Radford ranked ninth-best place to raise a family in Virginia

Radford has been ranked the ninth-best place to raise a family in Virginia for 2021 by HomeSnacks.com. According to the website, “To narrow down the most fam-

ily friendly cities in Virginia, [HomeSnacks.com] looked at several factors: crime, education, family friendly activities, and percent of households that currently have chil-

dren. The cities also had to have a population of at least 12,000.” Radford’s data show that the city has a lower cost of living and lower crime rates than the national average.

Health district now offering online self-scheduling for vaccine appointments

The New River Health District (NRHD) now offers an online self-scheduling tool to enable those who live and work in the New River Valley to make their appointment to receive a vaccine.

To make an appointment, visit Get an Appointment Now (www.nrvroadtowellness.com/get-an-appointment-now) or call the Vaccine Scheduling Center at 540-838-8222.

“Adding another method to get an appointment helps us vaccinate more people as quickly as possible,” said Noelle Bissell, the district director. “These different options give us flexibility to adapt

to changes in vaccine supply and make sure we can use all of the doses and volunteers we have as efficiently as possible.” The New River Health District includes Montgomery, Giles, Floyd, and Pulaski counties and the City of Radford.

In addition to the online self-scheduling, individuals also may continue to seek vaccine appointments by calling the Vaccine Scheduling Center at 540-838-8222. The center is open Monday through Friday from 9 a.m. to 6 p.m., Saturday from 9 a.m. to 3 p.m. and is closed on Sundays. Individuals may also pre-register

any time by visiting www.vaccinate.virginia.gov and providing contact information to receive a return phone call, text, or email to schedule a future vaccine appointment.

“We are still requiring appointments to receive the vaccine for anyone under 65,” said Bissell. “If you are over 65, you may walk in to any of our vaccine clinics with an ID and get your COVID-19 vaccine.”

For information on upcoming vaccination clinics, check www.nrvroadtowellness.com.

For general COVID-19 questions, call 540-267-8240.

Radford passes city budget, tax rate on first reading

Heather Bell

RADFORD - The Radford City Council unanimously passed the city’s fiscal year 2022 budget on the first reading with the second of two required votes set for Monday, April 26.

The budget includes a six-cent increase on the real estate tax rate, bringing the rate to 84-cents-per-\$100 of a property’s value. The increase is to provide funds for the debt service on the McHarg Elementary School renovation and expansion project. The yearly \$880,000 debt service payment requires 9.46 cents on the tax rate.

“Finding \$880,000 for debt service is extremely challenging,” said Mayor David Horton about the tax increase. “This is never an easy decision to make.”

“This is something we have planned on for a long time,” said Vice Mayor Naomi Huntington. “The increase is driven by the McHarg project.”

The \$28,726,722 general

fund includes a four percent pay increase for city employees. All other tax rates, utility rates and fees, such as electric, solid waste, water, sewer, personal property, machinery and tools will remain the same.

The city council is considering a possible increase to the tobacco and cigarette tax, however, which could go into effect on July 1 if the council opts to move forward with it. The city’s current tobacco tax rate is 15 cents per pack of cigarettes. The state allows for up to 40 cents per pack. Christiansburg is currently considering a move to 40 cents, and Blacksburg is considering increasing to 30-cents.

“Right now, we are the lowest of any locality in the area,” said Radford City Manager David Ridpath.

The final vote on the budget and real estate tax rate is set for the next regularly scheduled city council meeting on Monday, April 26, at 7 p.m. in the city council chambers at 10 Robertson St.

Literacy Volunteers of the NRV presents Word Game Weekend April 23-25 to help local adults learn to read

Game on. Choose a word game, challenge friends and family, and have fun raising funds to help local adults learn to read.

Literacy Volunteers of the New River Valley will host the Word Game Weekend Extravaganza April 23 (World Book Day) through April 25 in support of adult literacy.

Participants can play from their homes as they challenge friends or family members to play word games of choice -- at home or online -- and receive a “Words Change Worlds” T-shirt.

“Everyone’s a winner be-

cause donations help local adults learn to read,” said Linda Jilk, Literacy Volunteers’ executive director.

All competitors will be entered into a drawing to win prizes donated by Oriental Trading Company, Cracker Barrel, the Virginia Museum of Transportation, Texas Roadhouse, and local artist Karen Holbert.

Individuals of all ages are invited to pay \$20 to play and receive a T-shirt. Literacy supporters who want

Students from RU’s Department of Design show off latest designs in fashion show

Students in Radford University’s Department of Design are letting the world see their latest fashion creations in a virtual spring fashion show.

The fashion show is normally held as a live event on campus but is premiering online this spring as a virtual event. The show was directed by Assistant Professor Rebecca Dias, who oversees graduating seniors as they piece together their final fashion design ensembles at Radford University.

Dias said that she received help from fellow Assistant Professor Dr. Bruce Parsons, who produced and edited the show. A virtual show was initially created for fall 2020’s “Fashion Fete” event; however, as ongoing pandemic protocols continue to limit the size of crowds, the fashion design faculty decided to showcase this event as a virtual show, too, with hopes of returning to live fashion shows in the fall of 2021.

Dias said that the students have done great work and should be proud

Senior design major Morgan Gray presents garments from her “Hands Off” collection, which is featured in the Radford University Department of Design’s 2021 spring fashion show.

of their accomplishments. While audiences will watch the unveiling of the collection over the course of only a few minutes, students have been

working to conceptualize and create their ensembles for nearly eight

Dave Banker, youth services specialist at the Radford Public Library, films an episode of “Cooking with Dave,” a weekly show on the Radford Public Library’s Facebook page.

‘Cooking with Dave’ combines cuisine and library catalog

Heather Bell
 hbell@ourvalley.org

RADFORD - A weekly Facebook show is combining cooking demonstrations with highlighting the Radford Public Library’s catalog with scrumptious results.

“Cooking with Dave” features Dave Banker, the library’s youth services specialist, whose love for cooking and efforts to reach library patrons in creative ways during the pandemic led to the creation of the show. Banker says he took the enjoyment of cooking at home to work and started film-

ing the weekly Facebook show last September.

“I absolutely enjoy cooking at home; I always have,” he said. “And I’m always trying new things out. For Easter Sunday, I made purple potatoes with olive oil, fresh rosemary and Kalamata olives; gluten-free gnocchi with tomatoes, fresh basil, and fresh mozzarella; and for dessert a flourless chocolate cake with a pureed blackberry/sugar topping.”

Banker says he has filmed about 30 episodes of the show so far and has several favorite recipes among those he has featured. He primari-

ly chooses recipes from cookbooks available at the Radford library so patrons can check out the books following the episodes. When asked what his favorites have been, Banker picked a top three so far:

“Goopy Chocolate Butterscotch Treats” from a cookbook called “No Oven Lovin’.” “It’s an extremely tasty no-bake dessert,” Banker said. “And, in fact, when my wife and I travel down to Wise County here soon to visit her parents, I’m going to make that for them as a belated birthday treat

See Cooking with Dave, page 3

UPCOMING EVENTS

Saturday, April 17:

Radford Farmers Market opening

The Radford Farmers Market will be held each Saturday from April 17 through October 30 from 9 a.m. until 1 p.m. in the New River Valley Community Services parking lot (the Old Wade's parking lot) on West Main Street.

