

Certificate of Environmental Stewardship

EDF Energy Services proudly recognizes:

Trustees of Boston College

For purchasing **237,294** Renewable Energy Certificates

Which is equivalent to **237,294** megawatt hours of electric consumption starting June 2020 through May 2023. This is the equivalent of taking 36,247 passenger vehicles off the road for one year or 36.2 wind turbines running for one year. The wind RECs will be retired in Texas following the corresponding calendar year they were consumed.

A handwritten signature in blue ink, appearing to read 'Deborah Merrill', written over a horizontal line.
