

SAP® Business ByDesign™

For LIFE SCIENCES

IN CLOUD LIFE SCIENCES HELPING YOU TO MANAGE YOUR CLINICAL TRIALS AND INTELLECTUAL PROPERTY.

In Cloud Life Sciences for SAP Business ByDesign makes digital transformation simple, straightforward, fast and affordable. Life Science companies have comprehensive patent portfolios which all need to be managed in an efficient and speedy manner. To date the complex agreements between drug companies, co-owners and inventors has been an administrative nightmare.

Now by rolling out In Cloud Life Sciences companies can easily manage their complex patent structures and at the touch of a button apportion revenue and costs in real-time to the co-owners and inventor accounts. Using state of the art analytics functionality In Cloud Life Sciences will give you real-time analysis by patent, co-owner, inventor, region and more.

As a fully globalised solution, In Cloud Life Sciences for SAP Business ByDesign will deliver to life sciences a solution to cover all areas of the supply chain. From clinical trials to realisation, financial accounting, intellectual property management and more.

“Life Sciences is the most productive sector of the UK economy”

Professor Sir John Bell
