Philadelphia, PA 19103

Dear Association for the Advancement of Sustainability in Higher Education

Please accept Nova Southeastern University's (NSU) first STARS submission. As the Vice President for the Office of Facilities Management, I affirm that the information submitted on behalf of the University in this report is accurate.

NSU's commitment to sustainability is of high importance to our staff and faculty, but most importantly, to our students. We look forward to utilizing the AASHE's STARS certification as a tool to educate our community on sustainability, while also identifying areas of sustainable opportunity for our University. NSU's core values include Academic Excellence, Student Centered, Integrity, Innovation, Opportunity, Scholarship/Research, Diversity, and Community. We believe that these core values are directly represented in our active participation with the AASHE STARS program and our University's sustainability goals.

We are proud to announce our University's commitment to sustainability and look forward to continuing to lead the way as a premier private University and in Broward County.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jessica Brumley", is written over the printed name.
