

April 3, 2023

Dear AASHE STARS Reviewers,

I write to confirm that I have conducted an independent affirmation of Wesleyan University's 2023 STARS 2.2 submission (PRE, AC and EN sections) and confirm that Wesleyan's STARS report is reported in accordance with credit criteria. Wesleyan University has satisfactorily addressed my comments in their finalized report.

In my review I have confirmed that:

1. All required reporting fields, attachments, inventories, and URLs are included and functional;
2. Reported information meets credit criteria and is consistent with required timeframes;
3. Reported figures are consistent across credits with any inconsistencies explained.

I affirm that I was not involved in any way in the data collection process for any of the credits.

Sincerely,

Tanja Srebotnjak, PhD, LEED AP
