Florida Tech Sustainability

Sustainability Linktree

SOSA Engage Page

Recycling

cardboard, paper, some metal, and some plastics can be recycled using the single-stream recycling bins. The facilities website has the most up to date information Students can use Publix to recycle plastic bags and packaging.

fit.edu/facilities/sustainability/recycling

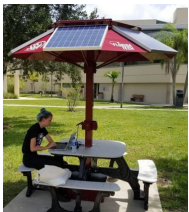

Res-Life

Donate extra or unwanted furniture and clothes at the end of the year for the Leave Green Initiative, run by the Residence Life Sustainability Committee which also hosts different green themed events throughout the year.

Electric Car Charging

EV charging stations are available at Roberts Hall/Folliard Alumni Center, L3Harris Student Design Center, behind both the Gordon L. Nelson and the L3Harris Center for Science and Engineering. As well as inside the parking garage next to Panther Dining Hall.

Solar Charging Tables

6 solar tables, 3 more are coming. Outlets, wireless charging, and nightlight all powered by solar panels on top!

Water Bottle Filling Stations

Cut back on the use of single use plastics by refilling your water bottles on campus.
