Institution

Describe your institution to provide context and enable normalized results. Some inputs are mandatory in order to calculate your footprints, and some are optional. The more information you provide, the more complete your results will be. We also use these data sets to facilitate comparisons within an aggregated campus sustainability data set. When you view your results, you can normalize them using the budget, building space, population, and meal information you enter here.

Institution Name *

Select a name from the dropdown. If your institution is not listed, select "Other - not listed" and enter the full legal name of the institution.

Country *

ZIP Code (for purchased electricity eGRID) *

After entering or changing your zipcode, tab or click out of this field to update the eGrid options below.

What is first day of your fiscal year? This day will be used to establish your annual inventory based on fiscal year.

Jul

1

A fiscal year is the twelve-month period that an organization uses for budgeting, forecasting and reporting. Although many organizations follow the calendar year, a fiscal year can start at any point in the year and end 12 months later.
