Dear AASHE STARS Steering Committee,

I am writing on behalf of Harvey Mudd College to confirm the accuracy of all information provided our Harvey Mudd College's Sustainability, Tracking, Assessment & Rating System (STARS) report submission. The data presented in this report is a comprehensive summary and representation of our ongoing commitment to sustainability.

In submitting this report for the second straight year, we hope to demonstrate the many steps we have taken as an institution to advance sustainability efforts and awareness at Harvey Mudd College across all aspects of academic and campus life. This is a testament to our commitment as an institution to address the environmental challenges of the present and future, as well as to our efforts to involve our entire campus community as we address those very challenges.

We are excited to continue our efforts on campus and to continue to be involved in AASHE through the regular submission of STARS reports and ongoing engagement in AASHE conferences and initiatives.

I am grateful to all of the individuals who have helped advance sustainability at Harvey Mudd College. I would especially like to acknowledge the hard work and contributions of the Hixon Center for Sustainable Environmental Design, our Facilities and Maintenance department, and all other students, faculty, and staff who made the completion and submission of this report possible. Please do not hesitate to contact me with questions or comments.

Sincerely,

Maria M. Klawe
