UNIVERSITY

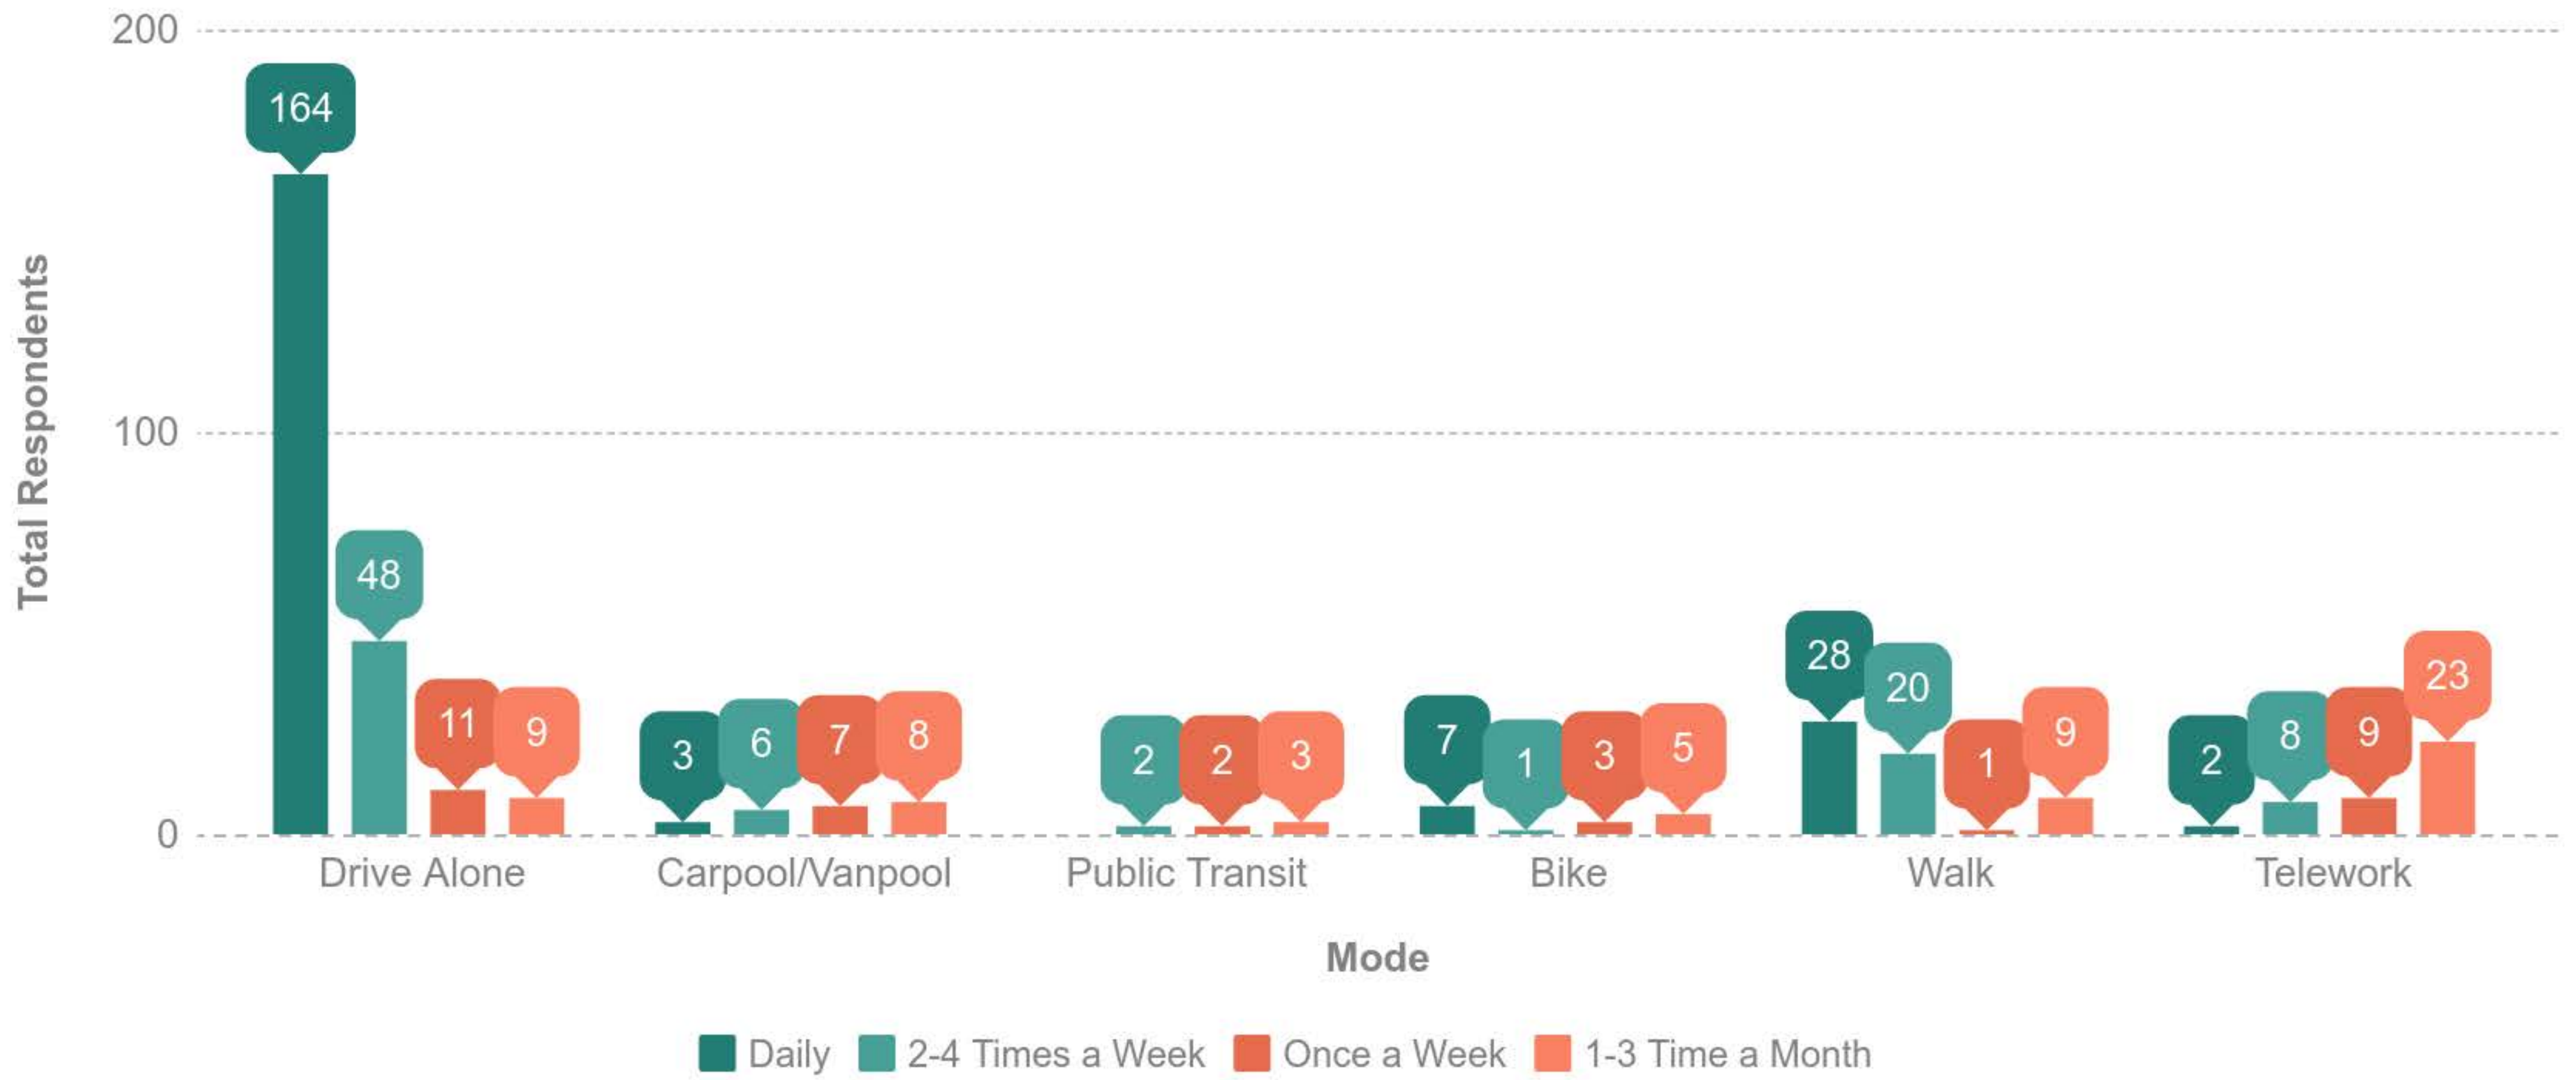

# WESLEYAN UNIVERSITY COMMUTER SURVEY RESULTS

---

In collaboration with

