

The Honorable Jocelyn Boyd
Public Service Commission of South Carolina
101 Executive Center Dr., Suite 100
Columbia, SC 29210

Re: Docket number 2018-320-E

Dear Ms. Boyd:

As the Executive Vice President for Academic Affairs and Provost and co-Chairs of the Clemson University Sustainability Commission, we strongly support the proposal by Duke Energy to initiate a Green Source Advantage Program. As the land grant University for South Carolina, Clemson University has a responsibility to set the example of reducing its carbon footprint. Despite the wonderful resource of the 17,500 acres of the Clemson Experimental Forest, its rather dissected topography limits its potential for large solar arrays. By allowing Clemson University to purchase renewable energy through this proposed Green Advantage Program, the University can more quickly and efficiently purchase renewable solar energy through its main provider--Duke Energy.

Robert H. Jones
Executive Vice President for
Academic Affairs and Provost

Office of the Provost
Clemson University
206 Sikes Hall
Clemson, SC

Asst. 864-656-3940
provost@clemson.edu

Clemson has a stated goal of NETZERO by 2030 and while this is very ambitious, this proposed Green Source Advantage Program will definitely assist in this quest.

Sincerely,

Dr. Caye Drapcho
Associate Professor of Biosystems Engineering and Provost Fellow
Co-Chair, Clemson University Sustainability Commission

Dr. Robert H. Jones
Executive Vice President for Academic Affairs and Provost
Office of the Provost

Dr. Vic Shelburne
Professor Emeritus of Forestry and Natural Resources and Provost Fellow
Co-Chair, Clemson University Sustainability Commission
