

UNIVERSITÉ
LAVAL

Vice-rectorat exécutif et au développement

September 20th, 2013

Dear Sir or Madam:

As executive Vice-President, development, it is my pleasure to confirm that the Educational Leadership Chair in Science and Sustainable Development is an innovation in its field.

The Educational Leadership Chairs established by Université Laval are the only ones of their kind in Canada. The aim of the program is to hire professors with unique areas of expertise and to develop new instructional practices. The Educational Leadership Chair in Science and Sustainable Development will therefore help develop new teaching tools that will benefit a wide range of students.

Leadership chairs are established in partnership with community members, businesses, and organizations that wish to enhance university instruction.

The Educational Leadership Chair in Science and Sustainable Development therefore indisputably qualifies as an innovation for the purposes of STARS accreditation.

Yours sincerely,

Éric Bauce, Ph.D.
Executive Vice-President
