Meghan Fay Zahniser, Executive Director
Association for the Advancement of Sustainability in Higher Education (AASHE)
2401 Walnut Street, Suite 102
Philadelphia, PA 19103

Dear Ms. Zahniser:

As an AASHE member and a current participant in the Sustainability Tracking, Assessment, and Ratings System, the University of Wisconsin-Stout is proud to submit our second STARS report.

At the University of Wisconsin-Stout, sustainability has been and continues to be one of our university priorities, as well as an enduring goal for our campus. Our STARS report demonstrates this commitment in not only the operations of our campus, but also in the way we engage with our community and in the way we educate our students to be active members of their communities and good stewards of the planet.

We affirm that the information included in our STARS report is accurate to the best of our abilities. We will use this data as a benchmarking measure for sustainability at UW-Stout. And we plan to continue with the measurement of these indicators biennially, in an attempt to continually improve our sustainability record.

Thank you for your work with the STARS program and for the opportunity to measure the sustainability of our campus.

Sincerely,
