DW

To Whom It May Concern:

In accordance with the criteria included in credit IN-18: Pre-Submission Review, I affirm that I have reviewed all credits that the institution is pursuing, checking that:

- All required reporting fields, attachments, inventories, and URLs are included and consistent with credit criteria and timeframes.
- Reported figures are consistent across credits (e.g., between the Institutional Characteristics section and specific credits that require similar figures) and that any inconsistencies are explained.

Furthermore I have documented the review and revision process and outcomes using the [STARS Review Template](#) and have noted that any inconsistencies identified during the review prior to submission have been addressed by the STARS Liaison or other primary contact(s) for the institution must.

Please feel free to contact me should you need any further confirmation regarding this review. Thank you.

Regards,
