

MUHLENBERG

COLLEGE

Peyton R. Helm
PRESIDENT

June 25, 2013

Ms. Wendy W. Scott, Interim Executive Director
Association for the Advancement of Sustainability in Higher Education
1536 Wynkoop St., Suite 100
Denver, CO 80202

Dear Ms. Scott:

Created in 2003 and comprised of faculty, staff and student representatives, the **Muhlenberg College Greening Committee** examines, proposes, and monitors sustainability efforts, reduces resource use and promotes dialogue on and off campus.

Staffed by the Director of Sustainability Studies and the Campus Sustainability Coordinator, **The Office of Campus Sustainability** facilitates the linkage between academic and facilities-based sustainability efforts to create student internship opportunities in the area of campus sustainability, support the Campus Greening Committee and student environmental groups, and seek external funding and maintain resources to further the integration of sustainability into the curriculum and across campus.

The Office for Community Service & Civic Engagement cultivates partnerships with organizations in the Lehigh Valley and supports environmental and social sustainability through volunteerism, service-learning, and civic engagement.

The Muhlenberg Environmental Action Team (EnAcT) is a student organization that educates the campus on sustainability and environmental issues and develops projects and programs to lessen the ecological impact of individuals.

The culmination of a decade of commitment and progress from these and many other offices and organizations across campus, we are pleased to submit this assessment for your consideration. To the best of our knowledge and ability it is complete and accurate and, as President, I endorse its content.

Sincerely,

Peyton R. Helm
