Letter of Affirmation

Innovation C – Development of Engineering Guidelines for Living Shoreline Projects in New Jersey.

This letter is meant to ensure that the policies, practices, or outcomes that the institution is claiming for these innovation credits are truly innovative. It also affirms how the innovations meet the criteria outlined below.

Which of the following STARS subcategories does the innovation most closely relate to?

1. Research
2. Water

Please do not hesitate to contact me should you have any questions or concerns.

Sincerely,

Jon K. Miller, PhD
Research Associate Professor
Department of Civil, Environmental, and Ocean Engineering
