**Re: Loyalist College STARS 2.0 Report Submission**

To whom it may concern,

I am proud to present Loyalist College's first Sustainability, Tracking, Assessment and Rating System (STARS) report. This report represents an important milestone for the College and will be used to guide and inspire our efforts going forward. We now know exactly where we stand today so that we can celebrate our successes and plan for improved performance in the future.

For a number of years, Loyalist College has been ramping up our efforts on the sustainability front. The formation of a Sustainability Committee, followed by the articulation of an overarching Sustainability Policy and the inclusion of Sustainability as a key metric in our Strategic Plan are all evidence of our efforts to embed sustainability at the core of decision-making. Our rating reflects this commitment.

I would like to recognize the many Loyalist staff and faculty that contributed to this report. Their willingness to collaborate and their dedication to providing accurate and thoughtful responses has directly led to the successful completion of this report and renewed the conversation around sustainability in the process. We are proud of our Bronze rating and are eager to keep the momentum going. Thank you also to the Association for the Advancement of Sustainability in Higher Education (AASHE) for the opportunity to participate in such an important endeavor and the guidance and support provided by your staff along the way.

I affirm that the information is correct to the best of my knowledge and accurately reflects the College's current sustainability performance.

Sincerely,

Maureen Piercy  
President and CEO
