Berlin, January 2023

This book is for myself, but may it inspire you to tune into yourself a bit more every day, too.

This project has been very influential on the way I see myself. Some of the photos are still hard to look at for me, but I am learning to allow that, accept it and not fight so hard against the way I see them.

Surrender is about just that. It is a reminder that I for myself need to surrender to vulnerability in order to progress and grow. And a reminder that the path towards more self-acceptance is never just linear, but a steady flow of waves.

Thanks to Michael, Katharina, my grandmother, Nishchay, Nellie, Bea, Maya, Tabea, Tzila, Conor, Jillaine and Renata. This would not have been possible without you and I am forever grateful for your support.
