
WE INVEST IN COMMUNITIES

Baceline was founded on a commitment to investing in and strengthening local communities. The recent tragic events in our country -- and specifically within the African-American community -- have only forged a greater resolve in our beliefs and commitment to these communities. Our tenants are diverse and we take great pride in serving and supporting them in any way that contributes to their success.

We stand united with African Americans and those who continue to push for social justice and equality. We are committed to being part of a solution that fights against racism, police brutality, and all injustices. Baceline Investments believes a strong community is a place of opportunity, allowing each of us to thrive. Without justice and equality, strong communities can't exist.
