July 16, 2021

To Whom It May Concern:

This letter signifies the review and approval of the University of Illinois at Chicago's 2021 Association for the Advancement of Sustainability in Higher Education (AASHE)'s Sustainability Tracking and Assessment Reporting System (STARS) report.

I, and my Loyola University Chicago colleague, reviewed each credit following the provided template and identified issues through a series of reviews. This process identified areas for improvement and correction and I believe all credits have been sufficiently completed as of the time of this letter.

We commend UIC for their excellent work on sustainability on their campus and in the community and especially their leadership around serving the Chicago community, outstanding academic programs, and terrific Climate Action Implementation Plan.

Thank you for the opportunity to review this work.

Sincerely,

A handwritten signature in blue ink, appearing to read 'A. Durnbaugh', followed by a long horizontal line.

Aaron Durnbaugh
