Dear USF Tampa Campus Community:

This is a voluntary online survey for all students, staff, and faculty who work and/or attend classes at the USF Tampa campus. This survey should take approximately 10 minutes to complete.

This survey is being conducted to collect data about your travel choice decisions and travel patterns to and from the USF Tampa Campus during a typical week. This data will be used to calculate the greenhouse gas emissions generated from commuter travel to and from the USF Tampa Campus.

A report will be generated by the USF Office of Global Sustainability. This periodic reporting is part of our American College and University Presidents' Climate Commitment, signed by President Genshaft in 2008, to reduce our campus carbon footprint.

Your participation in the survey is confidential. The survey instrument is restricted to one response per I.P. address. The I.P. address will be deleted from the record and never connected to your answers in any way. The USF IRB has determined that this survey constitutes program evaluation and does not require USF IRB oversight.

This survey is completely voluntary. You can choose to participate in the survey or withdraw from it at any time. There is no penalty if you stop taking part in the survey. You will not be paid for your participation in this survey, nor will you directly benefit from taking this survey. However, by participating in this survey, you will assist USF, local governments and transportation agencies to plan transportation improvements for the USF Tampa Campus.

This survey was developed by the Center for Urban Transportation Research at the University of South Florida, through funding from the Florida Department of Transportation. This survey is being administered by USF Parking and Transportation Services. If you have any questions about this survey, please contact Sara Hendricks, [Hendricks@cutr.usf.edu](mailto:Hendricks@cutr.usf.edu) and 974-9801.

**Please complete this online survey by 5 p.m. on November 18, 2016.**
