Sustainable Systems Education and Research**

**Institute for the Environment**

February 9, 2011

To whom it may concern:

The Robert A. Macoskey Center for Sustainable Systems Education and Research at Slippery Rock University of PA was created in 1990 to promote sustainability at SRU and in the local community. The Center is located on 83 acres of the university campus and enacts it's mission in three ways:

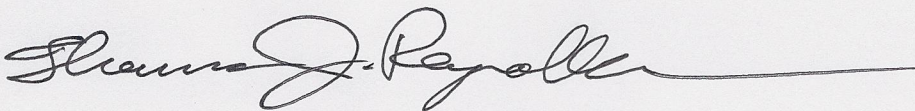

Education about sustainability through events, workshops and programs;

Physical demonstration of sustainable technologies and systems; and

Supporting sustainability-focused academic initiatives and research.

For more information about the Macoskey Center please refer to our website at: [www.sru.edu/ramc](http://www.sru.edu/ramc)

Sincerely,

Thomas J. Reynolds, Director
