Penn State Behrend Begins Second Phase of Wintergreen Gorge Trail Improvement Project

Monday, May 8th 2023, 1:37 PM EDT

Penn State Behrend (PSB) has started the second phase of the Wintergreen Gorge trail improvement project.

Wintergreen Gorge is a Natural Heritage Area that is on/adjacent to the Behrend campus.

The \$544,000 project will include the extension of an ADA-accessible trail, and will address erosion on the trail system. The trail system is used by hikers, runners, and mountain-bikers.

Portions of the primary gorge trail have been temporarily closed by construction crews. Visitors can still access the trail system from the Cooper Rd. or Ohio Hall trailheads.

The Wintergreen Gorge trail improvement project began in 2019.

Additionally, crews will install another 100-ft. boardwalk, and new Dry Creek Loop trail that will split off the primary trail. Crews will also work on expanding a dry creek bed that was designed to collect runoff.

The improvement project is expected to continue through August.
