Dear STARS Committee,

I affirm that the Universite de Versailles Saint-Quentin-en-Yvelines Study Abroad Program offers students the opportunity to study Environmental Studies and Natural Resource Management as an exchange student. This opportunity is available during both the fall and winter semesters. UVSQ offers a highly reputable interdisciplinary program in sustainability and environmental studies, which is open to all majors. This program is designed for Environmental Studies minors wishing to complete 15 credit hours abroad. Classes are taught in either English or French, and emphasize hands-on problem solving approach, real-world experience, and engagement with the local community. Students have an opportunity to take classes with French and international students from all over the world.

Sincerely,

A handwritten signature in blue ink that reads "Rebecca Hambleton".

Rebecca Hambleton
Director, Study Abroad & International Partnerships
