RE: Rutgers University—New Brunswick STARS Report Submission 2023

Dear AASHE Staff and STARS Steering Committee,

We, the undersigned, affirm that we have conducted a review of the STARS report in full, that Angela Oberg, Associate Director of the Rutgers Office of Climate Action, has responded to inconsistencies and errors identified by our team, and that the necessary changes have been made to the report where revision was required prior to submission.

We further attest that each credit was reviewed by a member of our team who was not involved in data collection for that credit in any way.

Sincerely,
