbox"/>	Enact a policy to minimize motor vehicle use on Spare the Air Days.	
<input type="checkbox"/>	Enact a policy to minimize the use of equipment with gas or diesel engines on Spare the Air Days.	
<input type="checkbox"/>	Enact a policy to minimize electricity use on Spare the Air Days.	
<input checked="" type="checkbox"/>	Enact a policy to minimize vehicle idling.	
<input type="checkbox"/>	If you provide free parking to employees, provide a parking cash-out subsidy to employees that don't drive in.	
<input checked="" type="checkbox"/>	Enact a policy to utilize locally produced agricultural products whenever feasible.	
<input type="checkbox"/>	Designate an Employee Transportation Coordinator (ETC) to manage alternative commute programs and work with individual employees on commute options.	
<input type="checkbox"/>	Offer telecommuting opportunities and/or flexible work schedule, and/or compressed work week to employees to reduce commuting.	
<input type="checkbox"/>	Join a Local Transportation Management Association (TMA). TMA's are non-profit membership associations representing employers and helping commuters find alternatives to commuting alone to work.	
<input checked="" type="checkbox"/>	Utilize videoconferencing and other technological solutions that reduce employee travel.	
<input type="checkbox"/>	Make commuter ride sharing info available to employees (e.g. Sac Region Commuter Clubs, 511).	
<input checked="" type="checkbox"/>	Offer employee incentives for carpooling, vanpooling, or using mass transit (e.g. preferred parking, transit subsidy passes, and emergency ride home program).	
<input type="checkbox"/>	Patronize hotels that are certified by an environmentally preferable hotel program.	
<input type="checkbox"/>	Other:	

Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM

DATE: January 6th, 2015
FACILITY or COMPANY NAME: Tercero Dining Commons
TYPE OF BUSINESS: Food Services
OF EMPLOYEES: 200 (900 campuswide)
ADDRESS: 1049 La Rue Rd.
CITY, ZIP CODE: Davis, 95616
CONTACT PERSON: Ben Thomas
PHONE/FAX: 530-754-7128 / 530-752-4799
EMAIL: benjamin.thomas@sodexo.com
WEBSITE: dining.ucdavis.edu

- If there are things you are doing at your place of business that you believe to be sustainable business practices, but the measures are not found on our checklists, please utilize the "other" box below each section of every category. We encourage businesses to include anything relevant to sustainability. You may include attached pages as well if needed.
 - You can find other *suggested measures* at www.SacramentoAreaSustainableBusiness.org which will assist you in considering other measures that will help you through the certification process.
 - **IMPORTANT:** Before you undertake facility and practice changes, contact your local utilities to determine what no-cost programs and rebates are available. In many cases there are generous rebates available and many utilities require that you contact them first prior to making facility changes. Making facility changes before applying for a rebate will often make your business ineligible for rebates.
- NOTE:** Any measures already taken by your business can be counted and should be checked off on these lists. If you are unable to find appropriate measures for your business on these checklists, you may propose alternative measures or request exemption from certain requirements. Call the Business Environmental Resource Center at (916) 874-2100 to find contacts for your local utility provider.

STATEMENT OF CERTIFICATION

I certify that this document and all attachments were prepared under my direction or supervision in accordance with a system to assure that qualified personnel properly gather and evaluate the information submitted, and that the statements and information in the document are true, accurate, and complete.

I affirm that this facility has implemented the Sustainable Business practices and measures as indicated. These measures are to be maintained for a 3-year period from certification. If any of these measures are discontinued I will contact the Sustainable Business Program for assistance in selecting alternative measures.

I further certify that to the best of my knowledge, the facility is in compliance with all applicable environmental regulations as set forth by Federal, State, and local agencies, and understand that any non-compliance may result in the revocation of the Sacramento Area Sustainable Business certification.

COMPLETED CHECKLISTS MUST BE SUBMITTED BEFORE SITE VISIT FOR VERIFICATION.

BUSINESS REPRESENTATIVE:

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

WATER CONSERVATION

**Equipment/Facility Changes*
Required minimum of the selected measures – 5**

	Indoor Equipment/Facility Changes	Date Verified
<input type="checkbox"/>	Complete a water use assessment of your facility.* Contact your local water provider to schedule this free service. (note: required for Silver level certification)	
	Install water efficient non-flushing or 0.5 gallons per flush (gpf) urinals.	
<input checked="" type="checkbox"/>	Install water efficient aerators: 1.5 gpm for sink faucets & lavatory sinks; 2.2 gpm for kitchen sinks.	
<input type="checkbox"/>	Install high efficiency toilets (HET) – 1.3 gallons per flush or less (rebates may be available from some water utilities).*	
<input checked="" type="checkbox"/>	Install water efficient toilets – 1.6 gallons per flush or less (rebates may be available from some water utilities).*	
<input checked="" type="checkbox"/>	Install pre-rinse valves (rated at 1.6 gallons per minute or less at 80 psi).* (rebates or free valves may be available from your water utility).	
<input type="checkbox"/>	Install quick-closing toilet flappers.	
<input type="checkbox"/>	Install self-closing faucets in restrooms.	
	Install toilet retrofit kits. *	
<input type="checkbox"/>	<i>Placer County:</i> Sign up or participate in the Placer County Water Agency (PCWA) or City of Roseville Water Efficiency Programs.	
<input checked="" type="checkbox"/>	Install a water efficient irrigation system, using a low volume drip system that applies water to soil / plant roots, matched precipitation rate heads for turf areas, and weather based irrigation controllers.	
<input checked="" type="checkbox"/>	Reduce the use of turf grass to only what is necessary and avoid turf on slopes. Use drought resistant native and Mediterranean plant species.	
<input checked="" type="checkbox"/>	Reduce water pressure to no higher than 70 psi by installing pressure-reducing valves.	
<input type="checkbox"/>	Use positive shut off nozzles on all hoses.	
<input checked="" type="checkbox"/>	Group plants with similar water requirements together on the same irrigation line, and separate plants with different water requirements on separate irrigation lines.	
<input type="checkbox"/>	Other:	

