The total I gave you is pretty much it. There is only maybe two small purchases that are non-EPEAT. I didn't track that.

Is there a total number for all tech expenses, both EPEAT and non-EPEAT?

Hi James:

The total we spent on technology that meet the EPEAT standards is \$185,475.
Please see below for the breakdown:

Gold - \$172031
Silver - \$13,049
Bronze - \$395

Attached is the backup. It's off by \$500, but from an audit stand point, I'm not going to look for it since it looks immaterial. :)
Mai