Teen Dungeons and Dragons

At the Montgomery Floyd Regional Library online from 2:00 p.m. until 4 p.m. DnD is now virtual on Discord. The staff suggests downloading Discord on your device for ease of access, but this is not required. Join the Discord server, contact shodges@mfrl.org for more info. Ages 11 years and up.

Prices Fork Elementary, Kiwanis Brunswick stew fundraiser

Prices Fork Elementary School and the Kiwanis Club of Montgomery County-Blacksburg are resuming their annual Brunswick stew fundraiser between noon and 2 p.m. at the new North Star Church, 3929 Prices Fork Road. Pre-orders are strongly encouraged at 540-951-5834 or PFESPTA@GMAIL.COM.

This will be a drive-through pickup. Stew costs \$10 per quart or \$9 per quart with the purchase of five quarts or more with payment by cash or check payable to PFESPTA. John Drew Clary will be mixing his famous recipe again. The Kiwanis Club stocks a Pre-K food pantry at Prices Fork Elementary every month by purchasing food from Feeding America Southwest. Kiwanis has also donated to the school's young children's playground.

Women's Mountain Bike

Clinic

Sponsored by Blacksburg Parks and Recreation from 2:00 p.m. until 4:00 p.m. Proper braking, cornering, and climbing techniques, and how to repair a flat tire are among the topics that will be taught. The ride will be on the Poverty Creek Trail system and, depending on the group, the specific trails may vary. Participants will meet at the Pandapas Pond upper parking lot. For ages 11 and up. The cost is \$20 for residents and \$30 for non-residents.

Saturday, April 17 - Sunday, April 18:

Cadets to march, fire cannon

The VT Corps of Cadets will take a 13-mile march on the Huckleberry Trail from 7:30 a.m. until 8:30 a.m. today. The cadets will be using the trail between the library and Heritage Park. They will follow COVID-19 safety protocols. At the conclusion of the march, Skipper, the VT Corps' cannon, will be fired three times between 2 and 3:30 p.m. from Lane Stadium. The actual time will depend on how long the march takes subject to weather and road conditions. Skipper will also be fired up to 10 times during a training event from 11:30 a.m. until 1:30 p.m. on Sunday, April 18, at Smithfield Plantation.

2021 Virtual Run in Remembrance

Virginia Tech's 3.2-Mile Run in Remembrance will be offered as a virtual event this year. The university is inviting Hokies across the country and around the world to run, walk or jog on their own and post a picture online using #VT32Run. The decision to not hold an on-campus event for the second year in a row was made to encourage proper distancing and

adherence to state and local public health guidelines related to COVID-19. The virtual Run in Remembrance will be hosted as the Virginia Tech community reflects on the vibrant lives of the 32 students and faculty who were tragically taken from us on April 16, 2007. Registration for the 3.2 for 32 Run in Remembrance is now open. Visit the Rec Sports website for more information. The virtual event features a printable bib and the option to join the Stridekick App's virtual group journey to log participation with other Hokies. This year's event provides the opportunity to purchase a commemorative 2021 Virtual Run in Remembrance t-shirt (at cost) with shipping or local resident in-person pickup options. Register and purchase t-shirts at the VT student affairs website.

Sunday, April 18:

Kayaking skills course: Introduction to whitewater kayaking

From 10 a.m. until noon at the Blacksburg Aquatic Center. Ages 11 and up. Cost is \$20 for residents and \$30 for non-residents. Learn the fundamentals of the roll, bracing, and edge control from experienced staff in an indoor pool. Necessary equipment is provided. Personal equipment is welcome.

Tuesday, April 20:

Radford City School Board meeting

The Radford City School Board will have a regular meeting at 6 p.m., at the School Administration Building. A copy of the agenda can be seen at www.rcps.org.

Wednesday, April 21:

Art Club: Virtual Meeting

At the Christiansburg Library from 2 p.m. until 3 p.m.

Saturday, April 24:

Family Game Night

Montgomery Floyd Regional Library online. Jackbox party night games will be played in a family-friendly setting. Email shodges@mfrl.org for more information.

Tuesday, April 27:

Radford Zooms with Ron Peterson Jr.

The Radford Public Library hosts Ron Peterson, Jr. for a Radford Reads author talk. He will be discussing a person of local interest from his new book, "Chasing the Squirrel: The Pursuit of Notorious Drug Smuggler Wally Thrasher." Thrasher grew up in Pulaski County.

The library will also present a Meet-the-Author book discussion on Zoom at 6:30 p.m. on May 4.

Chocolate Cheesecake Virtual Cooking With Your Instant Pot

At the Meadowbrook Public Library; at 5:30 p.m. Join Angie Helm for virtual Instant Pot cooking lessons. Learn how to make chocolate cheesecake using an instant pot to create a quick dessert. Visit the YouTube channel at the Montgomery Floyd Regional Library.

Wednesday, April 28, May 12, May 26

Hahn Horticulture Garden Virtual Road Trip

This five-stop virtual tour of gardens and arboretums from

across the country continues on April 28 at 4/28 at 3:30 p.m. with the Lewis Ginter Botanical Garden with VT alumnus Brian Trader. On May 12 at 2 p.m., the tour presents the Wisconsin Arboretum with VT alumnus David Stevens. The tour then concludes on May 26 at 2 p.m. at Lotusland with Paul Mills and Rebecca Anderson. Register online for these talks and a zoom link will be provided: https://virginiatech.qualtrics.com/jfe/form/SV_cumxRA4Mec96guy. A recording of the past visit to the Greater Des Moines Botanical Garden is available at <https://youtu.be/HT84NkyzHKC>

Ongoing Through Saturday, April 24:

'Unbearable Beauty' Exhibit at Moss Arts Center

The exhibit is open each Wednesday from 10 a.m. until 5 p.m. and on Saturdays from 10 a.m. until 4 p.m. through Saturday, April 24. The exhibit is a demonstration of the devastation human activity has wreaked on the environment. The exhibit is free and open to the public.

Throughout April:

Grab-and-Go Crafts

All the month of April at the Meadowbrook Public Library. Call the library to request take-and-make craft kits. They are available for grab-and-go with curbside pickup. They are free but supplies are limited.

StoryWalk

All the month of April, at the Christiansburg Library. Exercise your brain and body as you read and walk the trail. Begin at the library at the College Street entrance of Downtown Park. This month's book is "Move!"

