Reference: Information confirmation- STARS accreditation

Madam, Sir:

Last year, Université Laval started the process leading to the renewal of the STARS accreditation.

Enclosed are the conclusions of this process. These results are due to the efforts of all members of the Laval community, who, every day, through many actions, have made Université Laval a model of sustainable development.

I therefore confirm that all the information sent in order to obtain that accreditation are true, complete and up to date.

Within the next weeks, it would certainly gives me great pleasure to announce the renewal results to ail our employees, students and partners in order for them to share our proudness.

Sincerely,

Sophie D'Amours
Rector
