To AASHE STARS Review Committee:

I affirm that the responses submitted to the AASHE STARS (Sustainability Tracking Assessment and Rating System) are accurate as of this date. We were diligent in contacting relevant College faculty and staff and reviewing published reports and inventories to ensure that we have only reported correct data.

We are very pleased with our significant progress in this second STARS assessment. We used the results from our first STARS Silver evaluation in early 2016 to establish a baseline against which to measure our progress. We used many of the specific STARS measurement criteria to develop our Sustainability Plan goals and objectives and chart our improvement in meeting certain metrics.

Thank you again for creating and sponsoring this objective STARS evaluation system that assists our continuing efforts to become a more sustainable institution.

Sincerely,

Jonathan Gibraltar
President