Christiansburg PD: Two recent officer impersonation cases were fabrications

In a statement released on Tuesday, April 13, the Christiansburg Police Department reported they have had four calls of motorists being stopped in Christiansburg by someone impersonating a police officer, the last two of which investigation has revealed to be unfounded in that the reported incidents never occurred.

One case involved a juvenile who reported having been stopped in front of a local business. According to the Christiansburg Police Department, surveillance video captured from a nearby security camera confirmed that while the complainant did pass by the location at the reported time, the driver was

never stopped, and no other cars passed by the location for several minutes after the complainant.

Because the case involved a juvenile, the police statement said, criminal charges will not be filed and further details about the final case disposition will not be released.

The most recent case reported was also cleared as unfounded, according to the police department, after the complaining witness confessed to detectives that the story was fabricated and that the incident never occurred. That motorist is an adult and has been charged with filing a false police report. Again, further details about motive or intentions will not be re-

leased at this time, the statement said, since the criminal case is still pending.

"We are aware that there is a tremendous amount of public concern about these cases and are also aware that there has been considerable social media interest in these cases," said the department's statement.

"We want to assure the community that the Christiansburg Police Department takes these matters very seriously," the police department said. "Ensuring the safety of the citizens in our community is always our first priority. Our criminal investigations division has devoted countless hours to investigating these cases. Detectives and

patrol officers have also spent a great deal of time conducting focused patrol operations, both high-visibility marked patrols and undercover operations. We will continue to devote all available resources to both solving these cases and to ensuring the safety of our community.

"Additionally, the Virginia State Police recently cleared a similar case in Botetourt County that involved a similar vehicle description as that given in some of our local cases. As reported by the news media, the motorist in that case also confessed to fabricating the story.

"An unfortunate side effect to reports of this nature is that they tend to encourage

copycat reports," the police department's statement said. "These false reports divert time and resources away from actual cases and can delay response to legitimate calls for service. However, the fact that some of these reports have been false does not change the fact that we continue to devote extensive investigative and patrol resources to the unsolved cases and will continue to do so in an effort to ensure that motorists are safe on the highways and streets in Christiansburg.

"We very strongly encourage citizens to report any criminal behavior, suspicious activity or threats to public safety they are aware of to our department."

Fashion Show from page 1

months. Students not only design their own garments around a theme of their choice, but they also participate in designing the fashion show itself, including styling the ensembles, selecting locations to shoot, and making other decisions related to the visual presentation of materials.

Senior design student Morgan Gray will unveil her collection called "Hands Off," which deals with themes of sexual assault. "I'm super-proud of my work. It came out exactly how I wanted it to. I've only been sewing for three years, so it was a challenge. I'm proud that I could pull this off," said Gray.

Gray has also gained a lot of experience using a laser cutter to create components for several of the garments in her collection.

She said that she fell into design somewhat haphazardly, but is glad that she ultimately became a fashion design major. She recalls taking an interest in making clothing as far back as when she was 10 years old.

"The first time I wanted to sew was when I watched Adventure Time and I wanted to make Finn's hat," she said. She decided to attend Radford University to pursue a business degree, but when she arrived on campus and found out about the fashion design program, she decided to try it out and ended up declaring it as a major.

Fellow senior design major Eleni Tufa will also be debuting her collection titled "Ayne Bego," which translates to "beautiful eyes" in the Ethiopian language of Amharic. Originally from Ethiopia, Tufa says that she was disappointed that there could not be a live fashion event, but is excited to be realizing her lifelong dream of being a fashion designer.

"Since I was a child, I would want to take clothes and cut them up and refashion them into new garments," says Tufa. She began taking fashion design classes when she moved to Texas from Ethiopia during high school. Her experience cemented her passion for the field, and she later chose Radford University specifically for its fashion program. The Department of Design's small class sizes were advantageous for overcoming communication barriers as she was able to spend more time working directly with her professors.

Tufa's collection of ensembles takes traditional Ethiopian formal attire and gives it a more modernized look. She says that many formal occasions in Ethiopian culture call for white attire. Her designs introduce colors and patterns to those types of garments. Her goal was to represent her culture while offering something that is different with a more modern style.

NRCC fall registration open; summer registration continues

Registration for the fall 2021 semester at New River Community College is now open to new and returning students and registration for the summer semester is continuing.

NRCC plans to offer more traditional in-person course offerings in the fall than have been possible recently with hybrid and online courses. The full fall schedule is available at www.nr.edu/schedule/.

The fall 2021 semester includes courses in more than 90 degree, diploma and certificate programs, as well as

short-term workforce development offerings. The traditional 14-week fall semester begins August 23.

NRCC will also offer 10-week and seven-week sessions this fall. The 10-week session begins September 22. The first seven-week session begins August 23, and the second seven-week session begins October 12.

Students who need financial assistance to help cover the cost of tuition have many options, including new G3 and Re-Employing Virginians (REV) funding for certain programs. REV funds are

available to qualifying Virginia residents who have lost their full- or part-time job due to COVID-19 and who filed a claim for unemployment benefits on or after Aug. 1, 2020.

The G3 program is a tuition assistance program for Virginia residents who qualify for in-state tuition and whose family income falls below an identified threshold and who enroll in designated programs leading to jobs in high-demand fields. Specific information about these funding options can be found at www.nr.edu/g3 and www.nr.edu/rev.

Information for new students is available at www.nr.edu/admissions/register.php or may be obtained by contacting the NRCC Advising Center at (540) 674-3609 or advising@nr.edu.

Summer 2021 class registration is also open to those who need to catch up on class or who want to plan to get ahead in their program of study, or for those students who want to take classes that can transfer to their four-year college or university in the fall. More than 170 classes are scheduled at NRCC this summer including transfer classes in art, biology, chemistry, economics, english, history, math, music, psychology, and religion.

The full summer schedule can be found at www.nr.edu/schedule/. The 10-week summer session and the first five-week summer session begin May 20, and the second five-week session begins June 25. Short-term workforce development offerings have varying start dates in the summer and fall. Specific information about these offerings is available at www.nr.edu/fastforward/.

Virginia Tech students answer the call at COVID-19 helpline

Questions surrounding the pandemic are seemingly endless, and Virginia Tech students are providing some answers through the university's COVID-19 helpline.

Every day, six to eight students gather in a cluster of offices tucked behind Lane Stadium to field questions by phone from the community about COVID-19. Since Sept. 2, they've answered more than 4,500 calls.

"The helpline allows the community to feel confident about what Virginia Tech is doing to fight this virus," said helpline worker and Virginia Tech student Alexa Williams. "Getting to be part of such a diverse network is a big testament to how the university quickly mobilized to best care for their students and faculty. The pandemic put me out of work from my other job back in the spring, and I've had a few COVID-19 scares myself. I wanted to help students facing the same complications."

In the fall, Virginia Tech identified the need for a service through which community members could find the answers to all COVID-19 related questions in one place. University leaders realized that it would be much more effective for people to speak with an actual person, rather than typing a question into Google.

