RE: Bryn Mawr College STARS Report Submission

The mission of Bryn Mawr College is to provide a rigorous education and to encourage the pursuit of knowledge as preparation for life and work. Bryn Mawr teaches and values critical, creative, and independent habits of thought and expression in an undergraduate liberal arts curriculum for women. Bryn Mawr also seeks to sustain a community diverse in nature and democratic in practice, for we believe that only through considering many perspectives do we gain a deeper understanding of each other and the world.

Bryn Mawr College is committed to environmental sustainability, and approaches sustainability with the innovative thinking for which the College is known. We recognize that sustainability is an issue of social justice, and as such is vital to our mission as a socially responsible institution. The results of the STARS© survey provide a guide for future sustainability endeavors that will improve the well-being of our community and environment.

As a participant of the STARS© program, I am pleased to verify the information submitted to be a complete and accurate representation of Bryn Mawr's Sustainability Program. Faculty, students, and staff participated in providing information, making STARS a campus-wide endeavor.

Sincerely,

Kimberly W. Cassidy
President
