

Let's talk: PrEP 2-1-1

Also called: PrEP On-Demand

Here's how to take pills for PrEP 2-1-1:

First, anticipate a time for when you're gonna hook up with somebody!

Next, within 2-24 hours **BEFORE** having sex, take 2 pills.

24 hours after having sex, take 1 pill.

48 hours after having sex, take 1 final pill.

Repeat this process every time you anticipate having sex or hooking up!