Susan Gill, who is director of new media for Virginia Tech University Relations, saw an opportunity to lend her expertise and experience communicating through social media and jumped into action.

"I got together with four colleagues to figure out how we could stand

Anne Scyrkels, a Virginia Tech student, is a member of the university's COVID-19 helpline team. Photo by Lee Friesland.

this thing up," said Gill. "It was an opportunity to make sure our messaging everywhere was consistent. Even the people who have the best intentions need some more education sometimes. Education needs to happen, and that's what the call center is for."

The call center launched in August. It started off with employee volunteers who would simultaneously answer the phones while working their full-time positions.

However, over winter break, Gill noticed that students could provide an even more suitable voice while answering questions as they were experiencing many of the same uncertainties as the callers, so she asked students studying public health to help. Forty-five students joined the team in January. Now, up to eight students work the helpline per day, answering calls from 9 a.m. to 5 p.m. throughout the week and from 11 a.m. to 4 p.m. on weekends.

"I think it really helps students to hear from other students," said Gill. "They have a different mindset than I have. I don't have a college-aged child, but I am a mother, so I feel like I can really be helpful to the parents.

I can speak to parents as a peer. Our students have that same experience with their own peers. They have the best authority when it comes to addressing the student experience."

"In the future, I would like to work in an advocacy position working on public health policy or in a clinical setting working in women's or children's health," said Niema Smith, a second-year student at Virginia Tech who is interested in going into the public health advocacy field. "Working at the helpline is a great way for me to practice my etiquette and educating others on the latest public health topics while keeping that information easily digestible."

The students end up answering questions on a very broad spectrum, from how testing works to the length of time for quarantine. Compassion has proved to be the number one asset the students can offer to callers.

"It comes down to being supportive, empathetic, and available," said Gill. "That's all people really want right now, and our students are providing that."

By Rosie Hutchison '21, intern with Virginia Tech University Relations.

Historic Montgomery

Little River Milling and Grain Company, owned by Carson Thompson, was located at Graysontown near where Route 613 crosses Little River into Pulaski County. Dating to the early twentieth century, this mill was similar to the many mills that served community farmers throughout Montgomery County by grinding cornmeal, wheat flour, and livestock feed.

Cooking with Dave

from page 1

for my mother-in-law."

"Banana and Meat Stew" from a cookbook in the children's section called "Cooking the East African Way." "I picked this one to make simply because I was curious how meat and bananas would go together in a stew, and taste," he said. "And, surprisingly they go together really well. For most of my videos, I make the dish right here on the spot (at the library) because I try to pick recipes that don't require a kitchen. A stew, however, pretty obviously does. So I had to make this at home and bring it in. To make the video a little more interesting I invited two co-workers to try it with me on camera. It was a big hit all around."

And, third, one of the few recipes Banker has made that is not from one of the library's cookbooks, is a family recipe for "Ambrosia." "This was something my grandmother would make every year at Christmas," he said. "I was able to give a shout-out to

my family in that one, and we filmed it around the beginning of December. So, it was nice and festive. I had to call up my mom and ask her for the exact recipe but it's basically just oranges, coconut, and cherries. With a lot of love."

Banker says he is "happy to accept cooking ideas from folks," saying he does "try to mostly pick recipes that come from books we have here at the library so that I can promote our collection in each video. But from time to time it's fun to mix it up; and I like a good challenge."

"Cooking with Dave" is live on Facebook each Tuesday at 10 a.m., but can also be viewed after the live event has ended on the Radford Public Library Facebook page. Also, Banker said, "If patrons are interested in trying their hand at any of the recipes we've filmed, they can find the recipes posted in the comments section of every video we've posted."

ONLINE ONLY AUCTION

Ends Thursday April 29th at 4 PM
Ranch Style Home for Sale in Christiansburg VA!
404 Miller St Christiansburg VA 24073

Bid Online Now at VAAuctionPro.com

Well maintained brick ranch featuring a 1,572 sq. ft. home with a 900 sq. ft. unfinished basement. The home has 3 nice sized bedrooms and 2 full baths. The home would be perfect for a young couple starting out or someone seeking a one level home in town. Has hardwood flooring, ceramic tile in baths. The bedrooms and front room have carpeting. The large family room features a gas fireplace. Town water and sewer. Large backyard with 2 storage buildings.

This property consists of 2 tax parcels which total .41 acre. A lot line revision may be possible and allow for another house site.

Preview Dates - Thursday April 22nd @ 5 PM

OPINION

I share office space with a thing that sits and plans destruction

I have a problem. Gee, isn't that earthshaking news. I am an analog guy in a digital world. The world today often confuses me, leaving me wondering "What just happened?" Nothing makes me ask that question with more frequency than does that godson of Hitler that sits in the cubicle where I work from home. I'm talking, of course, about my computer. It wasn't really manufactured overseas or somewhere like that by nerds, geeks, or any other allegedly hard-working folks in some assembly-line plant using the latest technological advancements. That's just a myth Silicon Valley concocted to keep us from discovering the cold, hard truth. And what's the truth? My computer and others just like it were spawned in Hell. And -- trust me on this -- it knows. It knows exactly when it can inflict the most damage, erase the most files, destroy forever my most creative, soaring work, that which will surely land me a Pulitzer Prize or at least a letter from a miffed Messenger reader.

It waits, carefully plotting its sabotage under the pretense of being helpful and efficient. (If my computer will allow it, I'm going to share one of my favorite etymological tidbits.) "Sabots" are those wooden shoes the Dutch wear a lot of. I have a pair in the house here, if you'd like to see them. Sabots weren't worn indoors, and they weren't worn as the main footwear. The place where I picked up those sabots was actually below sea level. It was rather disconcerting to look around at the dikes the Dutch had built to contain the water that actually sat at head level, not sea level. Thus, it got pretty damp around there. You couldn't drive into the village. You had to stop and park your car and hike in. The villagers kept the sabots by their front doors to wear over their regular shoes when they left the house. Here's the story. When the unrest of the Industrial Revolution hit the Netherlands, workers struck a blow against management by tossing their sabots into the machinery, which, as you can imagine,

really gummed up the works. Hence, "sabotage." (This has nothing to do with anything else, but it's perfectly harmless, rather useless information that at least for a moment got my mind off that malevolent terrorist on my desk that's lurking and plotting.) Anyway, back to the point at hand. One of William Faulkner's characters remarks that mankind isn't really evil; he just doesn't have much sense. Speaking from extremely personal experience, I can't say the same thing about computers. The series of Terminator movies had it right as far as I'm concerned. It isn't blundering, doltish mankind that will do itself in; it will be the machines. They're smarter than we are to begin with because they lack, glands, hormones and the ability to be distracted by a computer of the opposite sex (or gender if you will). And much like teenagers who want the car keys or money, they're relentless. They won't quit until they've destroyed all our sanity, our equilibrium, our ability to