* Contact your local water utility for more information on rebates for replacement of pre-rinse spray valves, toilets and urinals. Information on water efficient product ratings and information is available from the California Urban Water Conservation Council under "Product News": http://www.cuwcc.org/products_tech.lasso

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

WATER CONSERVATION		
Practice Changes Required minimum of the selected measures – 5		
	Indoor Practice Changes	Date Verified
See Notes	<input checked="" type="checkbox"/> Adjust boiler and cooling tower blow down rate to maintain TDS (total dissolved solids) at levels recommended by manufacturers' specifications.	
	<input checked="" type="checkbox"/> Regularly check for and repair plumbing leaks in your kitchen and restrooms.	
	<input checked="" type="checkbox"/> Shut off water-cooled air conditioning units when not needed.	
	<input type="checkbox"/> Install signs in restrooms encouraging water conservation (stickers or other signage may be available from your water utility).*	
	<input type="checkbox"/> Learn how to read your water meter and/or bill as a way to detect leaks and problems.	
See Notes	<input checked="" type="checkbox"/> Use dry surface cleaning methods, followed by damp mopping or wiping instead of hosing down indoor floors.	
	<input type="checkbox"/> Post sign to remind employees to turn off food preparation sink faucets while not in use, or install foot triggers on sink faucets.	
	<input type="checkbox"/> Other:	
	Outdoor Practice Changes	Date Verified
	<input checked="" type="checkbox"/> Irrigate during early morning hours (midnight–5 a.m.) to decrease water loss from evaporation and wind drift.	
n/a	<input checked="" type="checkbox"/> Change window cleaning schedule from "periodic" to "as needed".	
	<input checked="" type="checkbox"/> Use a smart irrigation controller that uses weather-based info to automatically adjust watering according to current weather conditions.	
	<input checked="" type="checkbox"/> If an outdoor irrigation system exists: 1) Adjust sprinkler heads for proper coverage. Check heads monthly during the irrigation season to be sure the lawn is being watered and not the sidewalk or parking spaces. 2) Repair all defective lines and sprinkler heads. 3) Adjust irrigation times and durations with the seasons, at least monthly during the irrigation season (typically March-November) and shut off system during winter months.	
	<input checked="" type="checkbox"/> Use dry surface cleaning methods, followed by damp mopping or wiping instead of hosing down outdoor areas, or implement a pressurized water broom.	
	<input checked="" type="checkbox"/> Apply organic fertilizer to your landscape only when needed, rather than on an automatic schedule. Do not over-fertilize or use high nitrogen fertilizers. Ensure that your landscaper follows this practice.	
	<input checked="" type="checkbox"/> Use ground cover or minimum of 2 inch depth mulch around landscape plants to prevent water evaporation.	
	<input checked="" type="checkbox"/> Implement the irrigation schedule provided by your water utility during the water use assessment. Limit the number of days landscaping is irrigated to a maximum of 3 days per week during the summer, 2 days in the spring and fall, and none in the winter. Prevent runoff by scheduling multiple short run times with at least an hour between water applications by spray systems. Use repeat cycles for irrigation (e.g. instead of watering for eight minutes, use 2 cycles of 4 minutes each instead).	
<input type="checkbox"/> Send company vehicles to a washing service that uses a "zero discharge" car wash system or an automated car wash system that recycles and reuses the wash or rinse water.		
<input type="checkbox"/> Install a rain harvesting system to supplement the irrigation system.		
<input type="checkbox"/> Disconnect downspouts and route to landscaping area or rain garden.		
See Notes	<input checked="" type="checkbox"/> Other: <i>Filtered water bottle filling stations; re-circulating water troughs; re-circulating waterwasher</i>	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

POLLUTION PREVENTION		
Equipment/Facility Changes Required minimum of the selected measures – 5		
		Date Verified
	Stormwater Management	
<input type="checkbox"/>	Install secondary containment or berm around outdoor liquid storage and transfer areas to capture spills or leaks.	
<input type="checkbox"/>	Keep storm drain protection devices on hand for quick spill response.	
<input type="checkbox"/>	Post signs at dumpster to remind employees to keep lids closed.	
<input checked="" type="checkbox"/>	Post signs at all trash cans and dumpsters discouraging the disposal of liquids.	
<input type="checkbox"/>	Other:	
	Wastewater Discharge Management	
<input type="checkbox"/>	Post a sign above sink area for employees: "Do not Dump Hazardous Chemicals Down Sink or Sewer" and educate employees on proper disposal methods.	
	Post a sign at sinks "Do not dump Fats, Oils, or Grease down the sink".	
<input checked="" type="checkbox"/>	Install a grease trap or interceptor at your facility.	
	Waste Management	
<input type="checkbox"/>	Use a chalkboard or white board with VOC free water based markers to list specials.	
<input checked="" type="checkbox"/>	Replace equipment containing mercury with non-mercury alternative such as thermometers, thermostats, and gauges. Dispose of mercury-containing equipment as hazardous waste.	
<input checked="" type="checkbox"/>	Replace standard florescent lights with low or mercury free fluorescent lights	
<input type="checkbox"/>	Other:	
Practice Changes Required minimum of the selected measures -- 5		
	Stormwater Management	
<input checked="" type="checkbox"/>	Inspect and clean private storm drains annually before the first rain and as needed thereafter.	
<input checked="" type="checkbox"/>	Limit access to hazardous products to authorized personnel.	
	Label on-site storm drains with "No dumping..." message.	
<input type="checkbox"/>	Participate in a local "Adopt-a-Storm Drain" program.	
<input checked="" type="checkbox"/>	Store deliveries, supplies and equipment kept outdoors under a roof or cover.	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

