Dear STARS Steering Committee:

On behalf of Towson University, I am pleased to submit our data for The Association for the Advancement of Sustainability in Higher Education Sustainability Tracking Assessment & Rating System (STARS). Towson achieved a provisional rating of Bronze for this inaugural report. The report was compiled by Clara Fang, Sustainability Manager, and many individuals from across the university who contributed their knowledge of Towson's sustainability initiatives for Fiscal Year 2012. I confirm that the information submitted is complete and accurate to the best of our knowledge and ability.

In 2007 former Towson President Dr. Robert Caret signed the American College and University President's Climate Commitment, pledging Towson to reach climate neutrality by 2050. Our ongoing participation in STARS will help us measure our progress and target future areas of improvement.

Sincerely,