function, and our religion. In that respect, they're much like golf. I am hereby issuing a call to revert to more primitive machines before it's too late. At least they're not planning to render us irrelevant. I learned to type (with one finger) on an old Underwood rescued from my grandfather's attic. I practically had to ball my fists to press the keys, and the impression from the cloth ribbon was often smudged. But it did exactly what I told it to, and when I rolled that sheet of paper out, I held something I had created. As opposed to a fancy-smancy printer that belches forth whatever it wants to. I have mentioned in the past that the late Lewis Grizzard was the greatest Southern comic in history. He went to his grave never having used even an electric typewriter. But, Lord, that man could write. Is there a lesson there for the rest of us? I think I started losing my way about the same time Billy Crystal was in City Slickers trying to figure out how to pro-

gram a VCR. I never did figure it out, and it's been downhill ever since. I don't even trust my remote. Too many buttons to press. Who in the heck can keep up with all of them? Anyway, I --- Uh, oh. My computer just blinked, the screen went blank, and my printer started buzzing and whirring, and I'm not responsible for any of that. Could it be? It is ready to launch a computer-driven move for world domination? Oh, no. It's got me. The mouse just shocked me so badly that ARGHHHHHHH-HHHH! Just kidding. But I'd keep the lights on if I were you. Computers like the dark. *The author is a man of a certain age who isn't ashamed to admit or to accept the fact that the world has simply passed him by and his time has come and gone. Montgomery County public schools receive grant for career, tech education programs

The Montgomery County Public Schools are among 16 high schools and technical centers across the commonwealth that have been awarded \$37,500 each to upgrade equipment for and make other improvements in their career and technical education programs. Virginia Superintendent of Public Instruction James Lane announced the awards Thursday. "With this funding" Lane said, "the commonwealth continues to carry out its commitment to making the critical investments necessary to give students the tools and training they need to be competitive in the 21st-century economy." The awards, by school division, are as follows: Alexandria: Governor's

Health Sciences Academy at T.C. Williams High (enhanced virtual and augmented reality technology in healthcare) Buchanan County: Buchanan County Career, Technology, and Higher Learning Center (adult full-body nursing simulator, virtual monitor and medication scanner) Chesapeake: Chesapeake Middle School (robotic and drone devices) Cumberland County: Cumberland High (virtual reality equipment, 3D printer, computer numerical control and laser engraver) Frederick County: James Wood High and Millbrook High (agricultural bovine breeder, injection and milking simulators) Giles County: Giles

County Technical Center (clinical skills manikin, clinical experiences simulator and multi-pad skills trainer) Hampton: Keoughtan High (Wi-Fi enabled prototype creator and equipment for augmented reality) Henrico County: Advanced Career Education Center at Hermitage High (computer numerical control and waterjet training system) Hopewell: Hopewell High (stereo zoom microscopes, digital evidence kits, forensic laptops and fingerprint scanners) King William County: King William High (digital single lens reflex camera, large format printer and cold and compression therapy system) Louisa County: Louisa County High (solar/wind

energy training systems) Montgomery County: Governor's STEM Academy (computer numerical control and hydraulic guillotine master shear) Nottaway County: Amelia-Nottaway Technical Center (geriatric, adult and pediatric manikins and auscultation trainer) Richmond County: Governor's STEM Academy at Northern Neck Technical Center (computer numerical control, plasma machine and laser cutter) Rockbridge County: Rockbridge County High (computer numerical control, multi-process welder, laser engraver and water chiller cutter) Suffolk: The College and Career Academy at Pruden (dual skin down-draft paint booth).

Radford News Journal is a newspaper of, by and for the people of Radford. We encourage letters from our readers on topics of general interest to the community and responses to our articles and columns. Letters must be signed and have a telephone number where you can be reached for verification. All letters will be verified before publication. We reserve the right to deny publication of any letter and edit letters for length, content and style.

Radford News Journal (USPS 387-780) is published twice a week for \$44 a year in the City of Radford, \$53 elsewhere in Virginia, and \$54 out of state by Virginia Media Inc., P.O. Box 429, Lewisburg, WV 24901. Periodical postage paid at Christiansburg, VA. POSTMASTER: Send address changes to RADFORD NEWS JOURNAL 1633 W. Main St., Salem, VA 24153.

Radford SO accepting applications for deputy position

The Radford Sheriff's Office is accepting applications for a Crisis Intervention Team (CIT) deputy position. Candidates must be 18 years of age and a high school graduate or possess a GED certificate. Candidates must also have a valid Virginia driver's license or be able to obtain one within thirty days of their appointment. Preference will be given to individuals that currently hold a Virginia Department of Criminal Justice Services Jailer/civil process service/courtroom security certification, a law enforcement certification, and/or certification as a CIT officer. This is a full-time position that requires the deputy to work rotating day/night shifts. The starting salary is \$35,475 plus benefits. The pay will increase to \$37,001 after the successful completion of a one-year probationary period. Deputies will receive the City of Radford benefits package that includes VRS-LEOS retirement and health insurance. Applications are available at the City of Radford Administration Building located at 10 Robertson St. in Radford and at the Radford Sheriff's Office at 619 Second St. Suite 8, in Radford. Anyone with questions concerning this position, contact Major Charlie Burton at 540-731-5501. Selected applicants must be able to pass a physical agility and aptitude test that will be given on Saturday, May 22, 2021, at 9:00 am. Applicants will receive notification of selection prior to the date of testing. Applications should be returned to Major Charlie Burton; Radford Sheriff's Office; 619 Second St., Suite 8; Radford, VA 24141. The application deadline is Monday, May 10, 2021, at 5:00 p.m.

to play but don't want a T-shirt are encouraged to participate and make a donation of any amount. A list of 50 word games ideas will be sent to all registrants. Word games are available for check-out at the Radford Public Library and the Pearisburg Public Library. Funds raised through the Word Game Weekend Extravaganza will support programs to give adults the language and literacy skills they need for personal independence and family self-sufficiency. Literacy Volunteers of the New River Valley is a United Way partner agency that provides free instruction in reading, writing, math, basic computer skills, English for Speakers of Other Languages (ESOL), and assistance preparing for exams such as the GED, the U.S. Citizenship test, and the driver's license exam. Literacy Volunteers also provides family literacy programming to help parents learn to read to their children and support their children's education. "Adult literacy is more important than ever," said Jilk. "Our New River Valley neighbors need new literacy, language, and

digital skills to understand critical health information, to access community resources, to obtain basic skills or a GED to secure employment, to perform on-line job searches, to help their children with homework, and to participate in this new virtual world." According to the National Center for Education Statistics (NCES), more than 24,000 New River Valley adults read at or below Level 1, which indicates these adults struggle to read brief texts on familiar topics to locate a single piece of information. More than 38,000 local adults have Level 1 basic math skills. These adults struggle with solving a one-step problem involving counting or per cents. The Word Game Weekend Extravaganza is being held in lieu of the organization's annual spring Scrabble Tournament, a major fundraiser. The Scrabble tournament will be held Thursday, April 28, from 5:30-8:30 p.m. at the German Club of Virginia Tech in Blacksburg. For more information or to register, visit www.lvnrv.org/gamesforliteracy, email info@lvnrv.org, or call (540) 382-7262.