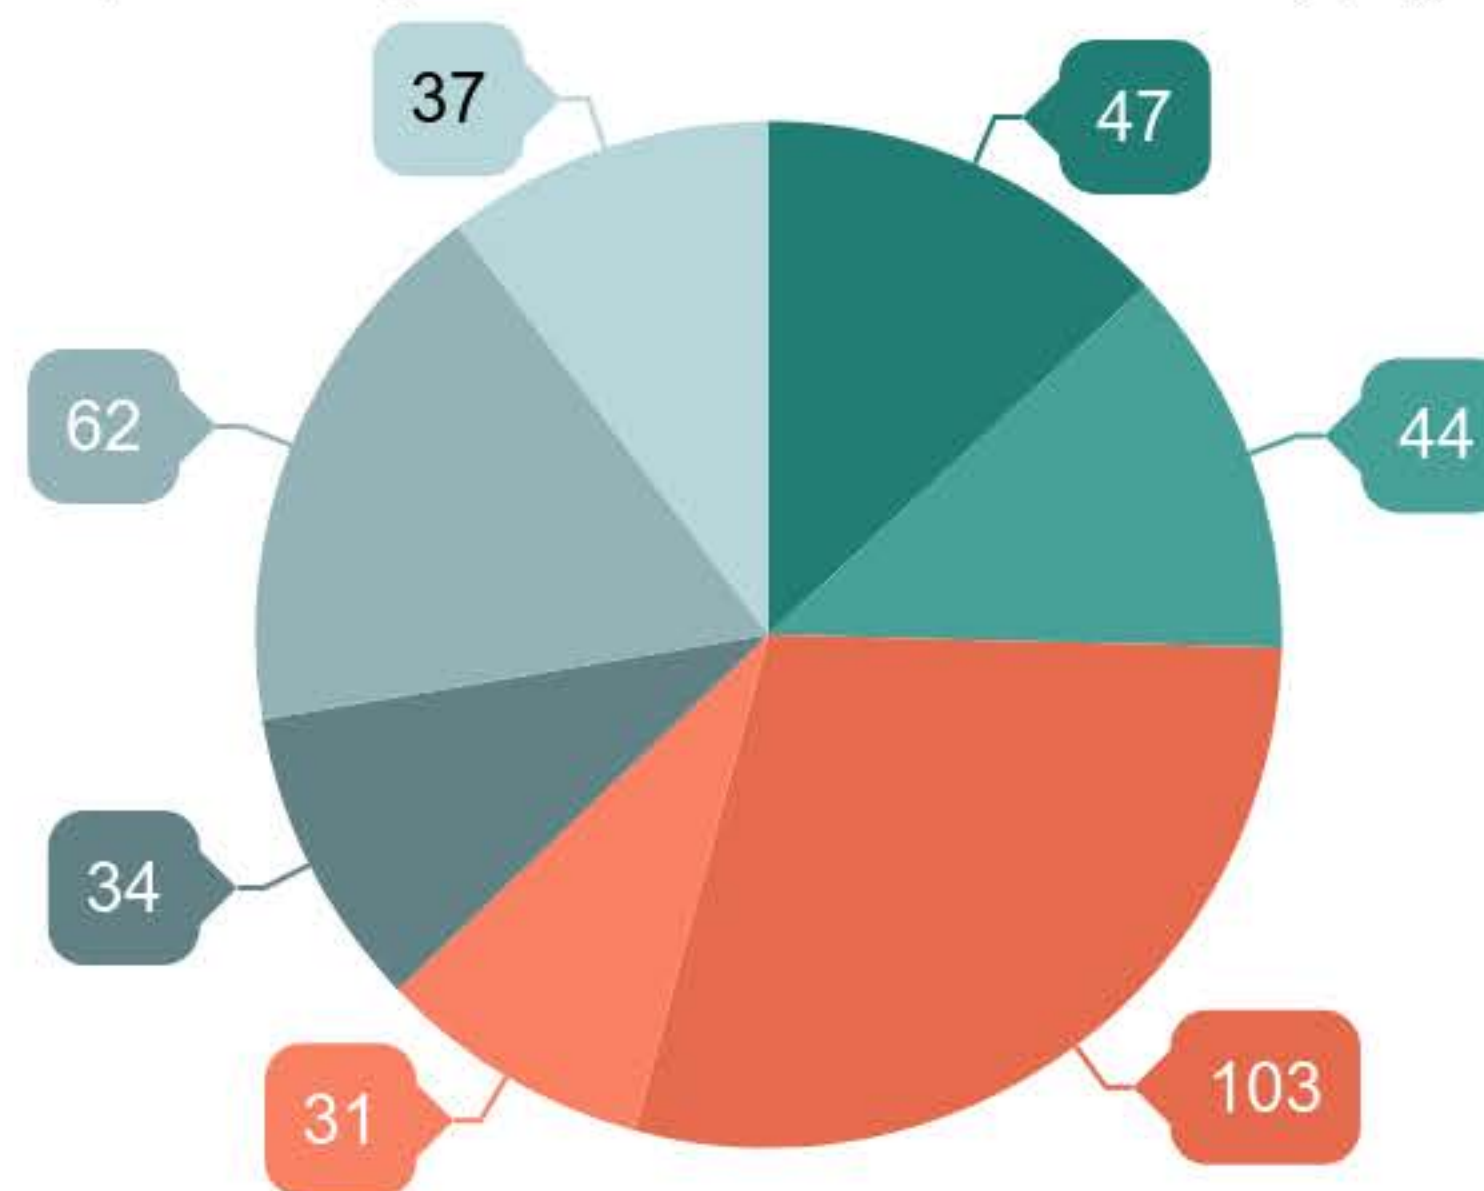

# 1. How do you usually commute to work?

# 2. Which of the following