To Whom It May Concern,

The Sustainability Council at Southern Illinois University Carbondale has undertaken the task of reviewing all credits being pursued for the STARS rating in version 2.1 during October 2019-January 2020 time period. As a team of nine people, we divided responsibility for credits and have reviewed them utilizing the AASHE STARS provided review tool. We have given our best attempt to confirm and check accuracy of included information. Though some of us did contribute to the STARS report, we did not accept reviewer responsibility for any credit for which we had reporting duties.

We have submitted feedback for credits that we felt needed revision and/or improvement, having identified any typos, broken web links, outliers, duplications, or areas that do not appear to meet our interpretation of STARS criteria. Any credit that was found to have an issue was reported through the review feedback process. The reporting team read the feedback, completed a response, and the assigned reviewer was notified via email to start another review of each credit, as needed.

In documenting our final findings here and in the attached spreadsheet containing "2nd Review" status and comments, we believe our responsibility to exercise a thorough review is now complete, and leave all remaining updates in the hands of SIU Sustainability Office team and the AASHE STARS team for final resolution.

Sincerely,
SIU Sustainability Council
Member names, credit assignments and signatures are found on next page.

Dr. Leslie Duram, Faculty, Geography & Environmental Resources
[EN10, EN11, EN12, EN13, EN14, EN15]

Dr. Tao Huang, Faculty, Art and Design
