

1. Do you see Harvey Mudd as an environmentally conscious college? Why or why not? What does the college do that you view as environmentally friendly or unfriendly?
2. What do you know about the Hixon Center? What do you think they do? Is their role on campus important?
3. Do you know of any current sustainability projects or initiatives at HMC, or on other campuses? Do you think those projects and initiatives are successful?
4. What barriers exist here at Harvey Mudd that make it harder to be environmentally conscious? What could the college do to remove these barriers?
5. Thinking about your life as a whole, what, if anything, has inspired you to make environmentally friendly choices? What makes you engage with environmental issues?
6. Are there sustainability projects or initiatives that you would like to see happen here at Mudd? What do you think is the best role for students to play in any future environmental initiatives that the college might present?
7. FACULTY: Do you think it is important to demonstrate the links between your course material/content and sustainability? What do you do, if anything, to make those links
