

May 31, 2023

AASHE STARS review team,

I affirm that I have conducted an external, independent review of Michigan Technological University's 2023 STARS submission. I used the STARS Review Template for the initial review, completed on May 15 and again for the second review, completed on May 30, 2023. I can confirm that the MTU team successfully addressed all errors and data inconsistencies identified in the comprehensive peer review process.

Sincerely,

A handwritten signature in black ink, appearing to read "Jes Thompson".