POLLUTION PREVENTION			
Practice Changes (continued)			
Required minimum of the selected measures – 5			
	Stormwater Management (continued)	Date Verified	
<i>See Notes</i>	<input checked="" type="checkbox"/> Regularly clean litter including cigarette butts from areas surrounding facility and dispose of properly. Provide adequate ash trays to prevent cigarette litter.		
	<input checked="" type="checkbox"/> Routinely check company vehicles for oil leaks and staining on pavement and repair identified vehicles.		
	<input type="checkbox"/> Use a Clean Water Business Partner carpet cleaner, landscaper or mobile power washer. (Sacramento County only)		
	<input checked="" type="checkbox"/> Hire a certified Sacramento Area Sustainable Business for your business operations.		
	<input type="checkbox"/> Use a certified Green Gardener for landscaping maintenance or installation at your business.		
	<input type="checkbox"/> Use a certified Ecowise structural pesticide applicator at your business.		
	<input type="checkbox"/> Participate in a local "Adopt-A-Waterway" or "Adopt-A-Open Space" program.		
	<input type="checkbox"/> Distribute educational materials on stormwater pollution prevention to employees & customers.		
	<input checked="" type="checkbox"/> Routinely clean dumpster area. Dispose of spent wash water appropriately.		
	<input type="checkbox"/> Participate in a local storm drain marking program.		
	<input checked="" type="checkbox"/> Eliminate the use of chemical pesticides by correcting by eliminating attractants or harborage for pests.		
	<input type="checkbox"/> Other:		
	Water Pollution Prevention		
	<input checked="" type="checkbox"/> Buy paper products (towels, napkins, & copy paper) that are unbleached (no chlorine).		
<input type="checkbox"/> Other:			
Waste Management			
<input type="checkbox"/> Purchase necessary hazardous products such as cleaners in the smallest quantities possible.			
<input checked="" type="checkbox"/> Replace standard fluorescent lights with low- or non-mercury fluorescent lights.			
<input type="checkbox"/> Require in janitorial contracts that safer, less toxic janitorial products are used to clean your facility.			
<input checked="" type="checkbox"/> Use one or a few multipurpose cleaners, rather than many special purpose cleaners.			
<input type="checkbox"/> Use rechargeable/recyclable batteries in appliances, such as small vacuums or flashlights, instead of using disposable batteries.			
<input type="checkbox"/> Reuse left-over paint.			
<input type="checkbox"/> Other: <i>Smoking is not allowed on campus & we regularly clean dock area.</i>			

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

ENERGY CONSERVATION	
Equipment/Facility Changes Required minimum of the selected measures – 5	
Many of these actions qualify for incentives and rebates from your utility company. You are encouraged to contact your local electric and gas provider and request an energy audit to identify energy saving opportunities and associated rebates.	Date Verified
<input type="checkbox"/> Adjust equipment controls to an operating temperature, speed, or other settings that use less energy. Post signs at equipment stating the reason for the setting.	
<input checked="" type="checkbox"/> Have an energy use assessment conducted of your facility. (note: required for Silver level certification) <i>November 2010 - ESTC, Kong Shan</i>	
<input checked="" type="checkbox"/> Install a programmable thermostat to control heating and air conditioning.	
<input type="checkbox"/> Install and use computer programs that save energy by automatically turning off idle computer monitors and printers.	
<input type="checkbox"/> Install dimmable ballasts to dim lights when daylight is available.	
<input checked="" type="checkbox"/> Install economizers on an existing AC system to increase air flow.	
<input checked="" type="checkbox"/> Install occupancy sensors for lighting in low occupancy areas, including walk-in refrigerator/freezers.	
<i>n/a *</i> <input checked="" type="checkbox"/> Insulate hot water heaters and hot water pipes (for electric water heaters only).	
<input type="checkbox"/> Plant a shade tree near the building to minimize sun exposure. Trees are available from SMUD and the Sacramento Tree Foundation.	
<input type="checkbox"/> Provide shading for outdoor HVAC condenser(s).	
<input type="checkbox"/> Rearrange workspace to take advantage of natural sunlight.	
<input checked="" type="checkbox"/> Replace all incandescent bulbs with compact fluorescent lamps.	
<input checked="" type="checkbox"/> Replace an older refrigerator or other appliance with a new efficient model (such as an Energy Star qualified type). <i>As needed.</i>	
<input type="checkbox"/> Replace or supplement an existing AC system with an evaporative cooler, or a unit with a greater EER rating.	
<input checked="" type="checkbox"/> Retrofit exit signs with LEDs or fluorescent bulbs.	
<input type="checkbox"/> Shut-off water-cooled air conditioning units when not needed. <i>Demand Controlled</i>	
<input checked="" type="checkbox"/> Upgrade existing fluorescent lighting with more energy efficient (t-5 or t-8) fluorescent lamps with electronic ballasts.	
<input checked="" type="checkbox"/> Use an energy management software system to control lighting and HVAC systems.	
<input type="checkbox"/> Use an ink jet printer instead of a laser printer - they use 90% less energy.	
<input checked="" type="checkbox"/> Use electronic equipment with energy saving features (e.g. Energy Star models).	
<input checked="" type="checkbox"/> Use weather stripping to close air gaps around doors and windows.	

