

Environmental Project Reflection Survey

This reflection survey is about your experience working on real changes facing the Earth. There are many students working on a variety of different projects, so we ask you for a brief description about the experience you had.

Reflection surveys can boost retention of information and understanding. It itself is a key part of the experiences. We want to know how it affected you, what worked and what didn't so we can improve.

Your responses will be kept confidential. We will let your instructor know

that you have completed the survey, but your individual responses will be anonymized before before being made available to your instructor.

First Name

Last Name

Major or Department

Faculty Instructor or Advisor (if you are a student)

Indicate the program or course in which you participated:

Naturalist Training

Land Management

Water Research Training

Describe your project/program. What did you do?

What environmental issue(s) did your project/program address?

Reflect on your experience. How did it relate to your coursework?
What did you think or feel about it? (If your instructor required a reflection paper, you can cut and paste it here.) 250 word minimum.

How did your understanding about environmental topics change? 25 word minimum.

What new skills or abilities did you learn? 25 word minimum.

What did this experience make you want to learn more about? 25 word minimum.

If you could change something about the experience, what would it be? 10 word minimum.

Did you work on a team with other students?

Yes

No

How many hours did you work on the project/program?

1-5

6-10	<input type="radio"/>
10-20	<input type="radio"/>
20-40	<input type="radio"/>
> 40	<input type="radio"/>

How many hours did you spend outdoors as part of the project/program?

0	<input type="radio"/>
1-5	<input type="radio"/>
6-10	<input type="radio"/>

Did you help a community member, SSU staff member, K-12 teacher or other partner to address a real world issue?