Virginia motorists urged to watch out for farm equipment on roads this spring

Planting season is underway in Virginia, and drivers should use caution when encountering farm equipment on the state's roadways.

"From now until the end of June, farmers will be transporting equipment like tractors and sprayers pretty regularly as they work to get their crops planted," said Dana Fisher, chairman of the Virginia Farm Bureau Federation Farm Safety Advisory Committee. "These vehicles mostly travel on rural roads where space is limited, so it's important for motorists to be careful when sharing the road with these larger pieces of equipment."

Fisher cautioned drivers about hills and blind curves on rural roads that could obscure approaching farm equipment, which typically is slow-moving.

Virginia law requires operators of vehicles that travel

slower than 25 mph to rear-mount triangular slow-moving vehicle signs when the equipment is being driven on public roadways. Many farmers also use flashing amber lights and reflective decals to alert approaching drivers.

"Once you see that SMV sign, just know that you're going to catch up to that vehicle in a hurry," Fisher said. "Understanding that closing speed is key. If you're coming up on a tractor that's going 10 mph and you're going 50 mph, you're going to close that distance fast."

Amelia County farmer Jeremy Moyer said motorists should remember that even though farming equipment can be sluggish, their operators have the same road rights as other drivers.

"Just because a car can go faster than a tractor doesn't mean you're allowed to cross double solid lines to pass

them," Moyer said.

Motorists should make sure they're visible at all times, and avoid risky passing maneuvers. Dangerous or illegal passing can cause collisions if an operator of the equipment makes a wide turn or isn't given enough time to brake for slowing traffic ahead.

Moyer noted farmers will yield to faster traffic when possible, and most will try to move their equipment during times that minimize interactions with commuter traffic.

"Our farmers are doing the best they can to stay out of the way, but they've also got to get their crops growing so everyone can eat," Fisher said. "That may mean there's going to be a little bit more slow-moving traffic on the roads this spring. But in the end, waiting behind a tractor for that extra 30 seconds is well worth it to make sure everybody gets home safe."

WORSHIP DIRECTORY

Obeying God

Read 1 Kings 4:1 through 6:38

King Solomon was so wise that kings all over the world heard about Him and sent their people to listen to him. Solomon wrote many songs and proverbs. He knew a lot about animals and plants. He also wrote the Book of Ecclesiastes, which teaches us that knowing and pleasing God are more important than being wise.

Solomon decided it was time to build a temple for God. So, four hundred eighty years after the Israelites left Egypt, Solomon began construction on the temple. He finished it just seven years later. It was beautiful—made of stone, carved wood, and a lot of gold. God made a promise to Solomon:

"If you follow my decrees, observe my laws and keep all my commands and obey them, I will fulfill through you the promise I gave to David your father. And I will live among the Israelites and will not abandon my people Israel" (1 Kings 6:12-13).

God values obedience above all other virtues. That is how we show God we love Him. In return for our obedience, God blesses us and will not forsake us.

Thought for Today: Blessing will come from God when you obey His rules.

Quicklook: 1 Kings 6:11-14

If your church is not listed and if you are interested, call Randy Thompson at 540-389-9355 or email at advertise@ourvalley.org

Blacksburg's boys and girls, Radford's girls run to region cross-country championships

Pictured above are Blacksburg High School's Region 4D cross-country champions. Girls' team members are Mary Finch, Mari Garza, Annika Griggs, Dulaney Hudgins, Mia Jones, Audrey Link, Allie McDonald, Lily Rascher, and Ella Semtner. Boys' team members are Zachary Bibeau, Landon Dinkel, Jonathan Goerlich, Jonas Roach, Vance Ruiz, Conner Rutherford, Ben Schmitt, Harrison Tracy, James Wallace, and Harrison Whitfield.

Marty Gordon
Contributing writer

Blacksburg High School ran away with the Region 4D cross-country championships Tuesday as both the boys and the girls won the region titles on Blacksburg's home course while the Radford girls claimed the region 2C cross-country championship and the Bobcat boys qualified for the state meet with a second-place finish.

Radford's William Hartig won the boys' race.

Blacksburg finished ahead of Jefferson Forest in the girls' competition by a 22 to 40 margin. Salem was third, and Halifax County finished fourth.

The home team took three of the top four spots in the individual results with Annika Griggs second, followed by teammates Mia Jones and Audrey Link. Mari Garza crossed the finish line in

sixth place, and Mary Finch ran her way to a seventh-place finish.

In the boys' race, Blacksburg eased by Jefferson Forest 29-34. Pulaski finished third while E.C. Glass was fourth.

Blacksburg's Landon Dinkel brought home a second-place medal with teammate Jonathan Goerlich in tow for third place. Ben Schmitt finished fifth for the Bruins with Conner Rutherford

sixth.

Blacksburg will race next at the Class 4 state championship in Leesburg.

In Region 2C competition, Radford High School's girls' team took top honors by outdistancing Alleghany 40-58. Glenvar was third with 73 points.

Emma Hastings-Crummey and Abby Barnes took individual spots two and three for Radford, and Ellie Buskill was sixth. Glenvar's

Carly Wilkes came in first.

Radford finished second in the boys' competition with 35 points as Alleghany claimed the team title, and James River was third.

William Hartig of Radford claimed the gold with a time of 16:39. Teammate and brother Cyrus Hartig finished fourth.

Both Radford squads advance to next week's state meet to be held at Green Hill Park in Roanoke.

Blacksburg's Annika Griggs (241) races with teammates Mary Finch (center back), Mia Jones (right back), and Allie McDonald (left back) at the region championship meet. Griggs placed second with Jones finishing third to lead Blacksburg to the region title.

Landon Dinkel (250) led the Blacksburg boys to the cross-country region championship Tuesday with a second-place finish.

12 Blacksburg High athletes will continue sports careers in college

Blacksburg High School recently recognized 12 student-athletes who are planning to further their sports careers in college.

The 12 athletes and their colleges and/or universities to which they are committed are Julie Anderson, the College of William & Mary; Diego Elias, Johns Hopkins University; Sam Helton, Chatham University; Abby Hunter, Western Illinois University; Claire Jenkins, The University of Mary Washington; Amanda Lowe, Virginia Tech; Lexi Nussbaum, The College of William & Mary; Grace Reynolds, Radford University; Lewis Rockwell, Carnegie Mellon University; Ashley Rutherford, Bridgewater College; William Thomas, Hampden-Sydney College; and Nicholas Zolovick, Case Western Reserve University.