Conversion of Tercero DC lighting to LED, completed Fall 2014.

SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

ENERGY CONSERVATION		
Equipment/Facility Changes (continued) Required minimum of the selected measures – 5		
	Many of these actions qualify for incentives and rebates from your utility company. You are encouraged to contact your local electric and gas provider and request an energy audit to identify energy saving opportunities and associated rebates.	Date Verified
<input type="checkbox"/>	Use "task lighting" to directly illuminate a work area and where extra lighting is needed rather than light an entire area.	
<input type="checkbox"/>	Utilize solar energy sources / equipment such as solar water heater or preheater. SMUD, Roseville Electric or PG&E may provide incentives for solar energy equipment.	
<input type="checkbox"/>	Install solar carports to generate power and shade cars.	
<input type="checkbox"/>	Install tankless, on-demand hot water heater(s).	
<input type="checkbox"/>	Install "cool roof" roof coating.	
<input type="checkbox"/>	Other:	
Practice Changes Required minimum of the selected measures – 5		
		Date Verified
<input type="checkbox"/>	Clean lighting fixtures and lamps monthly so that they are lighting as effectively as possible.	
<input type="checkbox"/>	Drain and flush hot water tanks to the sanitary sewer every 6 months to prevent scale buildup and deposits (electric water heaters only).	
<input type="checkbox"/>	<i>Sacramento County Locations:</i> In lieu of choosing 10 Energy Conservation measures, you may satisfy the requirements of this section through participation in the Sacramento Municipal Utility District (SMUD) Greenergy program at the 50% level plus any 5 measures from this section. A SMUD energy assessment is required.	
<input checked="" type="checkbox"/>	Perform regularly scheduled maintenance on your HVAC system – Check entire system each year for coolant and air leaks, clogs, and obstructions of air intake and vents annually.	
<input checked="" type="checkbox"/>	Perform regularly scheduled maintenance on your HVAC system - Clean permanent filters with mild detergents every three months and keep condenser coils free of dust and lint.	
<input type="checkbox"/>	Plug all office equipment into a timer switch to turn off after working hours.	
<input type="checkbox"/>	Routinely close blinds and curtains to reduce heat gain.	
<input type="checkbox"/>	Schedule routine janitorial services during the day instead of at night to save lighting energy.	
<input type="checkbox"/>	Seal off unused areas and insulate unneeded windows.	
<input checked="" type="checkbox"/>	Set refrigerator temperature between 38 and 42 degrees F, freezer between 0 and 5 degrees F.

SOLID WASTE REDUCTION	
Equipment/Facility Changes Required minimum of the selected measures – 5	
	Date Verified
<input checked="" type="checkbox"/> Buy products in returnable, reusable or recyclable containers.	
<input checked="" type="checkbox"/> Centralize purchasing within your company to eliminate unnecessary purchases and control what is being bought.	
<input checked="" type="checkbox"/> Conduct a solid waste assessment to identify ways to reduce waste, increase recycling, and increase use of recycled-content products.	
<input checked="" type="checkbox"/> Develop routing lists for bulletins, memos, and trade journals to minimize the number of employees receiving individual copies.	
<input type="checkbox"/> Eliminate fax cover sheets by using stick-on fax labels.	
<input type="checkbox"/> Eliminate purchase of disposable items such as pens, calendars, etc. Purchase reusable items instead.	
<input checked="" type="checkbox"/> Eliminate unnecessary forms, and/or redesign forms to use less paper, or maintain forms in electronic format only.	
<input type="checkbox"/> Encourage employees to share phone books, repair manuals, etc. instead of ordering books for each employee.	
<input checked="" type="checkbox"/> Freecycle - dispose of unwanted items through websites such as freecycle.com; freecycle.org; or craigslist.com.	
<input type="checkbox"/> Install air hand dryers in restrooms and eliminate paper towels for hand washing.	
<input checked="" type="checkbox"/> Order supplies using e-mail or voice mail instead of forms.	
<input type="checkbox"/> Participate in a cooperative buying program.	
<input type="checkbox"/> Participate in the local Recycle Market Development Zone; receive assistance in finding a market for recycling a waste your company produces.	
<input type="checkbox"/> Provide incentives for customers to return bags and boxes.	
<input checked="" type="checkbox"/> Purchase cleaning supplies in concentrated formulas and portion into labeled, reusable dispensing bottles.	
<input checked="" type="checkbox"/> Purchase paper products certified by the Forest Stewardship Council. <i>Promotional</i>	
<input checked="" type="checkbox"/> Replace disposable beverage cups, plates, and utensils with washable, reusable items. Encourage employees to bring food from home in reusable containers and/or bring their own washable plates/utensils to work.	
<input checked="" type="checkbox"/> Replace several similar products with one or two that can do the same job.	
<input type="checkbox"/> Require vendors to deliver supplies in returnable containers.	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

