**I AM
COLORING**

**I AM CEO BUSINESS
COLORING BOOK**

MY NAME IS:

I AM COLORING

LETTER

I wanted to thank you again for being a guest on the show. This is a small token of appreciation and hopefully inspiration for you. As a "CEO," you know it's so important to continue to sharpen the saw.

It took some time to come up with the "right" gift to send to you that would hopefully provide inspiration as well as an opportunity for us to stay connected. Please use hashtag #iamcoloring to share your creations and visit us at iamcoloring.com.

Studies have shown that adult coloring can reduce stress, increase motor skills, improve sleep, improve focus and help with relaxation. With the disruption and change happening in our world, I hope this is something that helps and please let us know if we can do anything additional.
