Onderwerp STARS submission

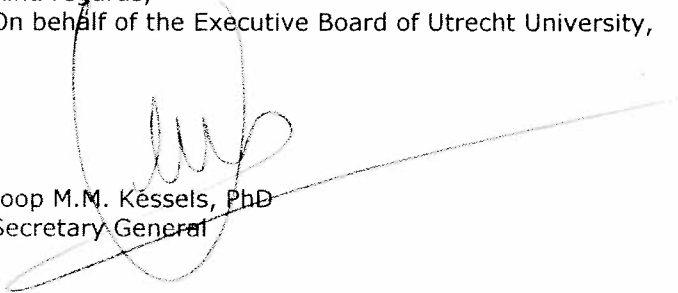

Dear Ms Wendy Scott,

Utrecht University takes pleasure in submitting its first Sustainability Tracking Assessment and Rating System (STARS) Report. This report contains a comprehensive overview of the various sustainability efforts throughout the university. The report is, to the best of our knowledge, an accurate representation of the policies and activities at Utrecht University.

The sustainability policies and activities at Utrecht University are still under great development. Over the past year STARS, among other activities, has helped us greatly to create an overview of the many sustainability activities already taking place at our university. In addition, STARS serves as an inspiration to Utrecht University by illustrating the various fields that still carry potential for further sustainable development.

We would like to thank AASHE for granting us the opportunity to participate in the international pilot.

Kind regards,
On behalf of the Executive Board of Utrecht University,

Joop M.M. Kessels, PhD
Secretary General