SOLID WASTE REDUCTION		
Equipment/Facility Changes Required minimum of the selected measures -- 5		
		Date Verified
<input type="checkbox"/>	Reuse packaging materials or find someone who can.	
<input type="checkbox"/>	Set computer / printer defaults to print double-sided. Require double-sided printing for all multi-page documents.	
<input checked="" type="checkbox"/>	Set up a bulletin board and use e-mail for important employee memos.	
<input type="checkbox"/>	Select products shipped with less packaging.	
<input checked="" type="checkbox"/>	Store and rotate supplies to minimize loss through spoilage and damage.	
<input type="checkbox"/>	Update and correct company mailing lists used to send information to customers to avoid creating undeliverable mail.	
<input type="checkbox"/>	Use computer software that allows faxing directly from computers without printing.	
<input checked="" type="checkbox"/>	Use continuous circulation envelopes within your business to route information to employees.	
<input type="checkbox"/>	Use optical scanners for tracking inventory to allow for more precise ordering and less waste.	
<input type="checkbox"/>	Use reusable metal / nylon coffee filters instead of paper filters. Buy sugar and creamer in bulk instead of packets.	
<input checked="" type="checkbox"/>	Vermicompost in the employee break room - <i>Segundo Services Center, Admin Office, Housing</i>	
<input checked="" type="checkbox"/>	Adopt a "Zero Waste" policy	
<input type="checkbox"/>	Other:	
Practice Changes Required minimum of the selected measures -- 5		
		Date Verified
<input checked="" type="checkbox"/>	Buy mulch, soil amendments and compost made of plant trimmings or green waste for landscaping.	
<input checked="" type="checkbox"/>	Buy office paper, envelopes, and business cards, napkins, estimate and invoice forms, toilet seat covers, toilet paper, paper towels, etc. with recycled content (minimum 30% post-consumer content).	
<input checked="" type="checkbox"/>	Buy products in bulk when possible, using concentrated products when appropriate.	
<input type="checkbox"/>	Buy paint made from recycled paints.	
<input type="checkbox"/>	Use direct mail marketing materials that require no envelope -- simply fold and mail.	
<input checked="" type="checkbox"/>	Make scrap paper available for customers for use as scratch paper or donate scrap paper.	

Application Checklist

TRANSPORTATION / AIR QUALITY

**Practice Changes (continued)
Required minimum of the selected measures -- 5**

		Date Verified
<input checked="" type="checkbox"/>	Subscribe to "Spare the Air" email service and promote the program to employees.	
<input type="checkbox"/>	Be an active participant with a government outreach partner / Transportation Management Organization (TMO) that promotes alternative modes of transportation.	
<input type="checkbox"/>	Actively promote bike programs to employees (e.g. Smart Cycling Clinics, May is Bike Month, Bucks for Bikes).	
<input type="checkbox"/>	Use local air district incentives and grant programs for gas lawnmower replacement, wood burning stove replacement, and other business related incentives.	
<input type="checkbox"/>	Join the USEPA Smartway SM Transport Partnership. Info at http://www.epa.gov/smartway/ or call (734) 214-4767	
<input checked="" type="checkbox"/>	Link trips for routine errands into a single outing. Patronize businesses close to your facility when possible	
<input checked="" type="checkbox"/>	Use no or low VOC cleaning and maintenance products (i.e. paints, solvents, strippers).	
<input type="checkbox"/>	Have promotional materials made from recycled material or printed with soy-based inks or other low/ no VOC inks.	
<input type="checkbox"/>	Replace aerosol products with non-aerosol alternatives.	
<input type="checkbox"/>	Use nontoxic, low or no-VOC office supplies and/or paints.	
<input type="checkbox"/>	Provide qualified Transportation Fringe Benefit Program for transit riders, bicyclists and vanpool riders.	
<input type="checkbox"/>	Enact a policy to use electric landscaping equipment.	
<input type="checkbox"/>	Enact a policy to minimize motor vehicle use on Spare the Air Days.	
<input type="checkbox"/>	Enact a policy to minimize the use of equipment with gas or diesel engines on Spare the Air Days.	
<input type="checkbox"/>	Enact a policy to minimize electricity use on Spare the Air Days.	
<input checked="" type="checkbox"/>	Enact a policy to minimize vehicle idling.	
<input type="checkbox"/>	If you provide free parking to employees, provide a parking cash-out subsidy to employees that don't drive in.	
<input checked="" type="checkbox"/>	Enact a policy to utilize locally produced agricultural products whenever feasible.	
<input type="checkbox"/>	Designate an Employee Transportation Coordinator (ETC) to manage alternative commute programs and work with individual employees on commute options.	
<input type="checkbox"/>	Offer telecommuting opportunities and/or flexible work schedule, and/or compressed work week to employees to reduce commuting.	
<input type="checkbox"/>	Join a Local Transportation Management Association (TMA). TMA's are non-profit membership associations representing employers and helping commuters find alternatives to commuting alone to work.	
<input checked="" type="checkbox"/>	Utilize videoconferencing and other technological solutions that reduce employee travel.	
<input type="checkbox"/>	Make commuter ride sharing info available to employees (e.g. Sac Region Commuter Clubs, 511).	
<input checked="" type="checkbox"/>	Offer employee incentives for carpooling, vanpooling, or using mass transit (e.g. preferred parking, transit subsidy passes, and emergency ride home program).	
<input type="checkbox"/>	Patronize hotels that are certified by an environmentally preferable hotel program.	
<input type="checkbox"/>	Other:

- If there are things you are doing at your place of business that you believe to be sustainable business practices, but the measures are not found on our checklists, please utilize the "other" box below each section of every category. We encourage businesses to include anything relevant to sustainability. You may include attached pages as well if needed.
 - You can find other *suggested measures* at www.SacramentoAreaSustainableBusiness.org which will assist you in considering other measures that will help you through the certification process.
 - **IMPORTANT:** Before you undertake facility and practice changes, contact your local utilities to determine what no-cost programs and rebates are available. In many cases there are generous rebates available and many utilities require that you contact them first prior to making facility changes. Making facility changes before applying for a rebate will often make your business ineligible for rebates.
- NOTE:** Any measures already taken by your business can be counted and should be checked off on these lists. If you are unable to find appropriate measures for your business on these checklists, you may propose alternative measures or request exemption from certain requirements. Call the Business Environmental Resource Center at (916) 874-2100 to find contacts for your local utility provider.

