2. The group sugar producing companies having more than one sugar producing units may maintain the stock as defined in Para (1) of this Order, either unit-wise or for the group as a whole.

3. Besides, while allocating the maximum quantity of white/refined sugar for sale in the domestic market by the sugar mills during the month of March' 2019, the quantity of sugar sacrificed/diverted due to production of ethanol from B-heavy molasses from October,2018 to December,2019 **has been included** in the February, 2019 month end notional stocks. As such, from the month of March,2019 onwards sugar mills shall **not** be allowed to sell additional quantity, over and above the quantity indicated in column 4, on account of sacrifice due to production of ethanol from B-heavy molasses

4. As indicated in the stock holding limit order No. 5-1/2018-Sugar Control dated 31st October, 2018 and 30th November, 2018, the sugar mills were required to export entire quantity of Minimum Indicative Export Quota (MIEQ) allocated to them for export during Sugar Season 2018-19. For this purpose sugar mills were required to set their quarterly export targets and intimate the same to DFPD. Further, if a sugar mill fails to intimate their quarterly export target before the end of any quarter, the quarterly export quota will be deemed to be one fourth (1/4th) of the total MIEQ of 2018-19 sugar season. The Fulfilment of the quarterly export target intimated by the sugar mills or the deemed quarterly export quota target, as the case may be, shall be monitored by DFPD based on actual export reported by the sugar mill through P-II return. In case, a sugar mill fails to achieve its quarterly sugar export target or the deemed export target, the equivalent quantity of un-exported sugar during the said quarter shall be deducted in three equal instalments from the quantity of sugar to be allocated to them in Column 4 of table of monthly stock holding limit order for each month in the subsequent quarter.

5. Besides, the production of raw sugar by the sugar mills has also been added in the February, 2019 month-end notional stock. The total exported quantity upto January, 2019 during current sugar season 2018-19 has also been added in the February, 2019 month-end notional stock.

6. The sugar-mill wise Maximum quantity of white/refined sugar for domestic sale and dispatch during the month of March' 2019 as given in column 4 of the table, has been worked out on the basis of following parameters:

(i) The March, 2019 Stock holding limit has been prorated on the basis of giving equal weightage, i.e. 50 % each to total sugar production of sugar during the sugar season 2017-18 and the month end notional stock for the month of February, 2019.

(ii) The notional month-end stock for the month of February, 2019 has been worked out on the basis of month end stock for **January, 2019** (as reported on P - II) adding expected production for **February, 2019** subtracting actual release for February, 2019. For expected production of **February, 2019** production for corresponding period of **February, 2018** has been taken into account. In case

sugar mill, has not been operational during **February, 2018**, production for the month of **January, 2019** has been factored in. Besides the total exported quantity up to January, 2019 as reported in P-II has been added to **January, 2019** month-end-stock. The difference between expected production and actual production for the month of January, 2019 has been adjusted while arriving at February, 2019 end notional stock.

(iii) The deductions of sugar on account of non-export of sugar as per the quarterly targets for the first quarter from October, 2018 to December, 2018, fixed by the sugar mills or the deemed quarterly export targets as the case may be, have been made in respect of those sugar mills who have not exported any quantity of sugar against their quarterly targets for the first quarter i.e. October, 2018–December, 2018. No deduction has been made in respect of the sugar mills who have exported or partially exported their quarterly export quota (MIEQ) for the first quarter i.e. October, 2018 to December, 2018. The sugar mills which have completely fulfilled their MIEQ obligation exported targets or the deemed export targets for the first quarter of the current sugar season 2018-19 as the case may be, have been incentivised by allocation of 25 % of the quantity deducted from the non-exporting sugar mills.

(iv) Show cause was issued to the sugar mills for violation of stock holding order for the month of November, 2018. Except 13 sugar mills, replies to SCNs have been received which are under examination. The excess quantity which have been sold by the said 13 sugar mills have been deducted from the proposed allocation in the month of March, 2019.

7. The deductions and incentives taken into account while arriving at the figures given in Column 4 of the table of this Order are indicated in the Annexure.

8. Any violation of this order would attract the penal provisions under the Essential Commodities Act, 1955, as amended from time to time.
