

July 20, 2012

Dear Mr. Rowland,

As Puget Sound's Director of Student Activities, I have managed our orientation program for twenty years.

I am familiar with orientation programs at many institutions. I am not aware of other institutions that have embedded triple bottom line sustainability as comprehensively as Puget Sound in a week long experience. We use a combination education and practices on campus, in the outdoors, and in our local community that engage new students with Puget Sound's commitment to sustainability. I affirm that our orientation greatly exceeds the highest criterion of the new student orientation STARS credit.

Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Marta Palmquist Cady". The signature is written in black ink and is positioned above the typed name.

Marta Palmquist Cady
Director of Student Activities
