

Two driving questions are "Why don't students at BC compost?" and "What can BC do to make composting easier?"

What is your grade?

- Freshman
- Sophomore
- Junior
- Senior

Where do you live on campus?

- All dorm buildings listed here
- Off Campus

How often do you eat BC DINING food?

- 5-7 days a week
- 3-4 days a week
- 1-2 days a week
- Never

How often do you eat in the DINING AREA (both inside dining halls and outside)?

- 5-7 days a week
- 3-4 days a week
- 1-2 days a week
- Never

What Dining Hall do you mostly eat at? (Check all that apply)

- All locations listed here

How often do you use the recycling bins after eating?

- Every Time
- Sometimes
- Never
- I didn't know about them

How often do you use the compost bins after eating (bins outside dorms, yellow bins in dining halls and/or outdoor compost bins)?

- Every Time
- Sometimes
- Never
- I didn't know about them

Which of the following compost bins do you use? (Check all that apply)

- Bins inside of the dining halls
- Lower (outdoor)

- Stokes (outdoor)
- Maloney (outdoor)
- Outside my dorm
- None

If you do not compost at BC, why not? (Check all that apply)

- I don't know what is compostable
- Sorting my trash is time-consuming
- I didn't know BC composted
- I don't know where compost bins are
- What difference will it make if I compost?
- None of my friends compost
- I don't trust that it actually gets composted
- Compost bins are at inconvenient locations
- I don't know which bins are compost bins
- I already compost
- I don't want to touch the compost bin to open it

Do you know which of the following items are compostable? (photos of items)

- Utensils
- Napkins
- Containers
- Food
- Plastic Bottles
- Soup Containers
- Wrappers for Soup Crackers

Any additional comments or concerns regarding student interest in composting? Let us know!
