

- Legend**
- ditch plug
  - area of restored hydrology
  - depression
  - hummock
  - knotweed treatment area
  - phragmites treatment area
  - yellow iris treatment area
  - natural regeneration
  - Large woody debris

**Project Details:**  
 Depressions Total: 65,706 sq ft (1.5 acre), 5,110 yd<sup>3</sup>  
 Depression A: 10,092 sq ft (0.23 acre), 785 yd<sup>3</sup>  
 Depression B: 20,420 sq ft (0.47 acre), 1,588 yd<sup>3</sup>  
 Depression C: 8,670 sq ft (0.2 acre), 675 yd<sup>3</sup>  
 Depression D: 23,174 sq ft (0.53 acre), 1,802 yd<sup>3</sup>  
 Depression E: 1,380 sq ft (0.03 acre), 107 yd<sup>3</sup>  
 Depression F: 1,500 sq ft (0.034 acre), 117 yd<sup>3</sup>  
 Depression G: 470 sq ft (0.01 acre), 36 yd<sup>3</sup>  
 Hummocks: (total for all): 60,564 sq ft (1.39 acres), 5,074 yd<sup>3</sup>  
 Ditch plug: 1,490 sq ft, 36 yd<sup>3</sup> soil, 60 yd<sup>3</sup> crushed stone  
 Woven geotextile fabric: 1,500 sq ft  
 Area of restored hydrology: 12.56 acres  
 Woody debris: 50 yd<sup>3</sup> including 5 snags  
 Knotweed treatment areas: 2.9 acres (not all areas shown)  
 Yellow iris treatment area: 2.94 acres  
 Phragmites treatment area: 0.1 acre  
 Natural regeneration areas: 18.7 acres
