Sustainability-Focused Offerings

Title:	Salmon in the Nooksack River
Offering Type:	ALL online course Fall 2021
Number of Offerings in FY22:	1
Enrollment in FY22:	14
Description:	<p>Salmon are an essential part of our economy, culture and environment here in the Pacific Northwest. The salmon, and many of the species that depend on them, are struggling. What is being done locally and regionally to help salmon survive, and thrive? What is the status of salmon in the Salish Sea? How are we working in Whatcom County to help salmon recovery?</p> <p>Learn about the types of salmon, their lifecycle, habitat needs, and the critical role they play in the ecosystem of the Salish Sea. We'll cover the complex salmon recovery efforts and explore how community members can get involved.</p> <p>Rachel Vasak has a bachelor's degree in geology and an MPA in nonprofit leadership. She has worked at the Nooksack Salmon Enhancement Association (NSEA) for 23 years, in a variety of capacities, and has served as Executive Director since 2008. NSEA is led by a staff of 6 and supported by thousands of volunteers striving to recover salmon through restoration, education and stewardship</p>

Title:	Colombia: Natural and Cultural History of Colombia
Offering Type:	ALL online course Fall 2021
Number of Offerings in FY22:	1

Enrollment in FY22:	15
Description:	<p>Andino (of the Andes) altitudes and indigenous attitudes have shaped the Interior of Colombia. It has also been shaped by its two-ocean coasts and the Spanish Exploration. Rags to Riches abound to this day! We will take a close look at the diverse natural and cultural history overall. Specifically, visiting the central, western, and northern regions of touristic places, as well as, off the beaten path unique sites. Join us for this fun trip of a lifetime!</p> <p>David Drummond, naturalist-educator-traveler has been multi-month traveling in South American countries since 1994 with binoculars, poetry notebook and camera always at the ready. Seeking connection with the denizens of the Disappearing, he enjoys sharing these bio-synergistic insights with you~ David spent seven months in Colombia, six and a half months in “curantena” (quarantine).</p>

Title:	Ecotourism: An Environmentally Sensitive Travel Lifestyle
Offering Type:	ALL spring 2022 course
Number of Offerings in FY22:	1
Enrollment in FY22:	7
Description:	<p>Do you enjoy traveling to natural areas that conserve the environment, that sustain the well-being of the local people, and that provide interpretation and education? If so, you will thoroughly enjoy this course.</p> <p>The first session will introduce the concepts, principles, and social/ecological impacts of ecotourism. In week two you’ll learn about the various types of ecotourism and their economic benefits.</p> <p>You will be provided with plenty of resources and will hear from two guest speakers. You will learn how to evaluate eco-friendly tours.</p> <p>By the third session you’ll be ready to plan your own successful ecotourism trip.</p> <p>We welcome the expertise of Tim Morgan who will be Zooming in from New Mexico.</p> <p>Tim has over 15 years of experience in the tourism industry and has promoted ecotourism in his various tourism roles, including as an instructor in Hospitality & Tourism Management at Highline College. He is currently employed as Vice President of Economic Development at New Mexico Partnership in Albuquerque.</p>

Title:	Blue Ice and Fossil Water: Glacial History of Climate Change
Offering Type:	All spring 2022 course

Number of Offerings in FY22:	1
Enrollment in FY22:	25
Description:	<p>How are glaciers related to climate change and freshwater resources in the North Cascades? This course will assess what modern climate change means to glaciers and regional water supplies. We will explore the ice age records of past climate changes reconstructed by examining glacial deposits and ancient glacial lake sediments. We will then continue the story from the most recent ice age to current glacier monitoring in Washington. This will include a photographic comparison of glacier change from the early 20th Century until today. We will look at recent analyses of changes in glacial contribution to summer streamflow in the past 50 years and a projection of the future of glaciers in this region.</p> <p>Jon Riedel is a glacial geologist who recently retired after a 40-year career with the National Park Service. The focus of his research has been on the sensitive response of Washington's glaciers to climate change from the last ice age 30,000 years ago to the modern warming climate. Dr. Riedel established glacier monitoring programs at Olympic (2013), Mt. Rainier (2003), and North Cascades (1993) National Parks to track changes in more than 500 glaciers. Jon is a founding member and President of the Skagit Climate Science Consortium, a nonprofit organization focused on understanding the impacts of climate change on the Skagit River watershed and making the information available to local decision makers. He holds a MS degree in geography from the University of Wisconsin-Madison and a PhD in earth sciences from Simon Fraser University.</p>

Title:	When Care Is Needed
Offering Type:	ALL course spring 2022
Number of Offerings in FY22:	1
Enrollment in FY22:	26
Description:	<p>Americans are living longer but dying slower. For many, that will mean needing care at some time in their lives. This class will review medical services for debilitating conditions and the many care options available when one cannot remain independent.</p> <p>Information will be provided on a variety of services available to help you or your loved ones remain safely at home, as well as residential care options. The class will address the cost of these services, who pays, and how to access each of them. We will also review the role of care managers and client advocates and the importance of putting a support team in place.</p> <p>Effective pre-planning can prevent you from being forced into making critical decisions in a time of crisis.</p>

	<p>Debbie Gann, CSA, has been working in healthcare since 1987 and has become a recognized advocate for the rights of seniors in our community. She is the owner of Home Attendant Care, past president of Elder Service Providers and the Alzheimer Society of WA as well as founding member of the WA Private Duty Assoc and the founder of a “Touch of Grace”.</p>