would make you more likely to try an alternative way of commuting?

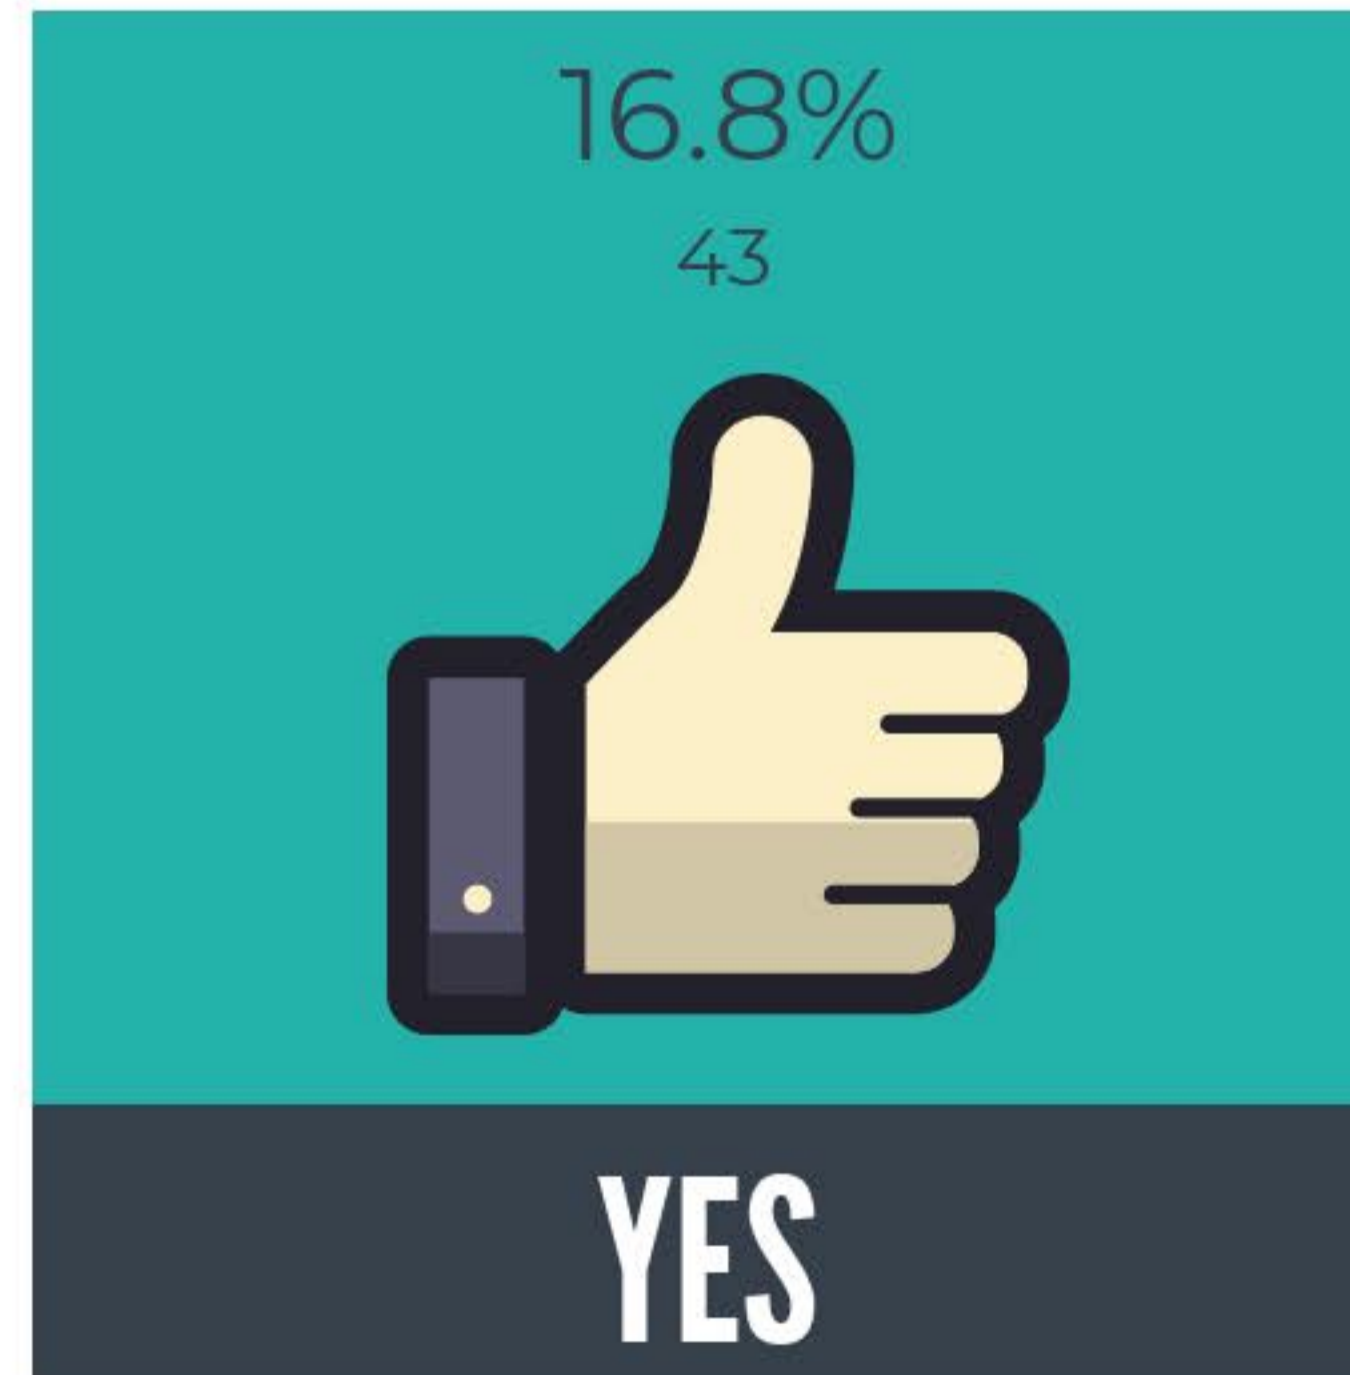