A senior swimmer, Anderson plans on majoring in neuroscience or psychology. She is a four-year state-qualifier and letter winning athlete. She was first-team All Timesland her sophomore and junior years. As a senior this past season, she was team captain and she led her team to a state title. She also swam the butterfly leg of the state record-setting 200-yard medley relay and the anchor leg of the state-winning 400-yard freestyle relay.

A senior center back and central midfielder for the Bruins' soccer team, Elias will major in economics. Elias was a part-time starter as a sophomore and had earned a starting position as a junior in 2020 when the season was subsequently canceled due to the pandemic. In 2019, he was voted by his teammates as Blacksburg's most improved player as the recipient of the Jim Gwazdauskas Memorial Soccer Award.

A senior shortstop on the BHS baseball team, Helton received the Best Defense award as an eighth grader on the Blacksburg JV squad. As a freshman, he was captain of the BHS JV baseball team and was named the squad's Most Valuable Player. With the varsity as a sophomore, he was a team captain and was selected to the All-District Honorable Mention team. He looks forward to leading the Bruins onto the baseball field this season.

Hunter, a senior golfer, plans to major in business. She has played on the Bruins' varsity team since her freshman year, and has earned three letters. Her junior season, she earned First-Team All-District honors and was named to the Roanoke Valley Hall of Fame Junior Girls team. She has her sights set on a state title this spring.

A senior setter and right-side hitter for the BHS volleyball team, Jenkins plans to major in accounting. A three-year starter and varsity-letter winner, Jenkins played on the past two Bruins' 4A state semifinal teams. She was named to Second-Team All-District and Second-Team All-Region as a junior. As they headed into the regional playoffs this season, the Bruins had a 12-0 record. Jenkins has been the starting setter for her travel volleyball teams for the past seven years. For the last four years, she has played with the River Valley Juniors travel team out of Blacksburg. She also made the 2019 Prep Volleyball Denver Showcase Standout List at a Colorado Crossroads National Qualifier.

Lowe is a senior outside hitter and four-year starter for the Blacksburg volleyball team. She has earned First- and Second-team all-state honors and all-region and all-district designations. The Roanoke Times named her to its All-Timesland first- and second-teams during her career. During her junior season, Lowe received recognition for 1000 career kills. She has played travel volleyball with the River Valley Juniors for the past five years and with the Alabama Juniors the three years before that. She garnered national recognition by being named to the 2018, 2019

AVCA Phenom Watch Lists.

Nussbaum, a senior swimmer, plans on majoring in biology with a minor or double major in kinesiology. Nussbaum is a four-year state qualifier and a four-year letter-winning athlete. She specializes in the breaststroke, in which she placed sixth this year at the state competition. She was also part of the school record-setting 200 medley relay at the state meet, where she swam the breaststroke leg each year for three years. Her relay broke the school record for three consecutive years: 2019, 2020, and 2021. In 2018, she won the BHS Most Outstanding Swim award.

Reynolds is a senior sprinter who will be running the long sprints and the hurdles at Radford. She has been running track since the seventh grade. Her senior year she was a part of the 4x200 meter relay that won the indoor state championship title.

A senior swimmer, Rockwell, is a four-time state qualifier, a 15-time state finalist, a 4-year letter winner, and the holder of two Blacksburg High School records. He specializes in sprint freestyle, the backstroke, and the butterfly. He served as a captain on the squad that won its third straight state championship this past season.

Rutherford, a senior setter for the Bruins volleyball squad, plans to major in biology with a minor in psychology. Ashley was a two-year starter for the Bruins and has been a setter for nationally competitive club teams in Texas and Virginia. As a junior transfer, 2019 was Ashley's first season with Blacksburg, and she helped Blacksburg achieve a season record of 25-5, win the Region 4D championship, and make it all the way to the state semifinals. This season Ashley contributed with a cadre of senior teammates to the team's 12-0 finish in the River Ridge District.

Thomas, a senior member of the Blacksburg High School varsity football team, played on the offensive and defensive lines for the Bruins for four seasons. He will major in the humanities with a concentration in English.

Zolovick, a senior swimmer, competed in club swimming with the Hokies for 14 years and has competed up to national level meets. While at Blacksburg High School, he has scored points in the state competition all four years of participation and contributed to the team's winning the state title the last three seasons. He specializes in the backstroke and both the middle distance free- and the individual medleys. Zolovick plans to major in engineering.

Local volleyball team qualifies for national competition

The River Valley Juniors 13s of Christiansburg emerged as Old Dominion Region champions recently after they went undefeated against teams from Pennsylvania, Virginia, Maryland, New York, New Jersey, Ohio, and Texas in the Northeast Qualifier, American Division. They thus earned a bid to the USA Volleyball Junior National Championships June 26 through July 5 in Las Vegas. The team represents the middle schools of Blacksburg and Christiansburg, Dalton Intermediate School in Radford, Macy McClaugherty Elementary School in Pearisburg, and the home-school community. Pictured are (front row, left to right) Abby Neel, Sophie Russell, Jasmyn Charlton, Reese Hall, and Ela Shepherd; (back row left to right) Assistant Coach Lara Meador, Ellie Eddleton, Mattox Adams, Jaylyn Holt, Claire Hudson, Sophie Taylor, Nalanie Neal, and head coach Ellen Sloss.

In retrospect, season was a good one for Mike Young's basketball Hokies

Most fans would surely take what happened for the Virginia Tech men's basketball team in head coach Mike Young's second season of 2020-21.

The Hokies finished 15-7, 9-4 in the ACC, which was third in the conference, tying the highest finish in school history. They beat third-ranked Villanova, eighth-ranked Virginia, No. 19 Duke, and No. 24 Clemson, and defeated Syracuse in the Carrier Dome for the first time in school history. They beat Wake Forest by 38 points, the biggest margin of victory for an ACC game in school history. They beat Miami in overtime when Hunter Cattoor buried a three at the buzzer to tie it and then hit clutch free throws in the extra period to seal the 80-76 win.

They made the NCAA Tournament for the fourth straight time (No tournament was held in 2010.) as a No.-10 seed, which made Young the fastest coach in school history to make it to the Big Dance. He was named the ACC Coach of the Year, becoming just the second-ever coach at Tech to earn the prestigious honor. He also would be tabbed the district Coach of the Year.

Keve Aluma earned second-team all-league honors. Sophomore Tyrece Radford was named ACC honorable mention. Five Hokies -- Justyn Mutts, Jalen Cone, Hunter Cattoor, Wabissa Bede

and Nahiem Alleyne -- were named to the All-ACC Academic Team.

All this happened despite the complications and delays presented by the COVID-19 pandemic.

The season opener was delayed by two weeks, but the Hokies nevertheless finished 8-1 in December. They then had the season interrupted once again in February as coronavirus protocols forced the cancellation of four games.

As a recap of the season from the athletic department put it, "Overall,

HokieNation must feel pretty proud of a job well done by Young and Co., especially when you put in perspective it all was happening during the midst of the COVID-19 pandemic."