STATEMENT OF CERTIFICATION

I certify that this document and all attachments were prepared under my direction or supervision in accordance with a system to assure that qualified personnel properly gather and evaluate the information submitted, and that the statements and information in the document are true, accurate, and complete.

I affirm that this facility has implemented the Sustainable Business practices and measures as indicated. These measures are to be maintained for a 3-year period from certification. If any of these measures are discontinued I will contact the Sustainable Business Program for assistance in selecting alternative measures.

I further certify that to the best of my knowledge, the facility is in compliance with all applicable environmental regulations as set forth by Federal, State, and local agencies, and understand that any non-compliance may result in the revocation of the Sacramento Area Sustainable Business certification.

COMPLETED CHECKLISTS MUST BE SUBMITTED BEFORE SITE VISIT FOR VERIFICATION.

SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

WATER CONSERVATION		
Equipment/Facility Changes*		
Required minimum of the selected measures – 5		
	Indoor Equipment/Facility Changes	Date Verified
<input type="checkbox"/>	Complete a water use assessment of your facility.* Contact your local water provider to schedule this free service. (note: required for Silver level certification)	
<input checked="" type="checkbox"/>	Install water efficient non-flushing or 0.5 gallons per flush (gpf) urinals.	
<input checked="" type="checkbox"/>	Install water efficient aerators: 1.5 gpm for sink faucets & lavatory sinks; 2.2 gpm for kitchen sinks.	
<input checked="" type="checkbox"/>	Install high efficiency toilets (HET) – 1.3 gallons per flush or less (rebates may be available from some water utilities).*	
<input type="checkbox"/>	Install water efficient toilets – 1.6 gallons per flush or less (rebates may be available from some water utilities).*	
<input checked="" type="checkbox"/>	Install pre-rinse valves (rated at 1.6 gallons per minute or less at 80 psi).* (rebates or free valves may be available from your water utility).	
<input type="checkbox"/>	Install quick-closing toilet flappers.	
<input type="checkbox"/>	Install self-closing faucets in restrooms.	
<input type="checkbox"/>	Install toilet retrofit kits. *	
<input type="checkbox"/>	<i>Placer County:</i> Sign up or participate in the Placer County Water Agency (PCWA) or City of Roseville Water Efficiency Programs.	
<input checked="" type="checkbox"/>	Install a water efficient irrigation system, using a low volume drip system that applies water to soil / plant roots, matched precipitation rate heads for turf areas, and weather based irrigation controllers.	
<input checked="" type="checkbox"/>	Reduce the use of turf grass to only what is necessary and avoid turf on slopes. Use drought resistant native and Mediterranean plant species.	
<input checked="" type="checkbox"/>	Reduce water pressure to no higher than 70 psi by installing pressure-reducing valves.	
<input type="checkbox"/>	Use positive shut off nozzles on all hoses.	
<input checked="" type="checkbox"/>	Group plants with similar water requirements together on the same irrigation line, and separate plants with different water requirements on separate irrigation lines.	
<input type="checkbox"/>	Other:	

* Contact your local water utility for more information on rebates for replacement of pre-rinse spray valves, toilets and urinals. Information on water efficient product ratings and information is available from the California Urban Water Conservation Council under "Product News": http://www.cuwcc.org/products_tech.lasso

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

WATER CONSERVATION		
Practice Changes Required minimum of the selected measures -- 5		
	Indoor Practice Changes	Date Verified
<i>See Notes</i>	<input checked="" type="checkbox"/> Adjust boiler and cooling tower blow down rate to maintain TDS (total dissolved solids) at levels recommended by manufacturers' specifications.	
	<input checked="" type="checkbox"/> Regularly check for and repair plumbing leaks in your kitchen and restrooms.	
	<input checked="" type="checkbox"/> Shut off water-cooled air conditioning units when not needed.	
	<input type="checkbox"/> Install signs in restrooms encouraging water conservation (stickers or other signage may be available from your water utility).*	
	<input type="checkbox"/> Learn how to read your water meter and/or bill as a way to detect leaks and problems.	
	<input checked="" type="checkbox"/> Use dry surface cleaning methods, followed by damp mopping or wiping instead of hosing down indoor floors.	
	<input type="checkbox"/> Post sign to remind employees to turn off food preparation sink faucets while not in use, or install foot triggers on sink faucets.	
<input type="checkbox"/> Other:		
	Outdoor Practice Changes	Date Verified
<input checked="" type="checkbox"/> Irrigate during early morning hours (midnight–5 a.m.) to decrease water loss from evaporation and wind drift.		
<input checked="" type="checkbox"/> Change window cleaning schedule from "periodic" to "as needed".		
<input checked="" type="checkbox"/> Use a smart irrigation controller that uses weather-based info to automatically adjust watering according to current weather conditions.		
<input checked="" type="checkbox"/> If an outdoor irrigation system exists: 1) Adjust sprinkler heads for proper coverage. Check heads monthly during the irrigation season to be sure the lawn is being watered and not the sidewalk or parking spaces. 2) Repair all defective lines and sprinkler heads. 3) Adjust irrigation times and durations with the seasons, at least monthly during the irrigation season (typically March–November) and shut off system during winter months.		
<input checked="" type="checkbox"/> Use dry surface cleaning methods, followed by damp mopping or wiping instead of hosing down outdoor areas, or implement a pressurized water broom.		
<input checked="" type="checkbox"/> Apply organic fertilizer to your landscape only when needed, rather than on an automatic schedule. Do not over-fertilize or use high nitrogen fertilizers. Ensure that your landscaper follows this practice.		
<input checked="" type="checkbox"/> Use ground cover or minimum of 2 inch depth mulch around landscape plants to prevent water evaporation.		
<input checked="" type="checkbox"/> Implement the irrigation schedule provided by your water utility during the water use assessment. Limit the number of days landscaping is irrigated to a maximum of 3 days per week during the summer, 2 days in the spring and fall, and none in the winter. Prevent runoff by scheduling multiple short run times with at least an hour between water applications by spray systems. Use repeat cycles for irrigation (e.g. instead of watering for eight minutes, use 2 cycles of 4 minutes each instead).		
<input type="checkbox"/> Send company vehicles to a washing service that uses a "zero discharge" car wash system or an automated car wash system that recycles and reuses the wash or rinse water.		
<input type="checkbox"/> Install a rain harvesting system to supplement the irrigation system.		
<input type="checkbox"/> Disconnect downspouts and route to landscaping area or rain garden.		
<input checked="" type="checkbox"/> Other:		