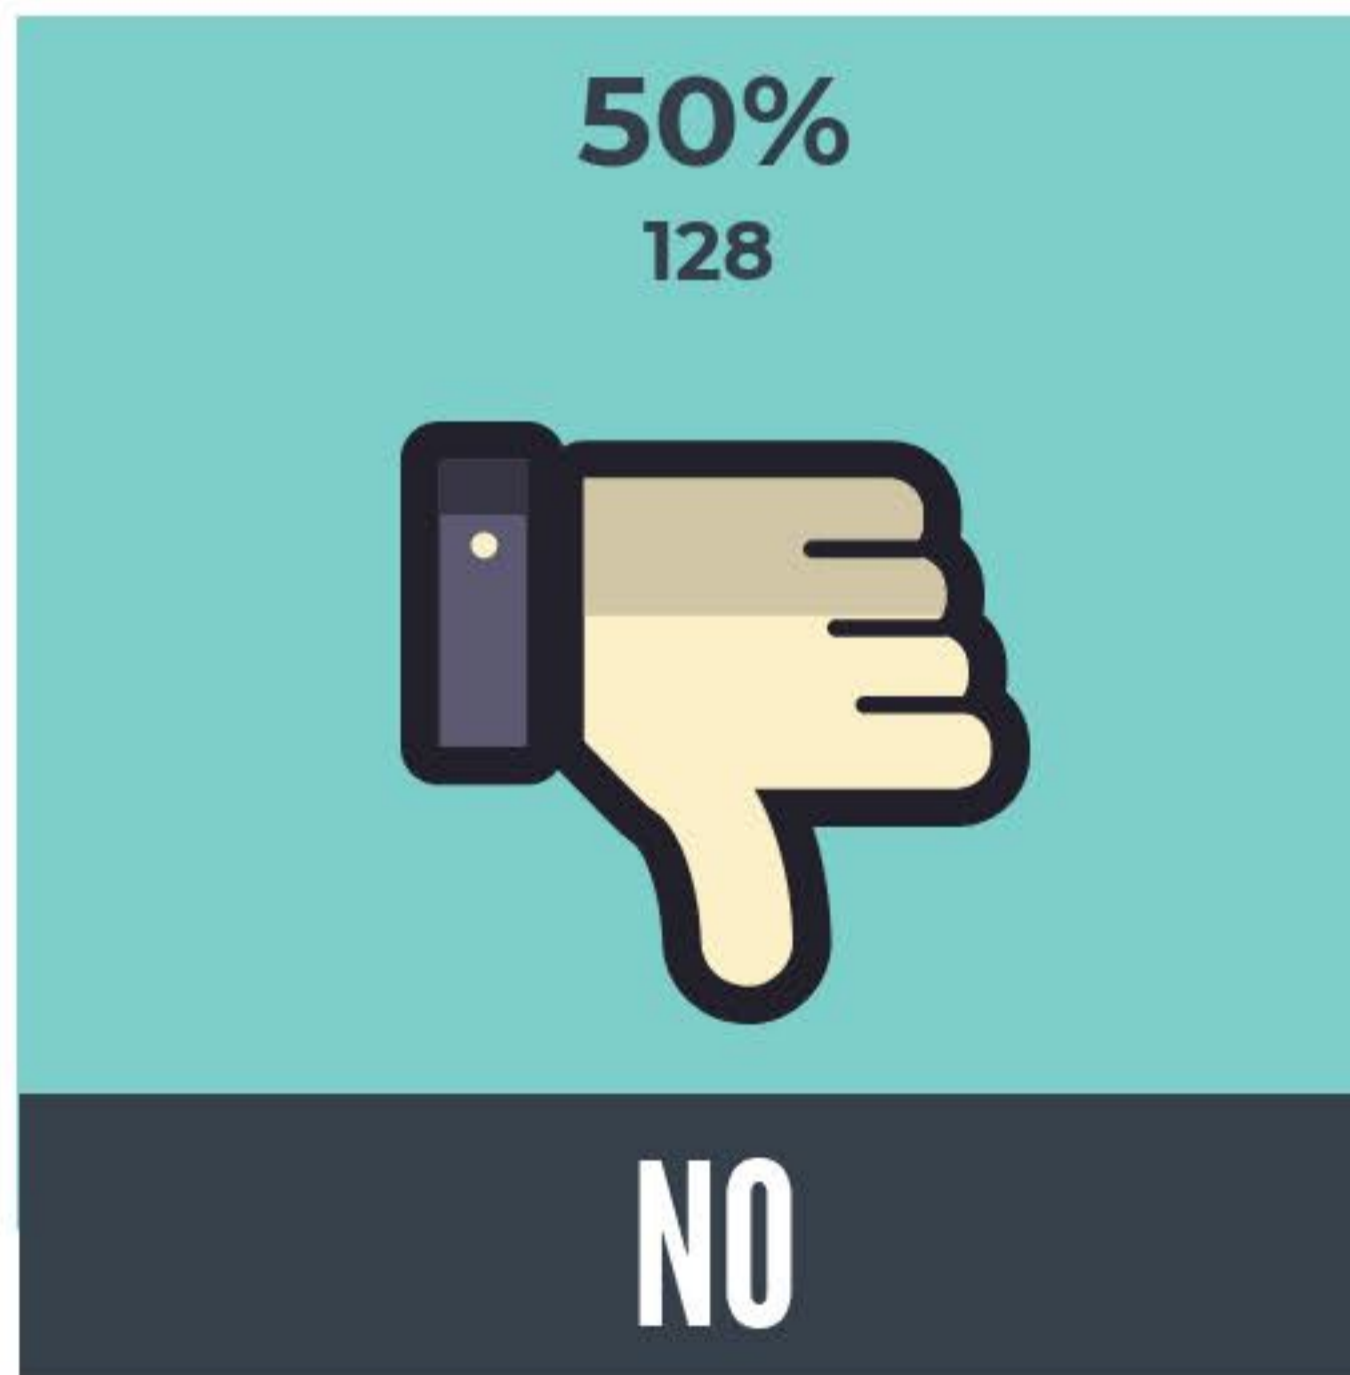

358 Responses  
(NOTE: Question was select all that apply)

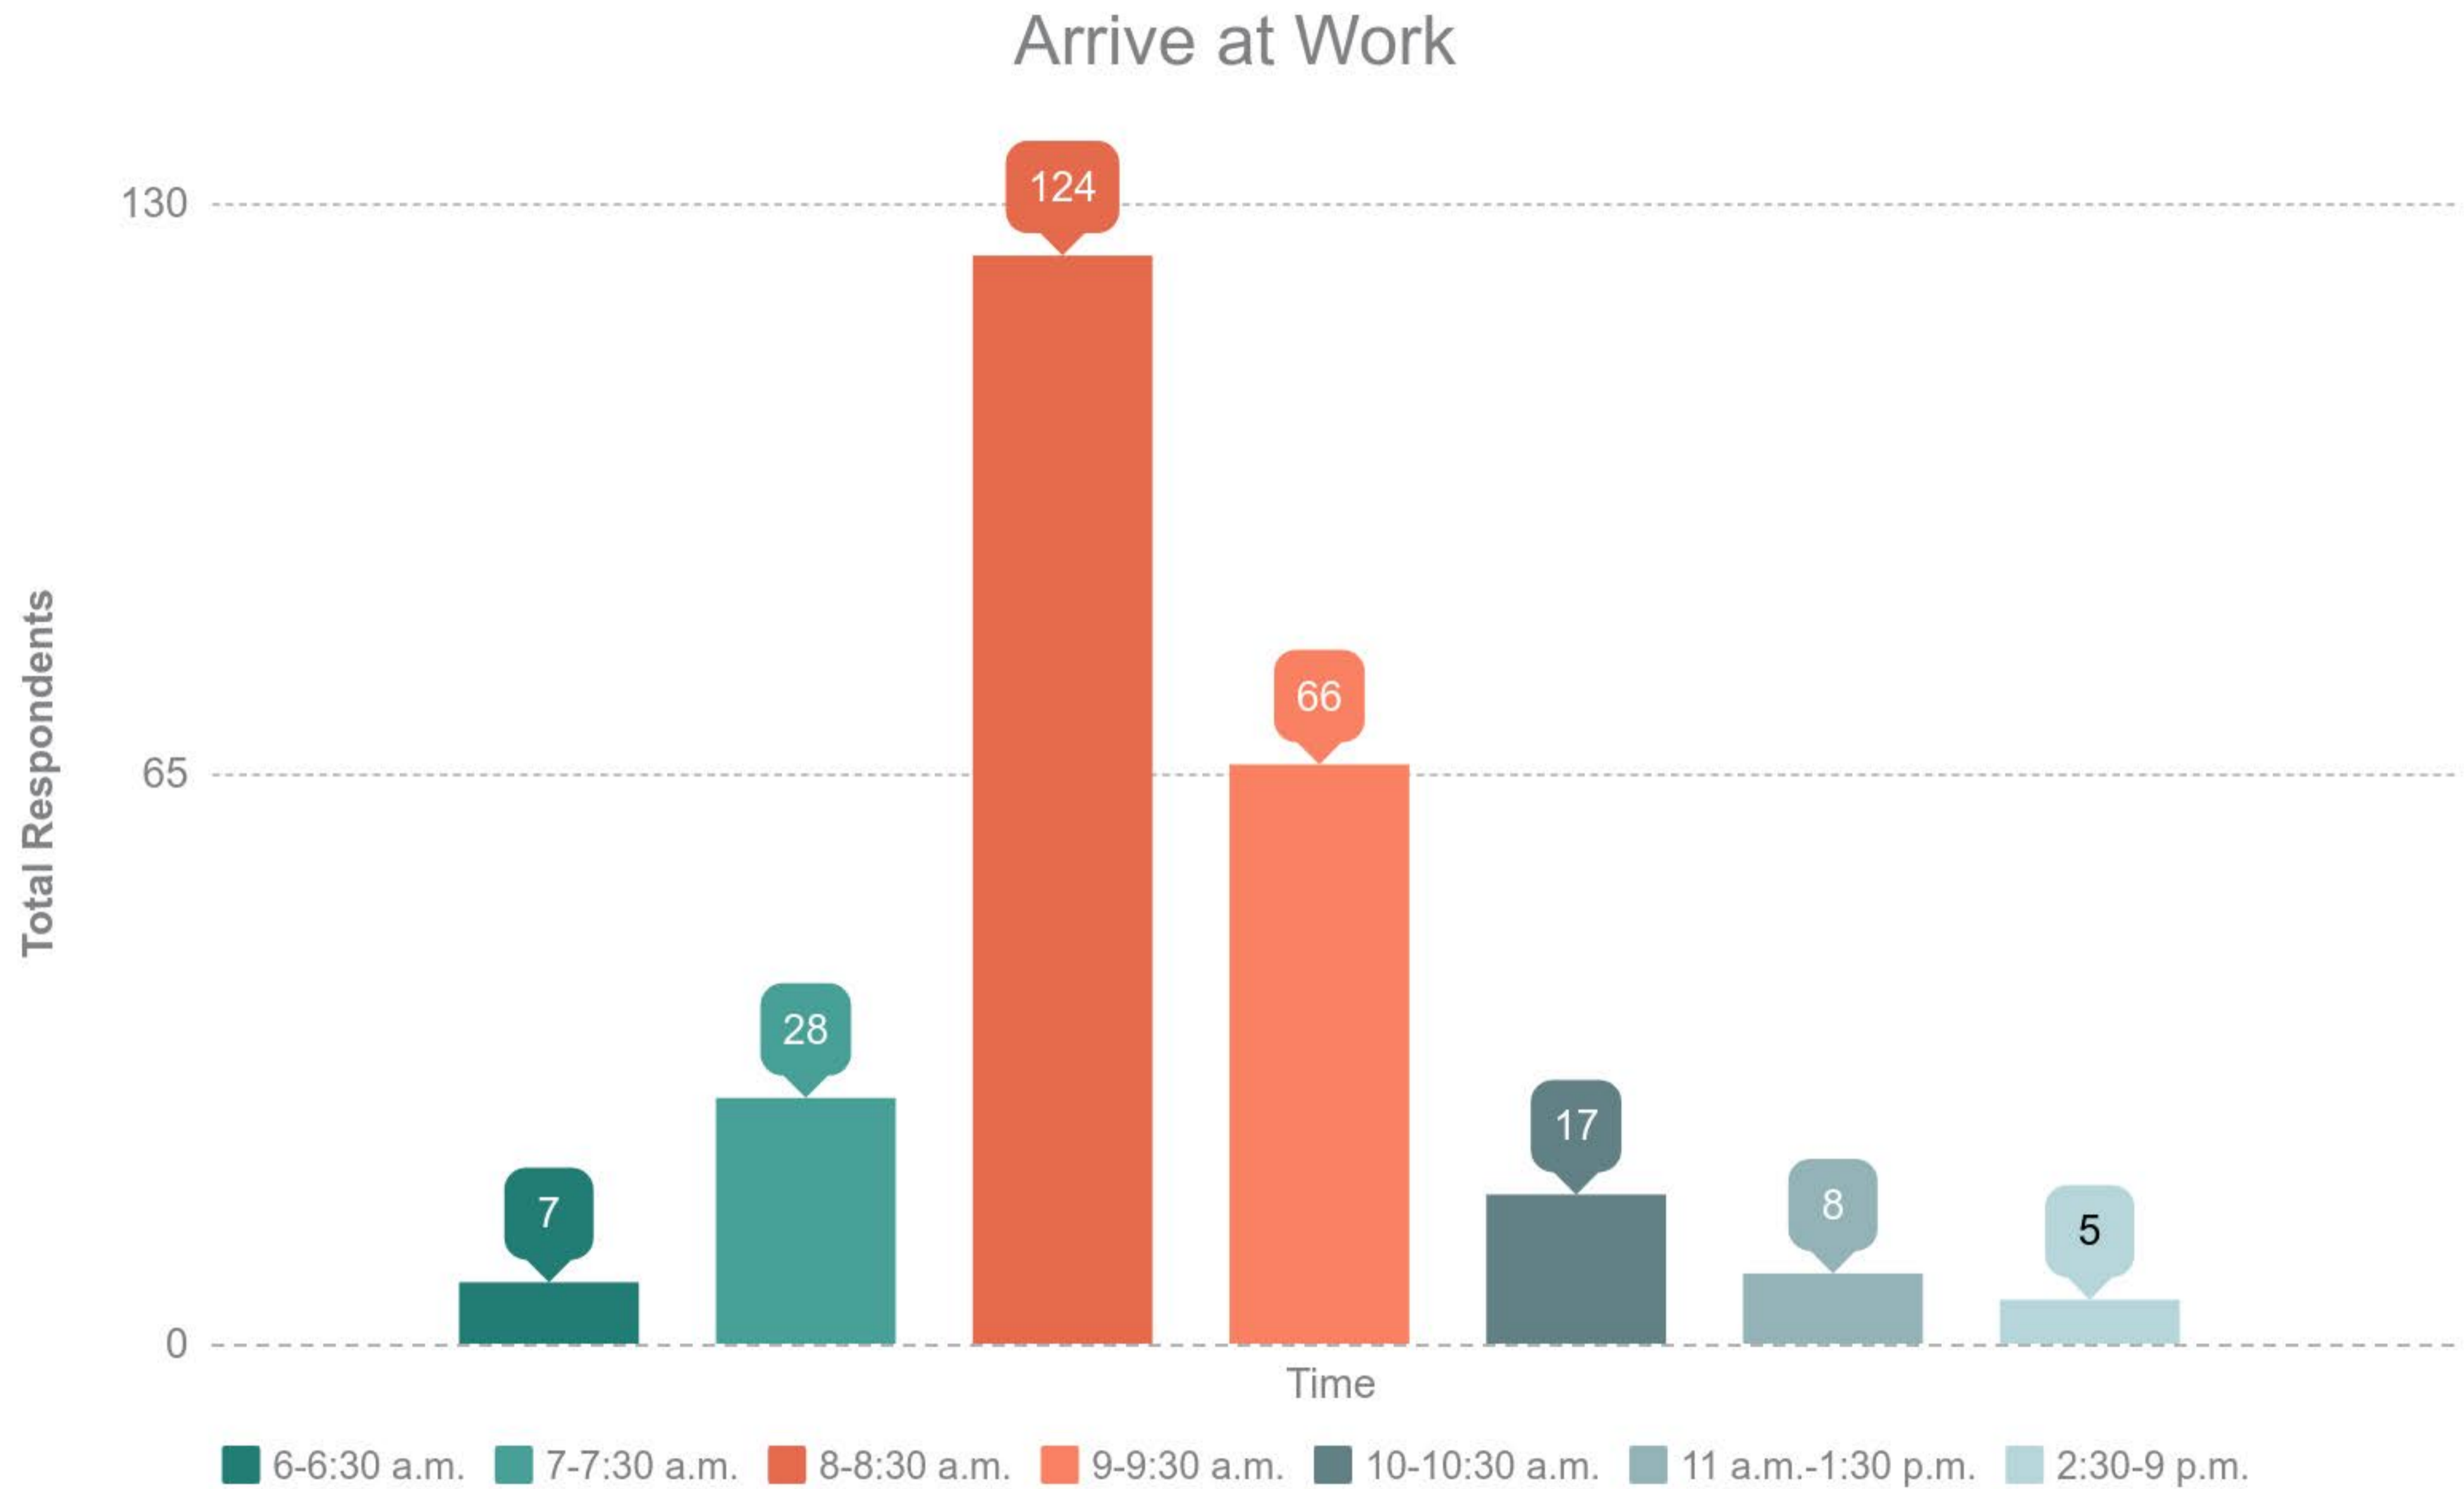

■ Emergency Ride Program (13.13%) 
 ■ Help finding carpoolers (12.29%) 
 ■ Rewards or Incentives (28.77%) 
 ■ Custom Commute Plan (8.66%)  
■ Free trial transit pass (9.50%) 
 ■ Detailed info. on options (17.32%) 
 ■ Other (10.34%)