While the season ended on a disappointing note with the first-round loss to seventh-seeded Florida in the NCAA Tournament, it was nevertheless a year worth remembering. "Looking back," the athletic department noted, the players and the staff "will hold their heads high."

Radford's Trevor Price, Auburn's Caleb Wallace qualify for state golf meet

Marty Gordon
NRVsports@ourvalley.org

Floyd County took this week's Class 2 Region C golf title with a score of 331 and will advance to the state tournament later this month as the lone team from the region while Radford High's Trevor Price will move on to the state tournament as the region's co-medalist.

Auburn's Caleb Wallace also qualified for the state meet by finishing third in the Region 1C championship.

Price and Chatham's Matt Arnold each shot 3-over-par 75's at the region championship at the

Pete Dye River Course in Radford to finish as medalists.

Floyd finished three-strokes ahead of Giles for the team win. Patrick County was third and Radford finished fourth.

The Bobcats were led by Price's 75. Other team scores were Jack Davis 81; Brody Shull 90; Graham Minarik 94; Lucas Beeler 95; and Parker Prioleau 97.

George Wythe claimed the Mt. Empire District golf title earlier in the week with a 287 with Galax second (370) and Auburn third (375). GW also won the Region 1C title Tuesday at the Pete Dye River Course.

Hokies' 2021 football schedule released

The Atlantic Coast Conference Monday released Virginia Tech's 2021 football schedule.

The season will kick off on Friday, Sept. 23

against North Carolina at Lane Stadium. Kick-off time and the televising network will be announced later.

Tech's game against

the Tar Heels will mark the first of seven games at Lane Stadium in 2021. In addition to ACC home games with Pitt (Oct. 16), Syracuse

(Oct. 23) and Duke (Nov. 13), the Hokies will also host Notre Dame (Oct. 9), Middle Tennessee State (Sept. 11) and Richmond (Sept. 25) in Blacksburg.

Tech's ACC road schedule features contests at Georgia Tech (Oct. 30), at Boston College (Nov. 6) and at Miami (Nov. 20). The Hokies will close out the regular season with a Commonwealth Clash game at Virginia on Nov. 27. Tech has won 20 of the past 22 games

with the Cavaliers, including nine of the last 11 contests in Charlottesville.

VIRGINIA TECH 2021 FOOTBALL SCHEDULE

- Sept. 3: North Carolina
- Sept. 11: Middle Tennessee State
- Sept. 18: at West Virginia
- Sept. 25: Richmond
- Oct. 2: Open
- Oct. 9: Notre Dame
- Oct. 16: Pitt
- Oct. 23: Syracuse
- Oct. 30: at Georgia

Tech Nov. 5: at Boston College

Nov. 13: Duke
Nov. 20: at Miami
Nov. 27: at Virginia
Dec. 4: ACC Championship Game in Charlotte, N.C.

For as little as 1% down, Tech fans can secure season tickets in Lane Stadium for the Hokies' 2021 home slate. Flexible payment plans are also available, including the option to defer future payments to May of 2021.

Virginia Department of the Treasury

Marci Byers looks back at her first volleyball season at Virginia Tech

When new volleyball head coach Marci Byers walked onto the Virginia Tech campus for her first day on the job in January of 2020, nobody could have predicted what the next 14 months were going to look like.

Byers made the short move across the New River Valley to Blacksburg as the winningest volleyball coach in Radford University history. Her first spring was quickly cut short with the emergence of the COVID-19 pandemic, which crippled her ability to work hands-on with her student-athletes.

“It was a year like none other just because of COVID-19 and having to work with that,” Byers said about the unique year. “We were on campus probably in the gym with them about 22 days or so, and we did get a chance to do a spring match with James Madison University, and then after that we got shut down until basically August from being able to work with [the players].”

One thing that never wavered was the buy-in from the team, something she is grateful for.

“The kids really bought into what we were doing, and if it had not have been for that buy-in, I don’t think we would have gotten as far along as we did,” she said.

The Hokies finished the season 6-11 overall and 5-11 in the ACC. They finished 12th in the league, up from a last-place mark in 2019.

Tech won the first match of the Byers era with a 3-0 straight-set victory over The Citadel and carried that momentum to a weekend split against visiting North Carolina, earning her first ACC win.

The Hokies next defeated Virginia twice, 3-1 each time, marking the program’s first winning streak against their rivals in over three years. At the time, Tech was 4-1 and 3-1 in the ACC.

After a win at No. 14 Duke, the program dropped its last three matches of 2020 and the fall portion of the season to stand at 5-4, 4-4 in the ACC.

By the time the team got back on the court in mid-March, it had undergone a pause due to COVID-19 protocols and was trying to find its rhythm again.

“It was really hard,” Byers reflected on coming back after such a long

absence. “We started out in January not having everybody when we came back from our first testing group. We had kids who ended up being sent home in quarantine the very first day we came back to school, so that was 14 days. We practiced with what we had, and then we finally got everybody back after that two weeks and trying to go into our opening weekend. Then we practiced only to get ready to leave for Louisville and get shut down again.”

Losses to ranked Notre Dame and Georgia Tech and a 3-1 defeat at Florida State met the program on their return to the court.

“We got back and finally got everybody back going for our home weekend, and that was when we were actually able to see some things put together,” said Byers.

The Hokies got back in the win column with a 3-2 victory over Syracuse on March 21 with three players – Kaity Smith, Marisa Cerchio and Ashley Homan – tallying double digit kill numbers. That win would be the last of the 2020-21 season, however, as losses to Miami, Boston College, Pitt and Clemson closed out the season.

“We really felt like, even with everything that was going on, we would be able to finish somewhere in the 8-10 range in the league,” Byers said. “To finish as we did is disappointing, even though for the players who finished 15th last year, that’s an accomplishment for them.”

Still, despite the struggles of the unique season, there were some positives that Byers saw in her squad that serve as a foundation for her belief that Hokies and she will meet with more success in the future.

Asked about the positives to come out of the pandemic, Byers was quick to point out communication.

“It allowed us to be able to communicate more,”

Marci Byers's first season at Tech was devastated by the pandemic.

she said. “Obviously, it wasn’t in-person, but we were on Zoom calls a lot, FaceTime, that’s the one thing that’s changed in the last year. No one picks up the phone and makes a regular call anymore. It’s either Zoom or its FaceTime or Skype. You’re always looking at

someone face-to-face, so that’s definitely changed. I think the communication started with that and changed.” The program has gained some momentum in the offseason with the addition of two transfers, Griere Hughes from Iowa and Mekenzi Heck-

mann, who last played at SMU.

“Hopefully they can come in and provide some stability for us,” Byers said. “Hughes is coming from the Power Five level and she was a starter there most of her career, and then Mekenzi is a big, physi-

cal kid who we think is going to be able to help us right away.” Tech is also looking forward to the incoming freshman class, some of whom Byers expects will be given the opportunity to play right away.