See Notes

POLLUTION PREVENTION		
Equipment/Facility Changes Required minimum of the selected measures -- 5		
		Date Verified
	Stormwater Management	
<input type="checkbox"/>	Install secondary containment or berm around outdoor liquid storage and transfer areas to capture spills or leaks.	
<input type="checkbox"/>	Keep storm drain protection devices on hand for quick spill response.	
<input type="checkbox"/>	Post signs at dumpster to remind employees to keep lids closed.	
<input checked="" type="checkbox"/>	Post signs at all trash cans and dumpsters discouraging the disposal of liquids.	
<input type="checkbox"/>	Other:	
	Wastewater Discharge Management	
<input type="checkbox"/>	Post a sign above sink area for employees: "Do not Dump Hazardous Chemicals Down Sink or Sewer" and educate employees on proper disposal methods.	
<input type="checkbox"/>	Post a sign at sinks "Do not dump Fats, Oils, or Grease down the sink".	
<input checked="" type="checkbox"/>	Install a grease trap or interceptor at your facility.	
	Waste Management	
<input type="checkbox"/>	Use a chalkboard or white board with VOC free water based markers to list specials.	
<input checked="" type="checkbox"/>	Replace equipment containing mercury with non-mercury alternative such as thermometers, thermostats, and gauges. Dispose of mercury-containing equipment as hazardous waste.	
<input checked="" type="checkbox"/>	Replace standard florescent lights with low or mercury free fluorescent lights	
<input type="checkbox"/>	Other:	
Practice Changes Required minimum of the selected measures -- 5		
	Stormwater Management	
<input checked="" type="checkbox"/>	Inspect and clean private storm drains annually before the first rain and as needed thereafter.	
<input checked="" type="checkbox"/>	Limit access to hazardous products to authorized personnel.	
<input type="checkbox"/>	Label on-site storm drains with "No dumping..." message.	
<input type="checkbox"/>	Participate in a local "Adopt-a-Storm Drain" program.	
<input checked="" type="checkbox"/>	Store deliveries, supplies and equipment kept outdoors under a roof or cover.	

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

POLLUTION PREVENTION		
Practice Changes (continued) Required minimum of the selected measures – 5		
	Stormwater Management (continued)	Date Verified
<i>See Notes</i>	<input checked="" type="checkbox"/> Regularly clean litter including cigarette butts from areas surrounding facility and dispose of properly. Provide adequate ash trays to prevent cigarette litter.	
	<input checked="" type="checkbox"/> Routinely check company vehicles for oil leaks and staining on pavement and repair identified vehicles.	
	<input type="checkbox"/> Use a Clean Water Business Partner carpet cleaner, landscaper or mobile power washer. (Sacramento County only)	
	<input checked="" type="checkbox"/> Hire a certified Sacramento Area Sustainable Business for your business operations.	
	<input type="checkbox"/> Use a certified Green Gardener for landscaping maintenance or installation at your business.	
	<input type="checkbox"/> Use a certified Ecowise structural pesticide applicator at your business.	
	<input type="checkbox"/> Participate in a local "Adopt-A-Waterway" or "Adopt-A-Open Space" program.	
	<input type="checkbox"/> Distribute educational materials on stormwater pollution prevention to employees & customers.	
	<input checked="" type="checkbox"/> Routinely clean dumpster area. Dispose of spent wash water appropriately.	
	<input type="checkbox"/> Participate in a local storm drain marking program.	
	<input checked="" type="checkbox"/> Eliminate the use of chemical pesticides by correcting by eliminating attractants or harborage for pests.	
	<input type="checkbox"/> Other:	
	Water Pollution Prevention	
<input checked="" type="checkbox"/> Buy paper products (towels, napkins, & copy paper) that are unbleached (no chlorine).		
<input type="checkbox"/> Other:		
Waste Management		
<input type="checkbox"/> Purchase necessary hazardous products such as cleaners in the smallest quantities possible.		
<input checked="" type="checkbox"/> Replace standard fluorescent lights with low- or non-mercury fluorescent lights.		
<input type="checkbox"/> Require in janitorial contracts that safer, less toxic janitorial products are used to clean your facility.		
<input checked="" type="checkbox"/> Use one or a few multipurpose cleaners, rather than many special purpose cleaners.		
<input type="checkbox"/> Use rechargeable/recyclable batteries in appliances, such as small vacuums or flashlights, instead of using disposable batteries.		
<input type="checkbox"/> Reuse left-over paint.		
<input type="checkbox"/> Other: <i>Smoking is not allowed on campus & we regularly clean dock areas.</i>		

