To Whom It May Concern,

We are pleased to submit our first STARS report to AASHE. This report has been two years in the making with diligent efforts from our faculty, staff and students working together to gather data. Leading the efforts was Dr. Susan Kaspari, who has been working closely with our division, as well as collaborating with other departments to gather the data, analyze the data for completeness, and then validate the data. She has kept extensive records of where the data source came from and followed up with these persons to ensure items were not missed.

As an executive sponsor, stakeholder and partner with the STARS effort, I support our 2019 submission with confidence. Please do not hesitate to contact our office should you have any questions.

Sincerely,

Andreas Bohman  
Vice President of Operations