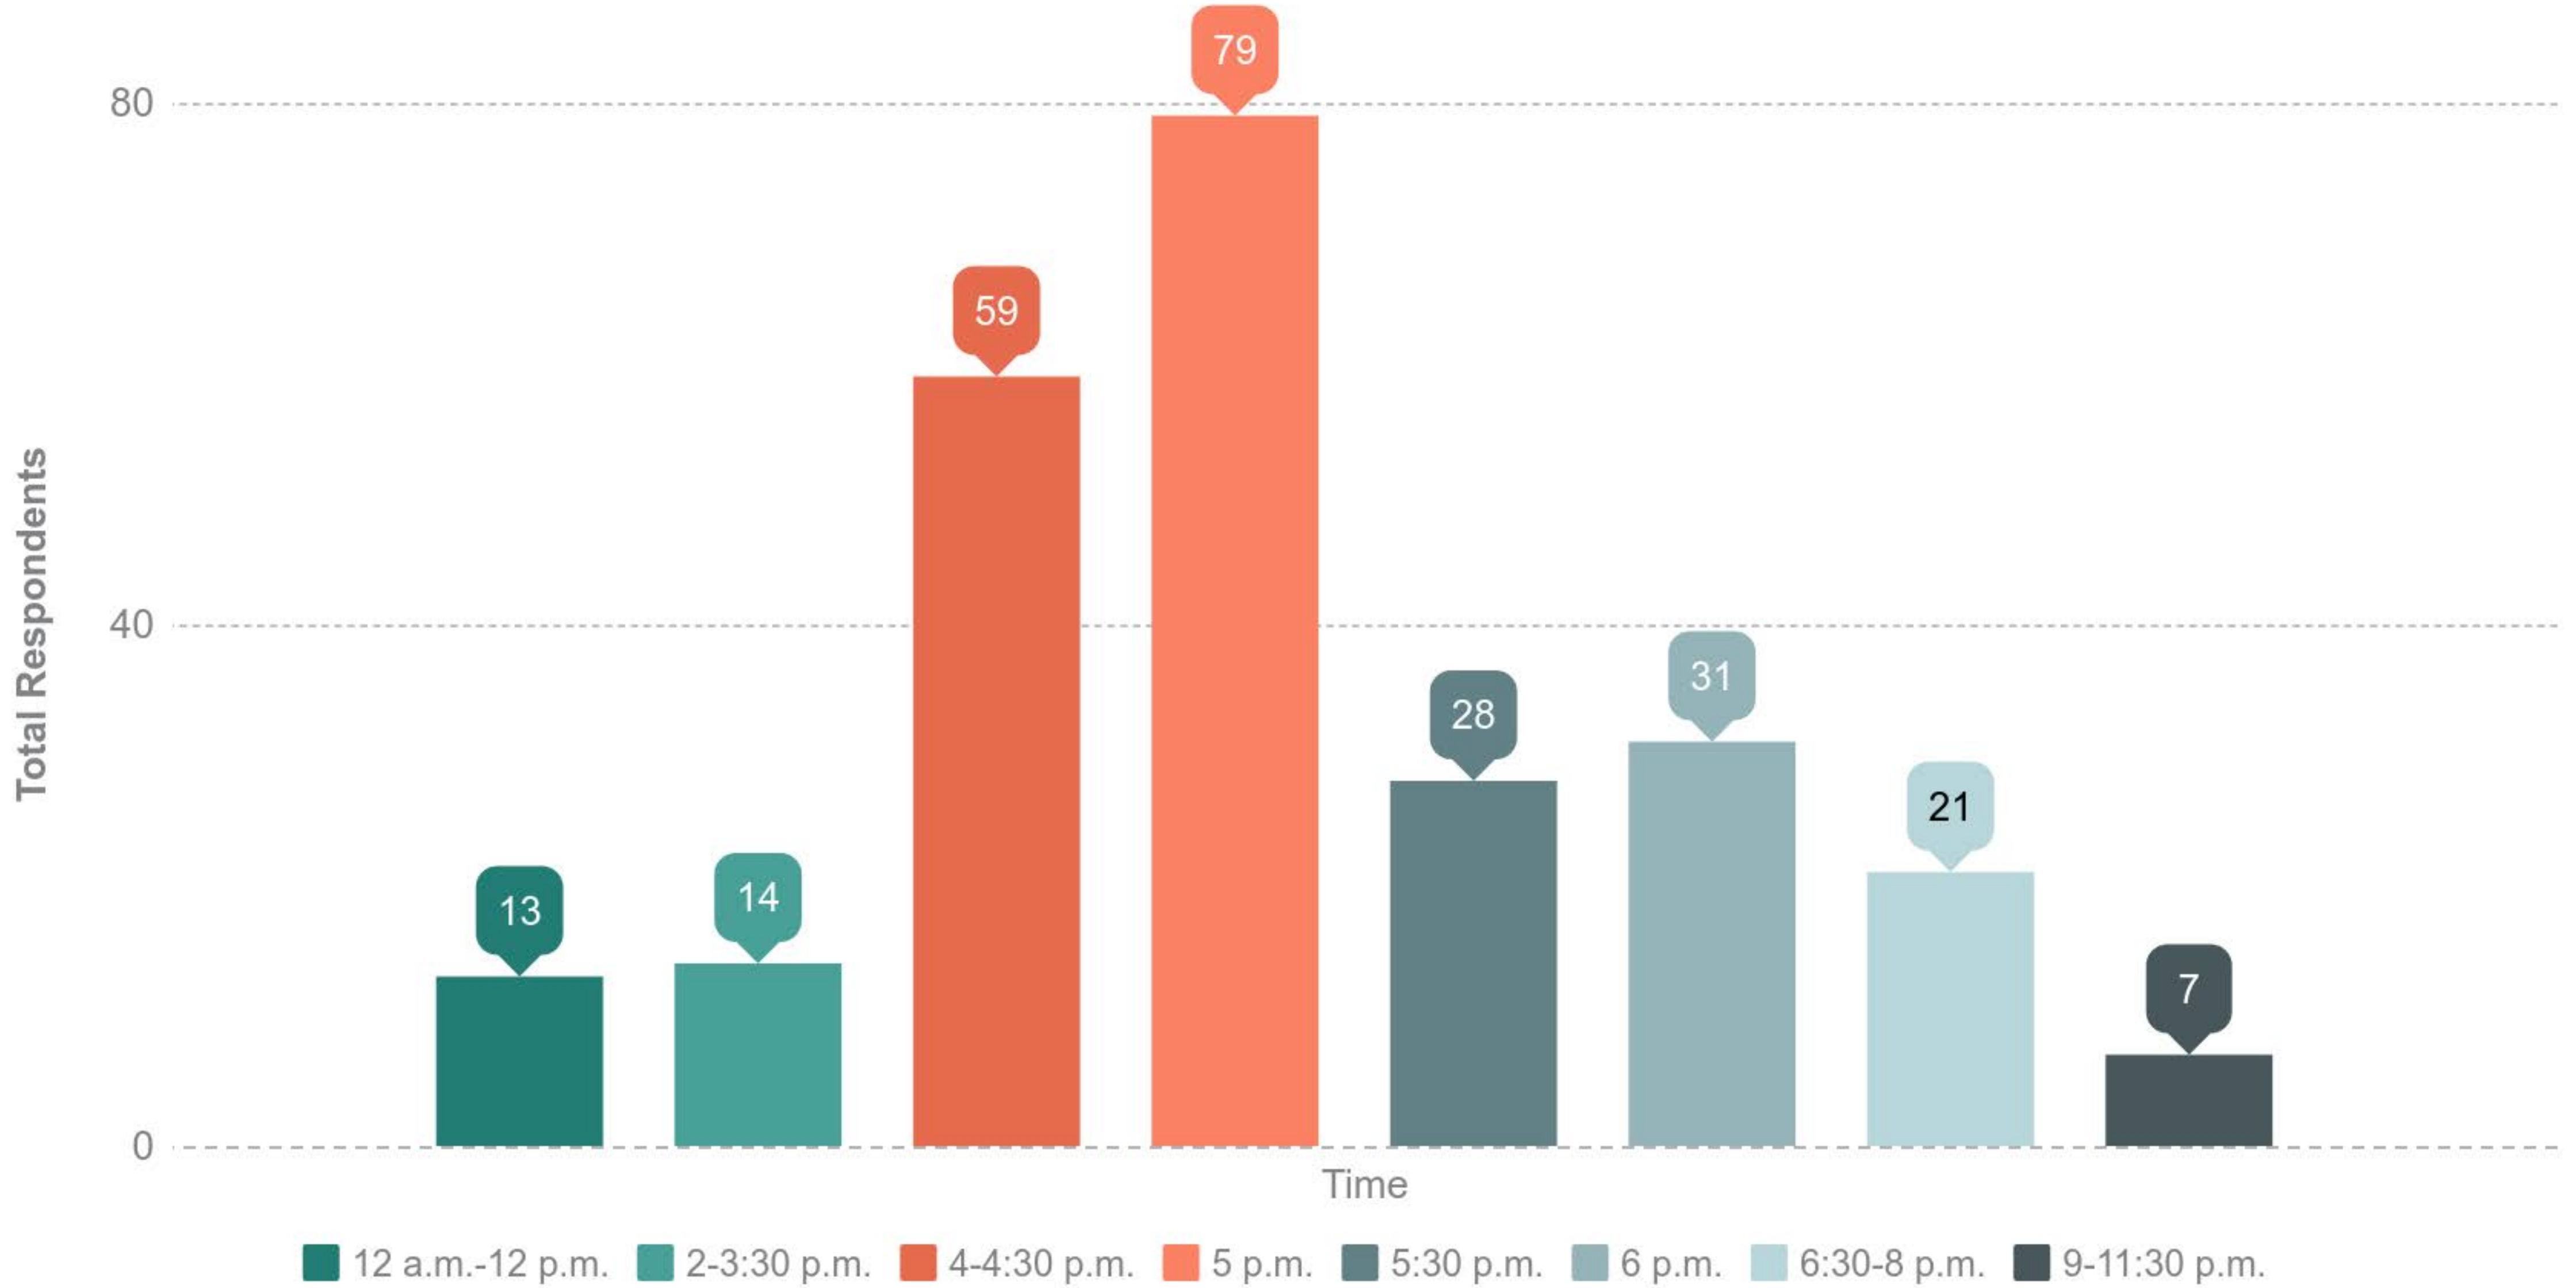

### 3. If you were provided with additional resources on alternative ways of commuting, would you be more likely to try a new way to commute?

# 4. What time do you usually arrive and leave work?

# Leave Work

# Comments on how people would be more likely to try an alternate commute...

- Better bike racks, lanes and paths
- Reasons why I should consider other alternatives
- Work from home, telecommute
- I drive a van modified for a wheelchair user, so don't have other options available – though when my van was in the shop, I did get a ride from Wesleyan by a Van modified to transport wheelchair users
- Better sidewalk plan to make walking a better option
- Not interested in commuting with others. I don't go directly home after work.
- I am not able to carpool due to daily after school activities
- A way to get from commuter Park and Ride on 91/Meriden train station to Middletown
- alternatives for child transportation
- Greater University-wide acceptance and support of teleworking
- Finding people in area that work similar times.
- I'd probably walk: I'm only a 3-minute drive away so it is by no means a long commute. If Wesleyan established a shuttle service for the Middletown area with frequent stops during the day I'd try it.
- Light rail infrastructure
- If you charged for staff/faculty parking
- Someone I work with or in my department
- Access to bicycles