**Application Checklist
SACRAMENTO AREA SUSTAINABLE BUSINESS PROGRAM**

ENERGY CONSERVATION	
Equipment/Facility Changes Required minimum of the selected measures – 5	
Many of these actions qualify for incentives and rebates from your utility company. You are encouraged to contact your local electric and gas provider and request an energy audit to identify energy saving opportunities and associated rebates.	Date Verified
<input type="checkbox"/> Adjust equipment controls to an operating temperature, speed, or other settings that use less energy. Post signs at equipment stating the reason for the setting.	
<input checked="" type="checkbox"/> Have an energy use assessment conducted of your facility. (note: required for Silver level certification) <i>Nov. 2010 - FSTC Kong Shum</i>	
<input type="checkbox"/> Install a programmable thermostat to control heating and air conditioning.	
<input type="checkbox"/> Install and use computer programs that save energy by automatically turning off idle computer monitors and printers.	
<input checked="" type="checkbox"/> Install dimmable ballasts to dim lights when daylight is available.	
<input checked="" type="checkbox"/> Install economizers on an existing AC system to increase air flow.	
<input checked="" type="checkbox"/> Install occupancy sensors for lighting in low occupancy areas, including walk-in refrigerator/freezers.	
<i>no *</i> <input type="checkbox"/> Insulate hot water heaters and hot water pipes (for electric water heaters only).	
<input checked="" type="checkbox"/> Plant a shade tree near the building to minimize sun exposure. Trees are available from SMUD and the Sacramento Tree Foundation.	
<input type="checkbox"/> Provide shading for outdoor HVAC condenser(s).	
<input type="checkbox"/> Rearrange workspace to take advantage of natural sunlight.	
<input checked="" type="checkbox"/> Replace all incandescent bulbs with compact fluorescent lamps.	
<input checked="" type="checkbox"/> Replace an older refrigerator or other appliance with a new efficient model (such as an Energy Star qualified type). <i>as needed</i>	
<input type="checkbox"/> Replace or supplement an existing AC system with an evaporative cooler, or a unit with a greater EER rating.	
<input checked="" type="checkbox"/> Retrofit exit signs with LEDs or fluorescent bulbs.	
<input type="checkbox"/> Shut-off water-cooled air conditioning units when not needed. <i>Demand Controlled</i>	
<input checked="" type="checkbox"/> Upgrade existing fluorescent lighting with more energy efficient (t-5 or t-8) fluorescent lamps with electronic ballasts.	
<input checked="" type="checkbox"/> Use an energy management software system to control lighting and HVAC systems.	
<input type="checkbox"/> Use an ink jet printer instead of a laser printer - they use 90% less energy.	
<input checked="" type="checkbox"/> Use electronic equipment with energy saving features (e.g. Energy Star models).	
<input checked="" type="checkbox"/> Use weather stripping to close air gaps around doors and windows.

SOLID WASTE REDUCTION	
Equipment/Facility Changes Required minimum of the selected measures – 5	
	Date Verified
<input checked="" type="checkbox"/> Buy products in returnable, reusable or recyclable containers.	
<input checked="" type="checkbox"/> Centralize purchasing within your company to eliminate unnecessary purchases and control what is being bought.	
<input checked="" type="checkbox"/> Conduct a solid waste assessment to identify ways to reduce waste, increase recycling, and increase use of recycled-content products.	
<input checked="" type="checkbox"/> Develop routing lists for bulletins, memos, and trade journals to minimize the number of employees receiving individual copies.	
<input type="checkbox"/> Eliminate fax cover sheets by using stick-on fax labels.	
<input type="checkbox"/> Eliminate purchase of disposable items such as pens, calendars, etc. Purchase reusable items instead.	
<input checked="" type="checkbox"/> Eliminate unnecessary forms, and/or redesign forms to use less paper, or maintain forms in electronic format only.	
<input type="checkbox"/> Encourage employees to share phone books, repair manuals, etc. instead of ordering books for each employee.	
<input checked="" type="checkbox"/> Freecycle - dispose of unwanted items through websites such as freecycle.com; freecycle.org; or craigslist.com. <i>Bargain Barn</i>	
<input type="checkbox"/> Install air hand dryers in restrooms and eliminate paper towels for hand washing.	
<input checked="" type="checkbox"/> Order supplies using e-mail or voice mail instead of forms.	
<input type="checkbox"/> Participate in a cooperative buying program.	
<input type="checkbox"/> Participate in the local Recycle Market Development Zone; receive assistance in finding a market for recycling a waste your company produces.	
<input type="checkbox"/> Provide incentives for customers to return bags and boxes.	
<input checked="" type="checkbox"/> Purchase cleaning supplies in concentrated formulas and portion into labeled, reusable dispensing bottles.	
<input checked="" type="checkbox"/> Purchase paper products certified by the Forest Stewardship Council. <i>Promotional</i>	
<input checked="" type="checkbox"/> Replace disposable beverage cups, plates, and utensils with washable, reusable items. Encourage employees to bring food from home in reusable containers and/or bring their own washable plates/utensils to work.	
<input checked="" type="checkbox"/> Replace several similar products with one or two that can do the same job.	
<input type="checkbox"/> Require vendors to deliver supplies in returnable containers.
